Consultation on Seasonal Multiplier Factors for Gas Transmission 2022

Dear Jillian,

GMO NI welcomes the opportunity to respond to this Consultation on behalf of the Transmission System Operators of Northern Ireland.

The decision to maintain the current seasonal multiplier factors for the Gas Year 22/23 seems reasonable and GMO NI would welcome a full and comprehensive review of the factors alongside the review of gas transmission exit capacity arrangements in advance of Gas Year 23/24.

I would be happy to discuss our response should you wish.

Yours sincerely

Claire Stewart
