

Domestic Consumer Energy Charter

Utility
Regulator

This winter, electricity and gas suppliers in Northern Ireland have committed to providing extra support for domestic consumers.

We want to encourage consumers to talk to their supplier if they are anxious about paying their bills.

If you are worried that you cannot afford to make a payment, get in touch as soon as possible. Your electricity and gas supplier will treat you with empathy and respect and will work with you to create a payment plan which suits you. All suppliers have trained staff who are happy to help. Whether you're worried about paying your bills, or you are in debt to your energy supplier already, talk to your supplier and they will work with you.

Between 1 November 2025 and 31 March 2026, suppliers have voluntarily committed to supporting you in the following ways

- 1 We will commit to making a financial contribution to a third-party hardship fund to support customers struggling to pay their bills.
- 2 If you are new to repaying debt through a prepayment meter, we will not put you on a repayment rate of more than 20%, unless you ask us to. If you are already on the maximum repayment rate of 40%, we will check in and see if you would like to move to a 20% rate.
- 3 If you are on an electricity or gas suppliers' customer care register, we will not move you onto a prepayment meter, unless you ask us to. We will take time to explain why this may or may not suit you.
- 4 If you are in debt, we will not move you onto a prepayment meter without your consent between 1 December 2025 and 31 January 2026.
- 5 We will provide you with enhanced aftercare if you are moved onto a prepayment meter to recover debt. This will include checking in with you to make sure that your debt repayment plan is manageable.
- 6 If you are facing payment difficulties, we will inform you of tariffs most suitable for your needs.
- 7 We will signpost you towards organisations who can provide further additional supports.

All year round your supplier will support you in the following ways

- As long as you are willing to work with us and keeping in touch, we will not disconnect you for debt.
- If you are in debt, we will work with you to discuss your options, including putting in place a repayment tailored to you. This would be based on what you can afford to pay and using a repayment method that suits you.
- We will continue to assess your ability to pay if you are in debt and, if appropriate, will look at options such as reducing your repayment rate and/or giving you more time to repay your debt.
- We will provide you with practical advice on energy efficiency measures, if you have trouble paying your bills, that could help you reduce your energy bills.
- We will make you aware of the additional support available through our customer care registers and how to be added to these registers if eligible.

For advice and information on how you can save money on your energy bills, please visit Consumer Council for Northern Ireland's electricity, oil and gas information page [Electricity, oil and gas | Consumer Council](#)
