For the purposes of Article 12 of the Order, the Licensee with the prior consent of the Authority may assign the licence either generally, or so far as relating to any specified persons or premises or to the whole or any part of the area within which the Licensee is authorised to supply gas.

1.9.2 Matters affecting an assignment

In deciding whether to give its consent under Condition 1.9.1 the Authority shall apply those criteria contained in Article 12(3) of the Order, and any consent shall be subject to compliance with the matters determined by the Authority under Article 12(4) of the Order.

1.9.3 Licensee may not otherwise assign its licence

Save as the Licensee is authorised to assign the licence under this Condition, the Licensee may not otherwise assign the licence without the consent of the Authority.

Condition 1.10: Transfer of Business

1.10.1 Subject to Condition 1.10.2, the Licensee shall not transfer to another person (the "transferee") all or part of its Licensed Business unless:

- (a) the Authority is satisfied that the transferee:
 - (i) is or will be licensed to carry out the relevant business from the proposed date of the transfer; and
 - (ii) will have the technical and financial capability to comply with the conditions of its licence (subject to any modifications pursuant to Condition 1.10.1 (b)) in respect of the relevant business; and
- (b) if the licence contains additional conditions which, in the opinion of the Authority, are for the purpose of protecting the interests of consumers, the transferee has given the Authority its consent (in order to give continued effect to those additional conditions) to the modification of the conditions of its licence by way of the insertion of like conditions or ones to the like effect, taking account of the purpose of such conditions, and the Licensee has consented to the modification of such additional conditions in order to give continued effect to the purpose of such conditions.

1.10.2 Exception to Condition 1.10.1

Nothing in Condition 1.10.1 shall prevent the Licensee from transferring all or the relevant part of its business to the assignee where the Authority has consented to the assignment of all or the relevant part of the licence under Article 12 of the Order or the Licensee has assigned all or the relevant part of the licence in accordance with Condition 1.9.

Condition 1.11: Payment of Fees to the Authority

1.11.1 In respect of each year, beginning on 1 April, during which the Licence is in force, the Licensee shall pay to the Authority a fee of the amount determined in accordance with this Condition (the **licence fee**).

1.11.2 The Licensee shall pay to the Authority the licence fee for each year (the **relevant year**) within 30 days of the Authority giving notice to the Licensee of the amount due from the Licensee for the relevant year.

1.11.3 For each relevant year, the licence fee shall be the total of:

- (a) an amount that is the Relevant Contribution to the Estimated Costs of the Authority for the relevant year;
- (b) an amount that is the Relevant Contribution to the Estimated Costs of the General Consumer Council with regard to the exercise of its functions relating to gas consumers for the relevant year; and
- (c) an amount which is the difference (which may be a positive or negative amount), if any, between:
 - (i) the licence fee that would have been due from the Licensee for the year immediately preceding the relevant year (the **previous year**) had such fee been calculated in relation to the actual costs of:
 - (A) the Authority for the previous year; and
 - (B) the General Consumer Council with regard to the exercise of its functions relating to gas consumers for the previous year; and
 - (ii) the licence fee paid by the Licensee for the previous year,

provided that where the Licence is in force for only a part of the relevant year, the amount payable in respect of that year shall be a proportionate part of the licence fee due for the full year.

1.11.4 Where:

- (a) the Estimated Costs of the Authority or of the General Consumer Council are

revised during the course of the relevant year (**Revised Costs**);

- (b) the Licensee has paid the licence fee for the relevant year; and
- (c) the Revised Costs would, had they applied to the calculation of the licence fee paid by the Licensee, have resulted in the calculation of a lower licence fee than that paid by the Licensee,

the Authority may, where it is reasonable for it to do so taking into consideration the timing of the Revised Costs and the provisions of paragraph 1.11.3(c), refund to the Licensee the difference between the amount of the licence fee paid by the Licensee and the amount of the lower licence fee referred to in paragraph 1.11.4(c) above.

