Such certificate shall be submitted on 30 September 1999 and thereafter on 30 September of each subsequent year. Each certificate shall be in one of the following forms:
 - (a) “After making enquiries, the directors of the Licensee have a reasonable expectation that the Licensee will have available to it, after taking into account in particular (but without limitation) any dividend or other distribution which might reasonably be expected to be declared or paid, sufficient resources including management and financial resources, personnel, fixed and moveable assets, rights, licences, consents and facilities to enable the Licensee to carry on the Separate Businesses for a period of 12 months from the date of this certificate.”
 - (b) “After making enquiries, the directors of the Licensee have a reasonable expectation, subject to the Terms of this certificate, that the Licensee will have available to it, after taking into account in particular (but without limitation) any dividend or other distribution which might reasonably be expected to be declared or paid, sufficient resources including management and financial resources, personnel, fixed and moveable assets, rights, licences, consents and facilities to enable the Licensee to carry on the Separate Businesses for a period of 12 months from the date of this certificate. However, they would like to draw attention to the following factors which may cast doubt on the ability of the Licensee to carry on the Separate Businesses.”
 - (c) “In the opinion of the directors of the Licensee, the Licensee will not have available to it sufficient resources including management and financial resources, personnel, fixed and moveable assets, rights, licences, consents and facilities to enable the

Licensee to carry on the Separate Businesses for a period of 12 months from the date of this certificate.”

- 3 The Licensee shall submit to the Authority together with the certificate referred to in paragraph 2 of this condition a statement of the main factors which the directors of the Licensee have taken into account in giving that certificate, together with copies of the key documents and information taken into account by the directors of the Licensee in deciding upon the main factors and in giving the certificate.
- 4 The Licensee shall inform the Authority in writing immediately if the directors of the Licensee become aware of any circumstances which cause them no longer to have the reasonable expectation expressed in the then most recent certificate given under paragraph 2.
- 5 The Licensee shall use its best endeavours to obtain and submit to the Authority with each certificate provided for in paragraph 2 a report prepared by the Auditors and addressed to the Authority stating whether or not the Auditors are aware of any inconsistencies between, on the one hand, that certificate and the statement submitted with it and, on the other hand, any information which they obtained during their audit work.

Undertaking of ultimate controller

- 6 The Licensee shall procure from each company or other person which the Licensee knows or reasonably should know is at any time an ultimate controller of the Licensee a legally enforceable undertaking in favour of the Licensee in a form specified by the Authority that the ultimate controller will refrain from any action, and will procure that every subsidiary of the ultimate controller (other than the Licensee and its subsidiaries) will refrain from any action, which would then be likely to cause the Licensee to breach any of its obligations under the Order, the Energy Order, the SEM Order or the Licence. Such undertaking shall be obtained within 7 days after the date when these modifications first become effective, or after the person in question becomes an ultimate controller (as the case may be) and shall remain in force for as long as the Licensee remains the holder of this Licence and the giver of the undertaking remains an ultimate controller of the Licensee.
- 7 The Licensee shall:
 - (a) deliver to the Authority evidence (including a copy of each such undertaking) that the Licensee has complied with the obligation to procure undertakings pursuant to paragraph 6;
 - (b) inform the Authority immediately in writing if the directors of the Licensee become aware that the undertaking has ceased to be legally enforceable or that its terms have been breached; and

- (c) comply with any direction from the Authority to enforce any such undertaking.
- 8 The Licensee shall not, save with the written consent of the Authority, enter (directly or indirectly) into any agreement or arrangement with an ultimate controller of the Licensee or any of its subsidiaries (other than subsidiaries of the Licensee) at a time when:
 - (a) an undertaking complying with paragraph 6 is not in place in relation to that ultimate controller; or
 - (b) there is an unremedied breach of such undertaking; or
 - (c) the Licensee is in breach of the terms of any direction issued by the Authority under paragraph 7.
- 9 In this Condition 3, unless the context otherwise required, “ultimate controller” means:
 - (a) any holding company of the Licensee, which is not itself a subsidiary of another company; and/or
 - (b) any person who (whether alone or with a person or persons connected with him) is in a position to control, or to exercise influence over, the policy of the Licensee, or any holding company of the Licensee, by virtue of:
 - (i) rights under contractual arrangement to which he is a party or of which he is a beneficiary;
 - (ii) rights of ownership (including rights attached to or deriving from securities or rights under a trust) which are held by him or of which he is a beneficiary,

but shall exclude any director or employee of a corporate body in his capacity as such and any minister, ministry, department, agency, authority, official or statutory person,

and a person shall be considered to be connected with another person if he is a party to any arrangement regarding the exercise of any such right as are described in paragraph (b) above.

