# Retail Market Guide NI 34a – DUoS Business Specification

## 1 INTRODUCTION

This document is a Business Specification to assist Suppliers and Systems Implementers in:

- The interpretation of the itemised DUoS Bill received from NIE Networks
- The interpretation of the DUoS Summary report

The Group section contains:

- An outline of the scope and business context
- A directory with a section for each separate file which includes:
  - A description of each file and when it will be used
  - A table containing a description of how each segment and field will be populated

### 1.1 History of Changes

Version	Source of Change	Description of Change
0.1	NIE	Initial Draft
1.0	NIE	Baseline CDA Board Approved
3.0	NIE Networks	Updated to incorporate change of name from NIE to NIE Networks and re-version alignment to 3.0
3.1	NIE Networks	Updated for System Separation

### **1.3 Syntax**

A segment, denoted SEG, is a group of one or more data fields

A field, denoted FLD, is a single data field

The repeat (rpt) column is used as follows:

- 1 – indicates that the field or segment occurs once if mandatory; may occur once or not at all if optional; or occurs once if the conditions described under 'description' apply
- 1:N – indicates that the field or segment occurs once or many times if mandatory; may occur any number of times or not at all if optional; or occurs once or many times if the conditions described under 'description' apply

## **2 DUoS BILLING GROUP**

### **2.1 Scope and Business Context**

The purpose of the DUoS Billing file is to enable a Supplier to understand the detail of the monthly DUoS Bill.

The DUoS Bill will not be delivered using the same technical approach as the Registration, Data Processing and Fieldwork messages.

## Retail Market Guide NI 34a – DUoS Business Specification
