Dear Jamie,

**Re: EU Costs for 2023-24 – Final Et Approval**

Thank you for the opex  $D_t$  submission of the 22 May 2025 regarding EU costs in respect of ENTSO-E and CORESO membership for TY2023-24.

Given the expanding scope of activities associated with these organisations and the subsequent uplift in costs, we are content to provide an allowance for the full amount requested.

SONI has made the request under the  $D_t$  licence term. For the reasons previously discussed in historic allowances, it is our view that this approval should be provided under the  $E_t$  term to ensure consistency of approach and reporting.

For confirmation and in accordance with *paragraph 8.6(c) of Annex 1* of the TSO licence, the opex amount approved under the  $E_t$  term is detailed in the table below by tariff year [and in April 2019 prices for ease of comparison with the price control].

Tariff Year	SONI Request (April 2024 prices)	UR Allowance (April 2024 prices)	UR Allowance (April 2019 prices)
2023-24	£577k	£577k	£470k

I trust this satisfies your requirements at this time.

Yours sincerely,

**John Mills**  
**Head of Electricity Price Controls**
