Dear Stephen

Re: WTL Code Modification Proposal 1

Thank you for your recent submission of the Final Modification Report (FMR) in respect of the above named proposal. The purpose of the modification is to align the WTL Code with the Codes of the other NI TSO, following their amendment to incorporate references to the WTL Code, and for 'housekeeping' changes following modifications for the implementation of EU legislation and certain other changes.

The Utility Regulation (UR) has considered the issues raised by this FMR.

PTL conclusion

WTL states in its FMR that the relevant objective (condition 2.4 of the WTL Licence), would be better facilitated by the Licensee's Network Code as a result of this modification.

Authority review and conclusions

We note no responses were received by WTL during the consultation period.

We have considered whether the proposal would better facilitate the 'relevant objective'.

Decision

As provided for in condition 2.4.7(c) of the WTL licence we direct WTL to implement the modifications as set out in the FMR dated 5nd August 2016. The modifications should become effective as set out FMR No 1.

Yours sincerely,

Tanya Hedley
Director of Compliance and Network Operations
For and on behalf of NIAUR
