

Mr Gerard McIlroy  
Premier Transmission Ltd (PTL)  
1<sup>st</sup> Floor The Arena Building  
85 Ormeau Road  
Belfast

20th March 2015

Dear Gerard

**Capacity Allocation Mechanisms - Article 6 of Gas Regulation (EU) 984/2013**

Thank you for your submission that sets out the specific steps to be taken by the respective TSOs, National Grid Gas and Premier Transmission Ltd, to achieve optimisation of Technical Capacity at the relevant Interconnection Point, Moffat. These specific steps are effective from 4th February 2015.

Having duly considered the specific steps set out in the paper, we have decided that, at this point, it will not be necessary for us to consult on them as we may do under the Article. We would however request that you make these specific steps publically available on your company website. Also, that a summary of the outputs of each meeting is made publically available following each relevant meeting as envisaged in the 'Summary of the Meeting' attached to the paper.

The Utility Regulator intends to place your paper and this letter on its website in due course.

Yours sincerely

**Tanya Hedley**  
**Director of Compliance & Network Operations**
