11<sup>th</sup> August 2016

Dear Stephen

**Re: BGTL Code Modification Proposal 14**

Thank you for your recent submission of the Final Modification Report (FMR) in respect of the above named proposal. The purpose of the modification is to incorporate references to the new WTL Transmission Code as well as to make 'housekeeping changes' in the BGTL Code following the implementation of Modification 13 which was required during 2015 for the purposes of compliance with EU legislation. In addition, it contains new sections in the Code at G1.4 and G2.7A which are proposed to clarify certain credit provisions.

The Utility Regulation (UR) has considered the issues raised by this FMR.

**BGTL conclusion**

BGTL states in its FMR that the relevant objective (condition 2.4 of the BGTL Licence), would be better facilitated by the Licensee's Network Code as a result of this modification.

**Authority review and conclusions**

We note no responses were received by BGTL during the consultation period.

We have considered whether the proposal would better facilitate the 'relevant objective'.

## **Decision**

As provided for in condition 2.4.7(c) of the BGTL licence we direct BGTL to implement the modifications as set out in the FMR dated 5<sup>th</sup> August 2016. The modifications should become effective as set out FMR No. 14.

Yours sincerely,

---

**Tanya Hedley**  
**Director of Compliance and Network Operations**  
**For and on behalf of NIAUR**