Condition 3A. Board Independence and Contractual Arrangements for Directors and Executive Officers

- 1 Within one year from the date upon which this Condition becomes effective, and at all times thereafter, the Licensee shall:

 - (i) relevant experience and knowledge of the energy industry; or
 - (ii) relevant experience and knowledge of any other regulated industry; or
 - (iii) substantial private sector commercial or financial experience gained at board level (or equivalent) in another organisation of comparable size and standing to the Licensee,provided that at least one independent non-executive director must possess relevant experience and knowledge of the energy industry; and
 - (b) demonstrate to the satisfaction of the Authority, prior to any appointment from time to time of a board director, that the said appointment will not cause the Licensee to enter into any breach of the requirements contained in sub-paragraph (a).
- 2 If at any time the Licensee, by virtue of any person being appointed as, or ceasing to be, a director of the Licensee (for the purposes of this Condition, an “Event”), is unable to comply with the requirements of paragraph 1, the Licensee shall take such steps as are necessary to ensure that compliance is achieved as soon as reasonably practicable after that Event and in any case within two months (or such longer period as may be agreed by the Authority) of that Event.
- 3 The Licensee shall ensure that:
 - (a) no person acts as, or undertakes the role of, a director or an executive officer (a **relevant person**) of the Licensee (or of the Relevant Subsidiary) unless and until that person is appointed or employed (as the case may be) by the Licensee pursuant to contractual arrangements entered into directly between Licensee (or, as the case may be, the Relevant Subsidiary) and the relevant person; and
 - (b) the terms and conditions pursuant to which any such relevant person is appointed or employed (as the case may be) do not confer any benefit, right, or entitlement on or for that person which is (whether directly, indirectly, expressly or impliedly) linked

to, dependent on, or arises from any current, past or future appointment or employment with:

- (i) where the relevant person is appointed or employed by the Licensee, any affiliate or related undertaking (other than the Relevant Subsidiary) of the Licensee;

Condition 4. Restriction on Dividends

- 1 The directors of the Licensee shall not declare or recommend a dividend, and the Licensee shall not make any other form of distribution within the meaning of section 263 of the Companies Act 2006, or redeem or repurchase any share capital of the Licensee, unless prior to the declaration, recommendation or making of the distribution (as the case may be) the Licensee has issued to the Authority a certificate in the following form:

“After making enquiries, the directors of the Licensee are satisfied:

(a) that the Licensee is in compliance in all material respects with all the obligations imposed on it by conditions 3, 5, 8, 9, 9A, 13 and 14 of the Licence; and

(b) that the making of a distribution of [*amount*] on [*date*] will not, either alone or when taken together with other circumstances reasonably foreseeable at the date of this certificate, cause the Licensee to be in breach to a material extent of any of those obligations in the future.”
- 2 The certificate given under paragraph 1 must be signed by a director of the Licensee and must have been approved by a resolution of the board of directors of the Licensee passed not more than 14 days before the date on which the declaration, recommendation or payment in question will be made.
- 3 Where the certificate given under paragraph 1 has been issued in respect of the declaration or recommendation of a dividend, the Licensee shall be under no obligation to issue a further certificate prior to payment of that dividend, provided that such payment is made within six months of the issuing of that certificate.

Condition 5. Prohibition of Cross-Subsidies

- 1 The Licensee shall, at the times stated hereunder, pay to the Authority fees of the amount specified in or determined under the following paragraphs of this Condition.
- 2 In respect of each year beginning on 1 April, the Licensee shall pay to the Authority a fee which is the aggregate of the following amounts:
 - (a) an amount equal to the proportion which the Authority shall determine of the amount estimated by the Authority, according to a method which has previously been disclosed in writing to the Licensee, as likely to be its costs during the year in question in the exercise of its functions relating to electricity conferred on, or assigned or transferred to, it by or under any legislation (“**electricity functions**”);
 - (b) an amount which is a proportion, as determined by the Authority, of the amount notified to the Authority by the Consumer Council and approved by the Department as being the Consumer Council’s estimate of its likely costs during the year in question in the exercise of the functions relating to electricity assigned to it by or under the Order, the Energy Order, the SEM Order, the Directive Regulations or the Internal Markets Regulations and any other such functions as it has been or may be required to exercise by the Authority, or, in the event that the Authority shall not have received such notification by 31 July in the year in question, an amount which is the relevant proportion of the Authority’s estimate of such likely costs (having regard to any estimate of such costs in any forward work programme published by the Consumer Council in respect of the year in question);
 - (c) the difference (being a positive or negative amount), if any, between:
 - (i) the amount of the fee paid by the Licensee in respect of the year immediately preceding the 1 April in question less any refund paid to the Licensee in respect of that year under paragraph 3 below; and
 - (ii) the amount which that fee would have been in respect of that year had:
 - (A) the amount comprised therein under sub-paragraph (a) above been calculated by reference to the total costs of the Authority in connection with its electricity functions and the proportion of those costs actually attributable to this Licence; and
 - (B) the amount comprised therein under sub-paragraph (b) above been calculated by reference to the relevant proportion of the total costs of the Consumer Council in connection with the functions referred to

