

# Chapter 20

## Regulatory accounts

### Current Cost Accounting

Covering:  
Profit and loss account for year ending 31 March  
2008

## **Chapter 20**

### **Regulatory accounts**

### **Current Cost Accounting**

#### **Guidance**

The requirements relate to the appointed business and table 20 is no exception. It should be completed for the profit and loss account of the appointed business only.

#### **Company commentary**

Exceptional charges or income should be commented upon and quantified, as should the headings under which they are included in the profit and loss account.

The definition of monetary assets and liabilities for the purposes of calculating the financing adjustment excludes dividends payable. Any exceptions to this should be reported.

Profits attributable to minority interests should be shown as extraordinary items and noted separately.

The PPP element of any line should be disclosed separately in commentary.

For all items in the table significant features, movements, events and transactions over the last period should be noted. However, where movements have been explained in the commentary to tables 18 or 27, then a cross-reference should be provided rather than duplication of the commentary.

#### **Guidance to Auditors**

See "Auditor's guidance", part A, "General procedures".
