28 May 2026

Dear Colin

Proposed licence modifications to address: (1) network resilience, (2) severe weather recovery costs, (3) locational charging, (4) the RP7 IT re-opener, and (5) other tidy-up amendments

Thank you for the opportunity to comment on the Article 14 Licence modifications to address the above matters.

NIE Networks is satisfied with the modifications the UR proposes.

Yours sincerely

CARL HASHIM
Head of Regulation Strategy