1.11.5 Where the Licensee fails to pay the amount of the licence fee as notified to it under paragraph 1.11.2 above within the 30 day period specified, it shall with effect from the end of that 30 day period pay simple interest on the amount at the rate which is from time to time equivalent to the base lending rate of an institution designated by the Authority for this purpose.

1.11.6 In this Condition:

“Estimated Costs”

- (i) in relation to the costs of the Authority, means the costs estimated by the Authority as likely to be its costs for the relevant year as calculated in accordance with the Principles; and
- (ii) in relation to the costs of the General Consumer Council, means either:
 - (A) the costs notified to the Authority by the General Consumer Council as its estimated costs for the relevant year as approved by the Department; or
 - (B) in the event that the Authority does not receive such notification by 31 July in the relevant year, the costs estimated by the Authority (having regard to any estimate of such costs in any forward work

programme published by the General Consumer Council in respect of the relevant year) as likely to be the costs of the General Consumer Council for the relevant year

“Principles”	means the principles determined by the Authority for the purposes of this Condition generally, following consultation with the Licensee and with others likely to be affected by the application of such principles and as notified to the Licensee in writing.
“Relevant Contribution”	means, in respect of the Estimated Costs, the level of contribution to those costs applicable, whether by way of a specified amount or a stated proportion, to the Licensee as determined under or in accordance with the Principles.

PART 2

CONDITIONS APPLICABLE TO THE SUPPLY OF GAS BY THE LICENCE HOLDER

Condition 2.1: Deemed Contracts

- 2.1.1 The Licensee shall, in accordance with section 12 of the Energy Act (Northern Ireland) 2011, make a scheme for determining the terms and conditions of its Deemed Contracts.
- 2.1.2 The Licensee shall ensure that each of its Deemed Contracts provides that it will terminate automatically in the event that a Last Resort Supply Direction is given to another Gas Supplier in relation to the premises supplied under that Deemed Contract.
- 2.1.3 Subject to paragraph 2.1.5, the Licensee must take all reasonable steps to ensure that the terms of each of its Deemed Contracts are not unduly onerous.
- 2.1.4 For the purposes of paragraph 2.1.3, the terms of a Deemed Contract shall be unduly onerous for any class of domestic consumers, or for any class of business consumers, only if the revenue derived from supplying gas to the premises of the relevant class of consumers on those terms:
- (a) significantly exceeds the Licensee's costs of supplying gas to those premises;
and
 - (b) exceeds such costs of supplying gas by significantly more than the Licensee's revenue exceeds its costs of supplying gas to the premises of the generality of its domestic consumers or, as the case may be, to the premises of the generality of its business consumers (in each case excluding from the calculation premises supplied under a Last Resort Supply Direction).
- 2.1.5 Where a consumer is being supplied by the Licensee with gas under a Deemed Contract as a result of a Last Resort Supply Direction being issued in relation to his premises, paragraph 2.1.3 shall not apply until that direction stops having effect.
- 2.1.6 The Licensee shall ensure that each of its Deemed Contracts shall provide that, where a consumer intends his premises to be supplied with gas under a Contract agreed with the Licensee or any other gas supplier, the Deemed Contract will continue to have effect

until the Licensee or the other gas supplier, as appropriate, begins to supply gas to the premises under such a Contract.

- 2.1.7 If the Licensee supplies gas to a consumer under a Deemed Contract, the Licensee may not demand of the consumer any sum of money or other compensation (whether financial or otherwise) solely because the Deemed Contract is terminated (by whatever means).
- 2.1.8 If the Licensee supplies gas to a consumer's premises under a Deemed Contract, it must take all reasonable steps to:
- (a) provide that consumer with a notice:
 - (i) setting out the Principal Terms of the Deemed Contract;
 - (ii) informing the consumer that Contracts with terms and conditions that may be different from the terms and conditions of Deemed Contracts may be available from the Licensee and of how further information about such terms may be obtained; and
 - (b) enter into a Contract with the consumer as soon as reasonably practicable.
- 2.1.9 If any person requests a copy of a Deemed Contract that the Licensee has available, the Licensee must provide it to that person within a reasonable period of time after receiving the request.
- 2.1.10 In determining the number of kilowatt hours of gas that are to be treated as supplied to or taken at premises under a Deemed Contract, the Licensee must act reasonably and take into account available gas consumption data for the premises and any other relevant factor.

