Dear Carl

RE: Licence Grant to ESB at Aughrim Site

Thank you for your correspondence on the 11 April 2019, providing details regarding the renewal of the licence granted by NIE Networks to ESB at Aughrim site.

We can confirm consent under Licence Condition 12(3)(d)(iii) to enable ESB Telecoms Services access to the Aughrim site, to continue the current arrangements for the duration of the new licence granted to ESB. This allows ESB Telecoms Services (the telecoms arm of ESB Networks) to operate and maintain equipment at Aughrim under a contractual arrangement with EirGrid.

A copy of this consent will be placed on file in the public electricity register.

Yours sincerely

Tanya Hedley
Director Networks
