

**RETAIL TARIFFS 2011/12
FOURTH UPDATE ON Power NI HEDGING & WORKPLANS**

Information Note

30th August 2011

1 Introduction

This note provides the hedging information that the Regulatory Authorities (RAs) have published in the last two years and is in line with information provided in the 'run up' to the Tariff announcement last year. It also provides an update on the progress of items in the tariff timetable. However, following the deregulation of ESBCS and the removal of tariff regulation in Ireland this note is not a joint RAs paper. This is specifically a Utility Regulator (UR) paper which refers only to the hedged position of Power NI and the tariff timetable for Northern Ireland.

2 Hedging Update

The UR considers that transparency represents a key founding principle for any effective competitive market and we are proposing to publish five contracting updates showing the hedged position of the regulated supplier Power NI, the last being published 30th July 2011. This information note is the fourth of the five updates and sets out the forecast demand and hedges purchased for the contracting period up to and including 1st September for regulated tariffs in Northern Ireland.

Table 1 below shows the total forecast demand and hedges purchased up to and including the 1st September 2011 by Power NI for each quarter of the 2011/12 tariff year as well as any hedges purchased for beyond the tariff year if relevant. The total percentage hedged cover represents the total hedges purchased for the year as a percentage over the total anticipated forecast demand.

Total Demand & Hedged Volumes (GWh) 2011/12		
Time Period	Power NI	
	Forecast Demand ¹	Hedges Purchased
Q4 2011	1,175	55%
Q1 2012	1,140	58%
Q2 2012	869	41%
Q3 2012	860	28%
Total - 2011/12	4,044	47%
2012/13	0	0

Table 1- Aggregated Demand & Hedge Volumes Purchased up to 1st September 2011

¹ The demand forecast represents Power NI's current best estimate of the trading point demand relating to Regulated Customers.

3 Utility Regulator Tariff Timetable 2011 – Fourth Update.