Condition 2.1A: Supplier of Last Resort

2.1A.1 Following the issue of a Last Resort Supply Direction, the Licensee shall (and shall procure that its Agents or Sub-contractors shall) use all reasonable endeavours to comply with any relevant arrangements that have been prepared and maintained by Gas Industry Representatives and approved by the Authority (that are in place from time to time) and that outline the processes that should be followed both in the initiation of, during and after the circumstances following the issue of a Last Resort Supply Direction.

2.1A.2 In this Condition:

Agent or Sub-contractor

means any person directly or indirectly authorised to represent the Licensee.

**Gas Industry
Representatives**

means representatives from gas suppliers, distribution system operators, transmission system operators and also the General Consumer Council.

Condition 2.1B: Last Resort Supply Direction

2.1B.1 The Authority may give a Last Resort Supply Direction to the Licensee if it considers that:

(a) circumstances have arisen that would entitle it to revoke the gas supply licence of a gas supplier other than the Licensee (for this Condition only, the **other supplier**); and

(b) the Licensee could comply with the Last Resort Supply Direction without significantly prejudicing its ability:

- (i) to continue to supply gas to its consumers' premises; and
- (ii) to fulfil its contractual obligations for the supply of gas.

2.1B.2 The Last Resort Supply Direction will:

(a) have effect on and from the date on which and the time at which the other supplier's gas supply licence is revoked; and

(b) stop having effect on and from a date, specified in the Last Resort Supply Direction, that is up to six months after the date upon which the Last Resort Supply Direction has effect.

2.1B.3 The Licensee shall, subject to paragraph 4, comply with a Last Resort Supply Direction.

2.1B.4 The Licensee is not required to comply with a Last Resort Supply Direction in respect of premises to which it would not be required to supply gas because of any of the exceptions set out in sub-paragraphs 4(a), (b) and (c) of Condition 2.17A.

2.1B.5 Within a reasonable period of time after receiving a Last Resort Supply Direction, the Licensee must send a copy of a notice to each of the premises specified or described in the Last Resort Supply Direction to inform the consumer:

(a) that the other supplier stopped supplying gas to the premises with effect on and from the date upon which the Last Resort Supply Direction had effect;

- (b) that the Licensee began to supply gas to the premises with effect on and from the date upon which the Last Resort Supply Direction had effect;
- (c) that the Licensee is supplying gas to the consumer's premises under a Deemed Contract;
- (d) that the consumer may enter into a Contract with the Licensee or any other gas supplier under which gas will be supplied to the premises; and
- (e) of the charges for the supply of gas that the Licensee may charge the consumer while supplying him under the Last Resort Supply Direction.

- 2.1B.6 The Licensee's charges for the supply of gas to the premises specified or described in the Last Resort Supply Direction must not exceed an amount that may be expected, in total, approximately to equal the Licensee's reasonable costs of supply (including, where appropriate, the costs of purchasing gas at short notice) and a reasonable profit.
- 2.1B.7 If the Licensee purchases gas to comply with a Last Resort Supply Direction, it must take all reasonable steps to do so as economically as possible in all the circumstances of the case.
- 2.1B.8 The Licensee shall, so far as is reasonably practicable, give the Authority at least five days' notice of any increase in the charges for the supply of gas to premises to be supplied with gas by it in accordance with a Last Resort Supply Direction.
- 2.1B.9 Where, within five days of the receipt by the Authority of the notice referred to in paragraph 8, the Authority determines that the charges proposed by the Licensee would be likely to cause hardship to domestic consumers, it may issue a direction to the Licensee requiring it to ensure that its charges for the supply of gas do not exceed those specified in the direction as being appropriate in order to avoid or mitigate such hardship.
- 2.1B.10 The Licensee shall comply with any direction issued by the Authority under paragraph 9, but shall not be required by that direction to set its charges for the supply of gas at a level less than that applicable to the supply by it under Deemed Contracts of comparable Domestic Premises otherwise than in accordance with a Last Resort Supply Direction.