in sub-paragraph (b) above and, where appropriate, the proportion of those costs actually attributable to this Licence,

such total costs being apportioned, in each case, as determined by the Authority according to a method previously disclosed in writing to the Licensee,

and the fee shall be paid by the Licensee to the Authority within one month of the Authority giving notice to the Licensee of its amount if that notice is given within 6 months of the beginning of the year in respect of which the fee is payable.

3 In respect of each year beginning on 1 April 1998, and each subsequent year, the Authority may pay the Licensee an amount ("the refund") calculated in accordance with the method previously disclosed in writing to the Licensee and by reference to the difference between:

- (a) the proportion of the fee for that year paid by the Licensee which is attributable to the Authority's estimate in accordance with paragraph 2(a) and the estimate of the Consumer Council or the Authority (as appropriate) in accordance with paragraph 2(b); and
- (b) the Authority's reasonable revised estimate of those costs (taking account of any revised estimate of the costs referred to in paragraph 2(b) which is approved by the Department and notified to the Authority by the Consumer Council),

provided that any such refund shall be paid to the Licensee on or before 31 March in the year to which the licence fee relates.

Condition 8. Provision of Information to the Authority

- 1 Subject to paragraphs 6 and 7, the Licensee shall furnish to the Authority, in such manner and at such times as the Authority may require, such information and shall procure and furnish to it such reports, as the Authority may consider necessary in the light of the Conditions or any Schedule or as it may require for the purpose of performing any of its functions relating to electricity conferred on, or assigned or transferred to, it by or under any legislation.
- 2 The Licensee shall, within 7 days after the date when these modifications first become effective or after the person in question becomes an ultimate controller (as the case may be), procure from each person which the Licensee knows (or reasonably should know) is at any time an ultimate controller of the Licensee a legally enforceable undertaking in favour of the Licensee in a form specified by the Authority, which shall provide that that ultimate controller will give to the Licensee, and will procure that each subsidiary of that ultimate controller (other than the Licensee and its subsidiaries) will give to the Licensee, all such information as may be necessary to enable the Licensee to comply fully with paragraph 1 of this Condition. Such undertaking shall remain in force for as long as the Licensee remains the holder of this Licence and the giver of the undertaking remains an ultimate controller of the Licensee.

 - (b) there is an unremedied breach of such an undertaking; or
 - (c) the Licensee is in breach of the terms of any direction issued by the Authority under

paragraph 3 in respect of such an undertaking.

- 6 The Licensee may not be required by the Authority to furnish it under this Condition with information for the purpose of the exercise of its functions under Article 7 of the Energy Order.
- 7 The Licensee may not be required by the Authority to furnish it under this Condition with any information in relation to an enforcement matter which the Licensee could not be compelled to produce or give in evidence in civil proceedings in the High Court.
- 8 The power of the Authority to call for information under paragraph 1 is in addition to the power of the Authority to call for information under or pursuant to any other Condition or any Schedule.
- 9 In this Condition:

 - (ii) rights of ownership (including rights attached to or deriving from securities or rights under a trust) which are held by him or of which he is a beneficiary,

- 1 The Licensee shall not (and shall procure that the Relevant Subsidiary shall not) dispose of or relinquish operational control over any relevant asset otherwise than in accordance with the following paragraphs of this Condition.
- 2 Save as provided in paragraph 3, the Licensee shall give to the Authority not less than 2 months' prior written notice of its (or the Relevant Subsidiary's) intention to dispose of or relinquish operational control over any relevant asset, together with such further information as the Authority may request relating to such asset or the circumstances of such intended disposal or relinquishment of control or to the intentions in regard thereto of the person proposing to acquire such asset or operational control over such asset.

- (b) the Authority does not inform the Licensee in writing of any objection to such disposal or relinquishment of control within the notice period referred to in paragraph 2.

