Dear Colleague

Draft Forward Work Programme (FWP) 2026-2027

NIE Networks welcomes the publication of the UR's Draft Forward Work Programme (FWP) 2026-2027, and the opportunity to provide feedback.

We have no specific comments on the FWP; but we do wish to acknowledge the very positive engagement we have had working together with the UR over the past 12 months. We are confident that we and the UR can continue to work constructively to address the challenging but also exciting period that lies ahead, for the benefit of everyone in Northern Ireland.

Yours faithfully

CARL HASHIM
Head of Regulation Strategy
