- 3 The Licensee shall not enter, or offer to enter, into a Contract, for the supply of electricity to premises, which contains a term that requires or has the effect of requiring the Customer to:
  - (a) obtain a supply of electricity to the same premises from another Electricity Supplier from a date and for such period as may be specified (whether in the Contract or otherwise) by the Licensee; and
  - (b) immediately following the expiry of that specified period, recommence taking a supply of electricity at the premises from the Licensee.

- (e) shall ensure that an up to date copy of each set of standard terms and conditions that it has determined is published on and accessible from its website;
- (f) shall not enter, or offer to enter, into a Contract for the supply of electricity with a Domestic Customer otherwise than on a set of standard terms and conditions as determined in accordance with this paragraph 5.

- 6 The Licensee shall for any different case, class of case or area in respect of which it has determined standard terms and conditions in accordance with paragraph 5, as a minimum determine a set of standard terms and conditions:
- (a) which provide for a Contract of an indefinite length; and
  - (b) in respect of which the terms as to price do not differ as between any Domestic Customers who may enter into that Contract (a **standard evergreen tariff**), provided that the Licensee may have a different standard evergreen tariff for each payment method offered by it.
- 7 The Licensee shall ensure that each set of standard terms and conditions it determines for Domestic Customers shall be fair (as between the Licensee and each Domestic Customer) and shall, as a minimum, include the following:

- (g) the tariffs, charges and other payments which apply to the Contract and are required to be paid by the Domestic Customer, in a manner that enables the Domestic Customer to:
  - (i) identify the applicable tariff and the unit rate, in terms expressed as “pence per kWh”, of the applicable tariff;
  - (ii) identify any other charge or payment, including in particular:
    - (A) any applicable standing charge;
    - (B) any payment which is or has the effect of being a Security Deposit;
  - (iii) where the applicable tariff is not a standard evergreen tariff (because the Contract is not of an indefinite length), compare the unit rate of the applicable tariff against the unit rate of the standard evergreen tariff (in each case expressed in “pence per kWh”) that would apply if the relevant set of standard terms and conditions applied to a Contract of indefinite length;
- (h) the means by which up to date information on all applicable tariffs, charges and other payments (including any discounts and promotions) for the supply of electricity and for any other services which are to be provided under the Contract:

- (a) sets out the information in clear, transparent and easy to read and understand language; and

notify each such Domestic Customer of the proposed variation, together with the Customer's right (as included in the Contract in accordance with paragraph 7(f)) to terminate the Contract before the proposed variation is due to take effect, at least 21 days in advance of the date the variation is due to take effect.

- (a) any such Contract may not include any term or condition which has the effect of:
  - (i) extending the length of that fixed term period; or
  - (ii) applying a consecutive fixed term period,

unless the Domestic Customer has the right to terminate the Contract at any time in the extended or consecutive fixed term period without payment of a termination fee; and

- 11 The Licensee shall ensure that its standard terms and conditions provide Domestic Customers with a choice of payment methods, including as a minimum making payment:
  - (a) in arrears (at such frequency as is set out in the terms and conditions);
  - (b) by direct debit (at such frequency as is set out in the terms and conditions); and
  - (c) in advance through a prepayment meter.
- 12 Any difference in or between the Licensee’s standard terms and conditions, including terms as to price, relating to the choice of payment methods shall be determined by the Licensee on a basis which reflects the costs to the Licensee of providing the different payment methods.
- 13 The Licensee shall not impose on, or request from, a Domestic Customer any charge or payment for the purpose of enabling that Customer to exercise or preventing him from exercising (as the case may be) his right to receive a supply of electricity from his Electricity Supplier of choice.
- 14 Where a Contract also relates to or governs the provision of other good or services, the Licensee shall ensure that the charges for such other goods or services are identified separately from the Charges for the Supply of Electricity.