Condition 2.2: Security and Continuity of Supply

2.2.1 Licensee to maintain its financial affairs

The Licensee shall at all times maintain its financial affairs in such a way so as not to prejudice the conduct of its Licensed Business and shall at the request of the Authority provide the Authority with such information as the Authority may reasonably request to be satisfied of the above.

2.2.2 Licensee to maintain supply/demand match

The Licensee shall at all times act to maintain the balance of its supplies of gas and demands for gas such that it can maintain a continuous and reliable supply of gas to its existing consumers from time to time, and without prejudice to the generality of the foregoing can meet all such demands for gas in accordance with the security standard.

2.2.3 Security Standard

The security standard means:

- (a) the availability of a supply of gas which would at least equal the daily firm demand which, having regard to historical weather and other data demand from at least the previous 50 years, is likely to be exceeded (whether on one or more days) only in 1 year out of 20 years; and
- (b) the availability of supplies of gas over a year which would equal the aggregate amount of daily firm demand over a year which, having regard to such data as aforesaid, is likely to be exceeded only in 1 year out of 50 years.

2.2.4 Additional Definitions

In this Condition:

"daily firm demand"	means the peak aggregate daily demand for gas by the Licensee's consumers from time to time which might reasonably be expected after the Licensee had interrupted or reduced the supply of gas to each consumer to the extent that (otherwise than
---------------------	--

	in the circumstances mentioned in Condition 2.14.4) it was entitled to do so under its contract with that consumer;
"day"	means a period beginning at 05:00 hours on one day and ending immediately before 05:00 hours on the following day and "daily" shall be construed accordingly; and
"year"	means a period of 12 months beginning with 1st October.

Condition 2.3: Use of the Network

2.3.1 Compliance with the Network Code

The Licensee shall:

(a) comply with the provisions of every Network Code in so far as applicable to it;
and

(b) act in a reasonable and prudent manner in the use it makes of each Network,

provided that the Authority may (following consultation with the Network Operator responsible for the relevant Network Code) issue directions relieving the Licensee from its obligation under Condition 2.3.1(a) in respect of such parts of a Network Code and to such extent and subject to such conditions as may be specified in those directions.

2.3.2 Particular compliance obligations

Without prejudice to the generality of Condition 2.3.1, the Licensee shall enter into arrangements with each relevant Network Operator for the conveyance of the Licensee's supplies of gas in accordance with that Network Operator's Network Code and the Licensee shall not knowingly or recklessly pursue any course of conduct (either alone or with some other person) which is likely to prejudice:

(a) the safe and efficient operation, from day to day, by a Network Operator of its Network; or

(b) the efficient balancing by that Network Operator of its Network; or

(c) the due functioning of the arrangements provided for in its Network Code.

2.3.3 Information not intentionally to mislead

The Licensee shall not knowingly or recklessly act in any manner likely to give a false impression to a Network Operator as to the amount of gas to be delivered by the Licensee on a particular day to that Network Operator's Network or as to the amount of gas to be comprised in its offtakes of gas there from on that day.

Condition 2.4: Charges for Gas and Other Terms for the Supply of Gas

2.4.1 Control over Charges in the absence of competition

If consumers of different cases or classes of cases or for different areas, whose consumption of gas at any premises is reasonably expected not to exceed 2,197,500 kilowatt hours in any period of twelve months:

- (a) do not have the opportunity of taking a supply of gas from another gas supplier (or if there is such an opportunity it does not safeguard the interests of consumers); and
- (b) the Authority determines that competition from fuels other than gas is not safeguarding the interests of those consumers;

then the Licensee shall take all reasonable steps to secure that in any period of 12 months the average price per therm of gas supplied to such consumers shall not exceed a maximum price to which the Authority has consented (and the Authority having consulted with the Licensee before deciding whether to give or withhold its consent), and (without prejudice to any other means of modifying the licence under Condition 1.8 and the Order and the Energy Order), failing consent then:

