Please accept this email by way of response to the Consultation on Proposed Modifications to Gas High Pressure Licences for Enduring Stranraer Arrangements, Haynestown Enduring Charging Arrangements and Other Minor Amendments on behalf of Mutual Energy.

Mutual Energy own three of the four licenced gas transmission companies in Northern Ireland: Premier Transmission Ltd., Belfast Gas Transmission Ltd. and West Transmission Ltd., and this response can be considered on behalf of all three licences.

We are broadly supportive of the proposed amendments to the licence to codify the enduring Stranraer arrangements, and we are keen that these amendments are made promptly to provide ourselves and the Stranraer Shipper with certainty regarding future capacity bookings. Having this certainty will ultimately protect NI consumers' interests going forward.

Should you have any further queries on this matter, please contact my colleague, Paul McGuckin (cced).

Thanks,
Rowan
