25 July 2018

Dear Mary,

**Re: SGN Natural Gas (SGN) Updated Connection Policy
Standardisation of Licence Condition - 'Connection Charges and
Obligation to Connect' and Consequential Licence Changes**

Thank you for submission of the updated Connection Policy ("the Policy") following the implementation of the above licence modifications on 25th June 2018. The Policy was submitted on 25th May 2018 and subsequently revised and resubmitted on 19th July 2018.

Decision

The UR has reviewed the Policy and is content to approve the version submitted on 19th July 2018 under Condition 2.3.7 of the Licence.

As you will be aware, the UR intends to consider the low pressure connection policies in tandem to address any relevant alignment issues. We will engage with the licensees at a later date to discuss this.

Yours sincerely,

**Tanya Hedley,
Director of Compliance and Network Operations
For and on behalf of NIAUR**
