26th June 2017

Dear Andrew

GNI (UK) Code Modification Proposal 28

Thank you for your recent submission of the Final Modification Report (FMR) in respect of the above named proposal. The purpose of the modification is to incorporate a Transition section which will have the effect of bringing the provisions of the Code to a close, as they are replaced by the new NI Network Gas Transmission Code.

The Utility Regulator (UR) has considered the issues raised by this FMR.

GNI (UK) conclusion

GNI (UK) states in its FMR that the 'relevant objective' (condition 2.4 of the GNI (UK) Licence) would be better facilitated by the Licensee's Network Code as a result of this modification.

Authority review and conclusions

We note no responses were received by GNI (UK) during the consultation period.

We have considered whether the proposal would better facilitate the 'relevant objective'.

Decision

As provided for in condition 2.4.7(c) of the GNI (UK) licence we direct GNI (UK) to implement the modifications as set out in the FMR dated 20th June 2017. The modifications should become effective as set out in FMR No. 28.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'T Hedley', written over a horizontal line.
