Dear Stephen

Re: PTL Code Modification Proposal 38

Thank you for your recent submission of the Final Modification Report (FMR) in respect of the above named proposal. The purpose of the modification is to incorporate references to the new WTL Transmission Code. Also to make 'housekeeping changes' in the PTL Code following the implementation of the series of Modifications made during 2015 for the purposes of compliance with EU legislation. In addition, it includes more significant changes intended to update the Code and aid clarity. In particular around the role of PTL in managing the disbursement account on behalf of all the NI TSOs.

The Utility Regulation (UR) has considered the issues raised by this FMR.

PTL conclusion

PTL states in its FMR that the relevant objective (condition 2.4 of the PTL Licence), would be better facilitated by the Licensee's Network Code as a result of this modification.

Authority review and conclusions

We note no responses were received by PTL during the consultation period.

We have considered whether the proposal would better facilitate the 'relevant objective'.

Decision

As provided for in condition 2.4.7(c) of the PTL licence we direct PTL to implement the modifications as set out in the FMR dated 5nd August 2016. The modifications should become effective as set out FMR No. 38.

Yours sincerely,

Tanya Hedley
Director of Compliance and Network Operations
For and on behalf of NIAUR
