25th November 2016

Dear Stephen

Re: WTL Code Modification Proposal 2

Thank you for your recent submission of the Final Modification Report (FMR) in respect of the above named proposal. The purpose of the modification is to incorporate the arrangements for new balancing contracts, including adjustments for charging and rules for the utilisation of balancing contracts.

The Utility Regulation (UR) has considered the issues raised by this FMR.

WTL conclusion

WTL states in its FMR that the relevant objective (condition 2.4 of the WTL licence¹), would be better facilitated by the Licensee's Network Code as a result of this modification.

Authority review and conclusions

We note no responses were received by WTL during the consultation period.

We have considered whether the proposal would better facilitate the 'relevant objective'.

¹ This is the licence granted to Northern Ireland Energy Holdings Limited on 11 February 2015 and last modified on 1 September 2016.

Decision

As provided for in condition 2.4.7(c) of the WTL licence we direct WTL to implement the modifications as set out in the FMR dated 11th November 2016. The modifications should become effective as set out FMR No 2.

Yours sincerely,

Tanya Hedley
Director of Compliance and Network Operations
For and on behalf of NIAUR
