18th September 2015

Dear Caiman

Re: GNI(UK) Code Modification Proposal 18

Thank you for your recent submission of the Final Modification Report (FMR) in respect of the above named proposal. The purpose of the modification is to address the invoicing and credit arrangements required as a result of the implementation of the EU codes and the transition of the Northern Ireland transmission network to an entry-exit model.

The Utility Regulation (UR) has considered the issues raised by this FMR.

GNI(UK) conclusion

GNI(UK) states in its FMR that the relevant objective (condition 2.4 of the GNI(UK) Licence), would be better facilitated by the Licensee's Network Code as a result of this modification.

Authority review and conclusions

We note that one response was received by GNI(UK) during the consultation period.

We have considered whether the proposal would better facilitate the 'relevant objective'.

Decision

FMR No. 18 was originally submitted by GNI(UK) on 7th August. On 18th September it was resubmitted with two minor changes to correct cross references to other parts of the code. These minor amendments are in sections 13.3.26(c) and section 6.3 of Annex 4.

As provided for in condition 2.4.7(c) of the GNI(UK) licence we direct GNI(UK) to implement the modifications as set out in the FMR submitted on 18th September 2015. The modifications should become effective as set out in FMR No. 18.

Yours sincerely,

Tanya Hedley
Director of Compliance and Network Operations
For and on behalf of NIAUR
