## 1. A Message from John French, Chief Executive

Dear Applicant,

Thank you for taking time to read this Guide for Applicants. I hope it gives you all the information you need to decide whether to apply for the position of **Senior Legal Advisor** within Northern Ireland's Utility Regulator.

Electricity, gas, and water are essential services that support all homes and business in Northern Ireland. We are ambitious about the future of the organisation and we are looking for passionate people who can help us achieve our goals and energetically display our organisational values.

I want to make the Utility Regulator the best place to work. To be successful in this, we need to recruit the best candidates from a range of backgrounds. Recently, we have been successful in achieving IIP Silver, and we have gained accreditation with the Diversity Mark and the Disability Committed programmes. This highlights our ongoing commitment to staff wellbeing, inclusion and excellence.

This recruitment is focused on appointment of a **Senior Legal Advisor** working within the Corporate Affairs Directorate, you will support a small team of legal advisors to assist the Utility Regulator in the discharge of its functions relating to economic and customer service regulation for Northern Ireland's electricity, gas, water and sewerage industries.

Thank you for your interest in joining the Utility Regulator. We look forward to receiving your application.

## 2. About Us, Northern Ireland Utility Regulator

### Who We Are

We are the independent non-ministerial government department responsible for regulating Northern Ireland's (NI) electricity, gas, water and sewerage industries, to promote the short and long-term interests of consumers.

### Our mission:

To protect the short and long term interests of consumers of electricity, gas and water.

### Our Vision:

To ensure value and sustainability in energy and water.

### Our Values:

Be a best practice regulator: transparent, consistent, proportionate, accountable and targeted.

Be professional: listening, explaining and acting with integrity.

Be a collaborative, co-operative and learning team.

Our statutory role is to ensure the electricity, gas and water utility industries in NI are regulated and developed within ministerial policy as set out in our statutory duties.

We are governed by a publicly appointed Board and accountable to the NI Assembly through financial and annual reporting obligations.

We have currently have the following key functional areas: Networks, Wholesale, Retail and Consumer Protection and Corporate Affairs.

We want to develop a workforce that is motivated and empowered to make a difference.

### What we do

Our statutory objectives are to:

- Protect the short and long-term interests of electricity, gas, water and sewerage consumers with regard to price and quality of service;
- Promote a robust and efficient water and sewerage industry, where appropriate to deliver high quality services;
- Promote competition, where appropriate, in the generation, transmission and supply of electricity; and
- Promote the development and maintenance of an economic and coordinated natural gas industry.

Our work involves:

- issuing and maintaining licences for gas, electricity and water companies to operate in Northern Ireland;
- making sure that these companies meet relevant legislation and licence obligations;
- challenging these companies to keep the prices they charge as low as they can be;
- encouraging regulated companies to be more efficient and responsive to customers;
- working to encourage competition in the gas, electricity, water and sewerage services markets;
- setting the standards of service which regulated companies provide to customers in Northern Ireland; and
- acting as an adjudicator on certain customer complaints, disputes and appeals.

We hold concurrent competition law powers and are NI's competition authority for its electricity, gas, water and sewerage industries.

We are uniquely placed as the United Kingdom's (UK) only cross-utility regulator. This creates both challenges and opportunities which we are keen to maximise and address as we go forward.

We have quasi-judicial powers to determine certain complaints, disputes and appeals.

In order to help us protect the interests of electricity, gas and water consumers in NI we work with a range of partner organisations. These include:

- NI Executive and Assembly;
- NI government departments, including the Department for the Economy (DfE), Department of Finance (DoF) and Department for Infrastructure (DfI);
- Energy and water utility companies;
- The Consumer Council for Northern Ireland (CCNI) whose role as an advocate for consumers is complementary to our regulatory powers;
- Government departments and bodies in Great Britain (GB) including OFGEM, OFWAT and the Water Industry Commission for Scotland and the Republic of Ireland, including the Commission for Energy Regulation (CRU); and
- Non-governmental organisations such as the Energy Savings Trust.

### Applications

In order to help you make this application and ensure that each applicant is provided with the same opportunity, the following advice is offered:

- Do not use acronyms, complex technical detail etc. Write for the reader who will probably not know your employer or your job. Include concise examples and be sure you can expand on these at interview.
- Listing the titles of various jobs you have held will not show how you meet the criteria. The panel will not make assumptions about skills and experience gained from these or the nature/name of the organisation.

- Write down clearly your personal involvement in any experience you quote. Write “I” statements e.g. “I planned meetings”, “I managed a budget”, or “I prepared a presentation”. It is how you actually carried out the piece of work that the panel will be interested in.
- Identify relevant examples – this is very important as the examples which you provide may be checked out at interview and you may need to be prepared to talk about these in detail if you are invited to interview. It is your unique role the panel are interested in, not that of your team.