- (c) within 28 days of the date on which the Authority gives notice of its withholding consent, the Licensee may request the Authority by notice to the Authority (a "disapplication notice") not to apply this Condition 2.4.1 in which event it shall not apply;
- (d) the disapplication notice may be withdrawn by the Licensee at any time within six months of the date of the disapplication notice
- (e) unless within six months of the date of the disapplication notice (provided such disapplication notice has not been withdrawn) the Authority publishes a decision under Article 14(8) of the Order to modify in whole or part this Condition 2.4.1, this Condition 2.4.1 will continue not to be applied after that period has passed in respect of those consumers;

and in relation to charges imposed by the Licensee with the consent of the Authority where this Condition 2.4.1 applies, then the Licensee shall continue to comply with charging arrangements to which the Authority has consented until the Authority otherwise agrees with the Licensee that such consent may be modified or the need for such consent is no longer relevant.

2.4.2 Principles to be applied in consenting to Charging Basis

For the purposes of Condition 2.4.1, in giving consent, the Authority shall have regard to the need of the Licensee to be able to finance the carrying on of its activities and to make a return on capital equal to that which, in the reasonable opinion of the Authority, is appropriate.

2.4.3 Statement of charges for the supply of gas

Where the Licensee is in a dominant position in the supply of gas to consumers of different cases or classes of cases or for different areas, then the Authority may direct the Licensee to provide it with a statement of the charges being made or proposed to be made to such consumers by the Licensee for the supply of gas, and:

- (a) any question as to whether the Licensee is in a dominant position shall be determined by the Authority, having regard to any representations made to it; and
- (b) in relation to charges which are proposed to be made the Authority may direct a minimum period before these charges may be introduced from its receipt of the statement.

2.4.4 Publication of statement of charges for the supply of gas

The Licensee shall comply with any direction given by the Authority to publish in such manner as determined by the Authority the statement prepared by the Licensee under Condition 2.4.3 so as to give adequate publicity to the matters contained in that statement with respect to consumers whose demand for gas at any premises is not reasonably expected to exceed 732,500 kilowatt hours in any period of twelve months.

2.4.5 Classes of consumers

In determining which consumers constitute different cases or classes of cases for the purposes of this Condition, due regard shall be had to all the circumstances of supply (including, in particular, volumes, pressure of supply, load factors, conditions of load management including interruptability, seasonality of supply, location of premises being supplied, date, duration and terms of agreement).

2.4.6 Standard terms for the supply of gas to consumers of gas

Where the Licensee is in a dominant position in the supply of gas to consumers of different cases or classes of cases or for different areas, then the Authority may direct the Licensee to determine in so far as is reasonably practicable standard terms on which it would be prepared to enter into contracts to supply gas to such consumers, and:

- (a) any question as to whether the Licensee is in a dominant position shall be

determined by the Authority, having regard to any representations made to it;

- (b) different standard terms may be determined for consumers of different cases or classes of cases, or for different areas;
- (c) where it is not reasonably practicable to prepare standard terms as above in respect of any consumer or for consumers of different cases or classes of cases or for different areas, the Licensee shall prepare a summary of the terms on which it would contract to supply gas; and
- (d) the Licensee shall give written notice of those terms and of any material variation therein (or if the Authority so requires, a revised notice of the terms) to the Authority and, with respect to contracts for the supply of gas where the supply is to individual premises and is not reasonably expected to exceed 732,500 kilowatt hours in any period of twelve months, the Licensee shall:
 - (i) on request by any other person, furnish that person with a copy of any such notice; and
 - (ii) shall publish the standard terms for such a supply and any variation thereto in such manner as in the reasonable opinion of the Licensee will secure adequate publicity for them, and, for the purposes of this Condition 2.4.6, "standard terms" means terms as to charges and all such other matters as concern the rights and obligations of the contracting parties.

