Dear Kevin

Re: ENTSO-E ITC Costs for 2026-27 – Final Dt Approval

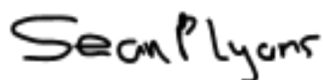

Thank you for the opex Dt submission of the 31 March 2026 regarding Inter-Transmission Compensation (ITC) costs from ENTSO-E. Given the comprehensive review of invoices in previous years, we are content to provide approval for the sum requested of £50k under Annex 1, paragraph 8.6(a) of the licence for tariff year 2026-27. The amount approved is detailed below for confirmation.

Tariff Year	SONI Claim (Apr 2019 prices)	UR Allowance (Apr 2019 prices)
2026-27	£50k	£50k
Total	£50k	£50k

The approved allowance sets the cap for costs which can be recovered in relation to this project. For avoidance of doubt, TSO overspend (i.e. under recovery) cannot be automatically adjusted through the K-factor without further approval by the UR.

Given that the full allowance is being provided, we do not see any need for a draft determination on this occasion. I trust this satisfies your requirements at this time. Should you have any comments regarding this letter, feel free to contact Ciara Brennan.

Yours sincerely,
