5 December 2023

Dear Clodagh,

Notice under Article 14(2) of the Electricity (NI) Order 1992 for the Power NI Electricity Supply Licence

Power NI acknowledges and welcomes the UR modifications to Power NI's licence to allow the recovery of actual costs incurred in delivering the Energy Bill Support Scheme (EBSS).

As the UR is aware, Power NI proactively and positively engaged with DESNZ in the delivery of this scheme. Whilst the scheme was particularly challenging to deliver and required significant input from across the business to ensure its success, over 470,000 customers across Northern Ireland successfully received a support payment of £600.

Power NI is committed to working with the UR to provide all the required access and transparency needed to satisfy the licence conditions on this matter.

Yours sincerely

Claire McElroy
Power NI