An application form is designed to ensure that you provide the necessary information to determine how you meet the eligibility/short listing criteria required for this post. The panel may decide to interview only those applicants who appear, from the information provided on the application, to be most suitable in terms of relevant experience and ability.

Please note to ensure equality of opportunity for all applicants:

- On the application form you have been advised of the maximum space available for each question. This is the same for all applicants and must not be altered (except to delete spaces created when you type in your answer)
- CVs, letters, additional pages or any other supplementary material in place of, or in addition to completed application forms will not be accepted.
- You must complete the application form in Arial, font size 12.
- Information in support of your application will not be accepted after the closing date for receipt of applications. Incomplete application forms will not be considered. Application forms received after the closing deadline or which have been reformatted will not be accepted.
- Please note that the time of receipt of emailed applications will be defined by our computer systems, not the time and date sent.
- Only the details provided by you on your application form (the employment history and eligibility criteria) will be provided to the selection panel for the purpose of determining eligibility and shortlisting for the post.

### Eligibility Sift

After the closing date, the first stage in the selection process will be to conduct a sift of completed application forms against essential criteria. **You must demonstrate on the relevant page of the application form how you meet each of the criteria stated. If you do not fully demonstrate by example how you meet each of the eligibility criteria, you will not be progressed to the next stage of the process.**

Please note that the panel will not refer to the employment history section to demonstrate a requirement for a number of years' experience. You will be notified of the outcome (successful/unsuccessful) by email

### Shortlist

If further shortlisting is required, the next stage will be to conduct a sift against desirable criteria. In the event of a large volume of applicants, scored shortlisting against the eligibility criteria may also be used to form a final shortlist.

### Interview & Assessment

Following shortlisting, it is intended that the selection process will involve a separate assessment and interview stage against the criteria, key skills and competencies for the role. Assessments may be carried out remotely and candidates will be informed of arrangements closer to the time. **It is intended that the interviews will take place in Belfast, dates to be confirmed.**

Panels may test any aspect of either the essential or desirable criteria key skills or competencies. Additional stages to the selection process may be required. You will be notified of the outcome (successful/unsuccessful) by email.

### Disability Requirements at Interview

We will ask on the application form if you require any reasonable adjustments (special requirements), due to disability, to enable you to attend interview. Details of any disability are only used for this purpose and do not form any part of the selection process.

If you have indicated on your application that you have a disability and are successful in the selection process and being considered for appointment, you may be required to outline any adjustments you consider necessary in order for you to take up an appointment. If you wish to discuss your disability requirements further, please email [recruitment@uregni.gov.uk](mailto:recruitment@uregni.gov.uk)

## STAFF PROFILE Leigh Greer

### Manager, Wholesale Markets

*Leigh graduated with an honours degree in Law & Accountancy and spent her first six years of working life as an actuarial analyst and a financial analyst in the ferry industry. Leigh joined the Utility Regulator in 2010 as a Networks Analyst, building a new knowledge of electricity regulation. Since then, Leigh has worked across the organisation. In 2014, Leigh transferred to a project team, which developed a new design for the NI/Ireland wholesale market arrangements before spending two years working with the EirGrid Group as a senior regulation specialist. In 2019, Leigh returned to the regulator's office, spending six months in the Retail Consumer Protection team.*

*Since 2020, Leigh has been a manager in the Wholesale Markets directorate, which spans all-island considerations through regulation of Single Electricity Market (SEM) operations. Leigh leads a high-functioning team with complementary skills including accountancy, economics, business analysis and governance. Leigh's team is guided by a keen observational approach, application of judgement, attention to detail and an appreciation of the legislative framework, which underpins our work. The team works closely with regulatory, industry and government stakeholders on an all-island basis, regulating operations and compliance with detailed wholesale market rules, processing licencing arrangements, conducting price control reviews to ensure that regulated companies are financeable but that consumers are paying no more than is necessary, and assessing generation for security of supply in Northern Ireland.*

*Leigh says 'I am grateful to have had opportunities to work through a CMA referral, a high profile all-island project, and licensing of new technologies to contribute to NI's energy strategy. I enjoy the fast-paced nature of the work, targeted engagement with a range of parties, a focus on encouraging self-development, and knowing that our work is for the benefit of energy consumers.'*

## STAFF PROFILE Michael Campbell Retail Regulation

*While looking at financial information might be seen as dull by some I recognise that our work matters in the grand scale of things. At the end of the day my team and I are focused and are making sure, through our analysis and scrutiny, that any changes to prices, that impact on consumers, can be justified.*
