To: Ardines, Elena

Subject: Utility Regulator publishes its draft Forward Work Plan 2010-11 for consultation

Elena

DETI Energy Division have considered the attached FWP and are broadly content with the exception of two points, please see comments below:

Para 2.33 - the paper is referencing the wrong directive - the cost benefit analysis is being driven by IME 3 not by the energy end use efficiency directive.

Para 2.34 - reference to liaising with CER on smart grid / smart metering - should NIAUR not be liaising with DETI as well - especially as they seek to develop policies in relation to these areas ?

If you have any queries please let me know

Regards

Mary
