18th September 2015

Dear Stephen

Re: PTL Code Modification Proposal 33

Thank you for your recent submission of the Final Modification Report (FMR) in respect of the above named proposal. The purpose of the modification is to address the invoicing and credit arrangements required as a result of the implementation of the EU codes and the transition of the Northern Ireland transmission network to an entry-exit model.

The Utility Regulation (UR) has considered the issues raised by this FMR.

PTL conclusion

PTL states in its FMR that the relevant objective (condition 2.4 of the PTL Licence), would be better facilitated by the Licensee's Network Code as a result of this modification.

Authority review and conclusions

We note that one response was received by PTL during the consultation period.

We have considered whether the proposal would better facilitate the 'relevant objective'.

Decision

FMR No. 33 was originally submitted by PTL on 7th August. On 18th September it was resubmitted with one minor change to correct cross references in section 13.3.26(c) to other parts of the code.

As provided for in condition 2.4.7(c) of the PTL licence we direct PTL to implement the modifications as set out in the FMR submitted on 18th September 2015. The modifications should become effective as set out FMR No. 33.

Yours sincerely,

Tanya Hedley
Director of Compliance and Network Operations
For and on behalf of NIAUR
