

**RETAIL TARIFFS 2010/11
THIRD UPDATE ON ESBCS/NIEES HEDGING & WORKPLANS**

Information Note

30th July 2010

CER 10/129

1 Introduction

On 10th May the Commission for Energy Regulation (CER) and the Utility Regulator (UR) published the 2010 Retail Tariff Timetable¹, setting out the key milestones in the regulated retail tariff setting process for the SEM.

This note provides the hedging information that the Regulatory Authorities (RAs) committed to providing in the Retail Tariff Timetable paper, and also provides an update on the progress of items set out in the tariff timetable.

2 Hedging Update

The RAs consider that transparency represents a key founding principle for any effective competitive market and the tariff timetable paper committed to publishing five contracting updates for the regulated suppliers ESB Customer Supply (ESBCS) and NIE Energy Supply (NIEES). This information note is the third of the five updates and sets out the forecast demand and hedges purchased for the contracting period up to and including 22nd July for regulated tariffs in Northern Ireland and in the Republic of Ireland (only domestic tariffs are regulated in ROI).

Table 1 below shows the total forecast demand and hedges purchased up to and including the 22nd July by both ESBCS and NIEES for each quarter of the 2010/11 tariff year as well as any hedges purchased for beyond the tariff year if relevant. The total percentage hedged cover represents the total hedges purchased for the year as a percentage over the total anticipated forecast demand.

Total Demand & Hedged Volumes (GWh) 2010/11				
Time Period	ESBCS		NIEES	
	Forecast Demand	Hedges Purchased	Forecast Demand ²	Hedges Purchased
Q4 2010	1,695	51%	1,151	54%
Q1 2011	1,617	59%	1,160	60%
Q2 2011	1,299	54%	845	44%
Q3 2011	1,207	50% ³	787	49%
Total - 2010/11	5,818	54%	3,943	53%
2011/12		0		0

Table 1- Aggregated Demand & Hedge Volumes Purchased up to 22nd July 2010

¹Retail Tariff Timetable 2010-Information Note [CER10070](#)

² The demand forecast represents NIEES' current best estimate of the trading point demand relating to regulated customers. The demand forecast has been updated to reflect a level of domestic competition and now assumes no further deregulation from October 2010.

³ ESBCS have purchased hedges amounting to 52.4% of forecast demand for Q3 2011, however in line with the CER's decision on Revenue Regulation Framework ([CER10067](#)) only 50% are eligible for inclusion in the 2010/11 MAR

3 CER & UR Tariff Timetable 2010 – First Update.

Table 2 below provides an update on the progress of items outlined in the retail tariff timetable.

Retail Tariff Timetable 2010		
Contracting in the SEM	Date	
Non-Directed Contract Auctions (Multilateral Trading Facility)	Ongoing ⁴