Condition 2.5: Undue Discrimination and Undue Preference

2.5.1 Dominant position

If the Licensee, together with any of its affiliated or related undertakings operating in the same market, is in a dominant position in a market for the supply of gas to consumers whose demand for gas at any premises is not reasonably expected to exceed 2,197,500 kilowatt hours in any period of twelve months, then the Licensee, in the terms on which it supplies or offers to supply gas to consumers in that market:

- (a) shall not show undue preference to any consumer or class of consumer; and
- (b) shall not exercise any undue discrimination against any consumer or class of consumers;

and shall not set prices for the supply of gas to consumers at premises:

- (c) in any market or markets in which it has a dominant position which are unduly onerous; or
- (d) in any market or markets which are predatory.

2.5.2 Established competition

Condition 2.5.1 shall not prevent the Licensee from supplying or offering to supply gas to all or any class of consumers on terms which are reasonably necessary to meet established competition in relation to such consumers, provided that the Licensee:

- (a) does not set terms in respect of the consumers in question which:
 - (i) are predatory; or
 - (ii) show undue preference or unduly discriminate as between any such consumers; and
- (b) does not set terms in respect of the supply of gas at premises to consumers of any other class in relation to whom the Licensee has a dominant position, which are unduly onerous.

2.5.3 Predatory/unduly onerous terms

For the purposes of Conditions 2.5.1 and 2.5.2,

- (a) terms shall be taken to be predatory if but only if:
 - (i) charges in accordance with those terms do not cover such avoidable costs as, in the opinion of the Authority, they ought reasonably to cover; and
 - (ii) the terms are made available for the purposes of, or are likely to have the effect of, unfairly excluding or limiting competition between the Licensee and one or more other gas suppliers;
- (b) terms in respect of particular consumers shall be taken to be unduly onerous if the revenue from supply on those terms:
 - (i) significantly exceeds costs in respect of those consumers; and
 - (ii) exceeds such costs by significantly more than in the case of the generality of consumers supplied with gas at premises by the Licensee save for those in any market which is by virtue of Condition 2.5.7 considered to be a separate market, but, unless the converse is manifestly the case, terms shall not be taken to be unduly onerous if other gas suppliers to consumers at the premises in question are only willing to do so on more onerous terms, having regard to the costs of market entry they have incurred or would thereby incur.

2.5.4 Class of consumers

In distinguishing consumers and classes of consumer for the purposes of Conditions 2.5.1 and 2.5.2, due regard shall be had to all the circumstances of supply (including, in particular, volumes, pressure of supply, load factors, conditions of load management including interruptability, seasonality of supply, location of premises being supplied, date, duration and terms of agreement).

2.5.5 Determination by Authority

Any question arising under this Condition as to whether the Licensee or any other gas supplier (whether alone or together with any of its affiliated or related undertakings operating in the same markets) is in a dominant position in a market shall be determined by the Authority, having regard to any representations made to it.

2.5.6 Additional Definitions

In this Condition:

"avoidable costs"	means those costs which would not be incurred by the Licensee if he did not supply the consumers in question, including (but with due regard to the timing thereof all relevant future outlays affected by the decision to supply; and
"terms"	means all the terms on which a supply of gas is provided or offered, whether as respects charges, methods of payment or otherwise.

2.5.7 Separate market for domestic consumers

For the purpose of this Condition, any market for the supply of gas to domestic consumers shall be considered to be a separate market from any market for the supply of gas to business consumers.

Condition 2.6: Facilitating Supplier Transfers

- 2.6.1 The Licensee shall ensure that its practices, procedures and systems facilitate Supplier Transfers to take place within the Relevant Period.
- 2.6.2 The Licensee shall inform the Authority as soon as it becomes aware that its practices, procedures and systems may not, as a result of the number of notifications it is receiving from any relevant Network Operator, be able to facilitate compliance with paragraph 2.6.1.
- 2.6.3 The Authority may issue directions requiring the Licensee to take steps to review and improve its practices, procedures and systems to facilitate a Supplier Transfer in such manner as may be specified in the directions and the Licensee shall comply with any such directions from the date specified.
- 2.6.4 In this Condition –

Objection Period means any period within which the Licensee or the Registered Supplier (as the case may be) may in accordance with the industry rules and procedures raise and/or withdraw (as the case may be) an objection to the Supplier Transfer.

