Chapter 39

Proceeds from the disposals of protected land

This table has three lines:

The first covers transactions that will have required prior consent from NIAUR in order to comply with condition K of a company's statutory licence;

The second line covers transactions that are insufficiently material to have required prior consent from the Utility Regulator in order to comply with condition K of a company's statutory licence.

The third line is simply an aggregation of one and two.

The table covers all proceeds from disposals of protected land, including those already subject to regulation through Condition K of the Licence. The net amounts, after the deduction of all offsetting costs, are considered against the criteria for a "Relevant of Change of Circumstance", as defined in Condition B.

Disposal of land valued at £500,000 and above should be recorded in the first line. NIW should not include sales of land between £400-500k in this line, in spite of the requirement to submit the same information to the Regulator for such sales.
