

Northern Ireland Water Ltd – AIR2014 Submission

This is the public domain version of the Reporter's submission for AIR2014. Items marked [x] have been excised as they are considered commercially confidential or of a sensitive nature.

The Reporter's public domain commentary is based on the Company's submission to UR in July 2014. Following queries from the Regulator since the submission we are aware that NI Water has issued an erratum which amends some components of their Return. We have not sought to verify or update the Reporter commentaries to take account of these changes.