Relevant Date has the meaning given in Condition 2.18.

Relevant Period means:

- (i) where the Licensee is the Registered Supplier for the premises, the 15 working day period (excluding the Objection Period) following notification to it by the relevant Network Operator that another gas supplier has applied to be the Registered Supplier for the relevant premises;
- (ii) where the Licensee has entered into a Contract with a consumer, the 15 working day period (excluding the Objection Period) following the Relevant Date.

Registered Supplier has the meaning given in Condition 2.18.

Supplier Transfer has the meaning given in Condition 2.18.

Condition 2.7: Supply and Inspection of Meters

2.7.1 Supply of meters

The following provisions shall apply with respect to the supply of meters:

- (a) subject to Conditions 2.7.1(b) to (g), the Licensee shall make such arrangements with the relevant Network Operator for the provision and/or installation of a gas meter of an appropriate type by the Network Operator to any consumer to whom the Licensee supplies gas for registering the quantity of gas supplied by the Licensee to that consumer;
- (b) the Licensee shall, if so requested by one of its domestic consumers or a person who has agreed to become a domestic consumer of the Licensee, arrange for the provision to that consumer of a meter owned by it or the relevant Network Operator which is of an appropriate type for registering the quantity of gas supplied to him by:
 - (i) arranging with the relevant Network Operator for the meter owned by the Network Operator and installed in the premises to remain in place; or
 - (ii) arranging with the owner of the meter installed in the premises to purchase or otherwise acquire that meter and for it to remain in place; or
 - (iii) arranging for the installation of a meter where there is no meter in place, or the meter in place is inappropriate or cannot be purchased or acquired on reasonable terms; or
 - (iv) making such other arrangements for the provision of a meter as may be agreed between the Licensee and the consumer;
- (c) where the Licensee is obliged under Condition 2.7.1(b) to arrange for the provision of a meter to a consumer, it shall not require, as a condition of making such an arrangement as is mentioned in Conditions 2.7.1(b)(i), (ii) or (iii), that the consumer takes the meter otherwise than on hire or loan.
- (d) where a consumer of the Licensee transfers possession of a meter to the Licensee and that meter is owned by the relevant Network Operator, the Licensee shall so inform that Network Operator, and hold the meter to the Network Operator's order for a period of one month in the condition in which it was received and with the index unaltered;
- (e) where a domestic consumer terminates a contract with the Licensee for the supply of gas, the Licensee shall not:
 - (i) exercise any right to recover any meter owned by the Licensee at, or by reason of, the termination of such contract, or
 - (ii) authorise any of its officers to enter the consumer's premises for the purpose

of removing any such meter;

if another gas supplier undertakes prior to the date of such termination to make an arrangement with the Licensee of the type contemplated in Condition 2.7.1 (b)(ii) above on terms that the Licensee receives such compensation (if any) as may be appropriate having regard to the value of the meter;

- (f) subject to Condition 2.7.1(g), the Licensee shall not be required to supply or continue to supply gas to a person, or to offer a new contract where that person takes his supply through a meter which belongs to him or if the meter is lent or hired to him otherwise than by the Licensee or by the relevant Network Operator, or if the meter is ordinarily to be read in accordance with arrangements made otherwise than by the Licensee, unless the meter is or the arrangements in question are acceptable to the Licensee; and
- (g) from such date no earlier than as may be designated in writing for the purposes of this Condition generally by the Authority following such trials and consultation as it considers appropriate (the "metering liberalisation date"), the Licensee shall not:
 - (i) refuse to accept a meter requested by the consumer the use of which does not contravene Article 22 of the Order and which is appropriate for registering the quantity of gas supplied, except on the ground that:
 - (aa) the Licensee requires the supply to be taken through a prepayment meter and the meter is not one of that type; or