Indebtedness

- 5 Without prejudice to paragraphs 1 to 4, the Licensee shall not (except where permitted by a provision in the successor transmission licence), and shall procure that the Relevant Subsidiary shall not, after the date when these modifications became effective, without the written consent of the Authority after disclosure of all material facts by the Licensee to the Authority:

 - (ii) on normal commercial terms;
 - (iii) for a Permitted Purpose; and

provided, however, that the provisions of sub-paragraphs (c) and (d) shall not prevent the Licensee (or the Relevant Subsidiary) from giving any guarantee permitted by and compliant with the requirements of sub-paragraph (a).

- 6 The payment requirement referred to in paragraph 5(b)(iv) is that the consideration due in respect of the transfer, lease, licence or loan of the asset, good, right or benefit in question is paid in full prior to such transfer, lease, licence or loan unless:

12 Where it appears to the Licensee that there has been or there is going to be a revision of the Market Registration Code under paragraph 11 which has had or is likely to have a material effect on the financial position of the Licensee, the Licensee may require the Authority to determine whether the revision to the Market Registration Code has had or is likely to have such an effect and if so what charge, if any, the Licensee can make under the Market Registration Code to ensure that the financial position and performance of the Licensee is likely, so far as reasonably practicable, to be the same as if the relevant revision had not taken place.

14 The Licensee will also (subject to paragraph 15) give or send a copy of the Market Registration Framework Agreement and the Market Registration Code to any person requesting the same.

15 The Licensee may make a charge for any copy given or sent pursuant to paragraph 14 of any amount reflecting the Licensee's reasonable costs of the documents which will not exceed any amount specified for the time being for the purposes of this Condition in directions issued from time to time by the Authority.

Condition 31. Functions of the Authority - Distribution Use of System Agreement Disputes

1. Paragraph 2 applies where the Licensee:
 - (a) receives a request pursuant to paragraph 1 of Condition 30; and :
 - (b) in response to that request:
 - (i) informs a person requesting use of system that the Licensee is unable to offer terms for such use of system by virtue of one or more the exceptions set out in paragraph 3 of Condition 30; or
 - (ii) offers terms to enter into an agreement for use of system which terms are not accepted by the person requesting use of system.
2. Where this paragraph applies, the Authority may, pursuant to Article 11(3)(c) of the Order and on the application of either the person requesting use of system or the Licensee, settle any dispute between the Licensee and that person in respect of the agreement for use of system in such manner as appears to the Authority to be reasonable having (insofar as relevant) regard in particular to the following considerations:
 - (a) that such person should pay to the Licensee the use of system charges determined in accordance with paragraph 3 of Condition 32;
 - (b) that the performance by the Licensee of its obligations under the agreement should not involve the Licensee in a breach such as is referred to in paragraph 3 of Condition 30;
 - (c) that the terms and conditions of the agreement so settled by the Authority and of any other agreements entered into by the Licensee pursuant to an application under paragraph 1 of Condition 30 should be, so far as circumstances allow, in as similar a form as is practicable.
3. Where the person requesting use of system wishes to proceed on the basis of the agreement as settled by the Authority, the Licensee shall forthwith enter into and implement such agreement in accordance with its terms.
4. If either party to an agreement for use of system entered into pursuant to Condition 30 or this Condition proposes to vary the contractual terms of such agreement in any manner provided for under such agreement, the Authority may, at the request of the Licensee or other party to such agreement, settle any dispute relating to such variation in such manner as appears to the Authority to be reasonable.

- 1 The Licensee shall, as soon as practicable after this Condition comes into effect (and, in any event, not later than such date as the Authority shall specify in directions issued to the Licensee for the purposes of this Condition), prepare a statement approved by the Authority setting out the basis upon which charges will be made, as part of the Distribution Business, for:
 - (a) use of the Distribution System;
 - (b) connection to the Distribution System; and
 - (c) any other matters for which the Licensee (with the approval of the Authority) levies charges.
- 2 The Licensee shall, where it is responsible for the balancing of the Distribution System and provides and levies charges for the provision of balancing services, prepare a statement approved by the Authority setting out the basis upon which charges will be made for such balancing services and/or for energy imbalances.
- 3 The Licensee shall ensure that the charges provided for in, or calculated in accordance with, the statements referred to in paragraphs 1 and 2 are neither designed to prevent nor have the effect of preventing the operation of an organised electricity market in any of the services referred to in paragraph 2 of Annex XI of Directive 2012/72/EU of the European Parliament and of the Council of 25 October 2012 on energy efficiency.
- 4 The statements referred to in paragraphs 1 and 2 shall be in such form and to contain such detail as shall be necessary to enable any person to make a reasonable estimate of the charges to which it would become liable for the provision of such services, and (without prejudice to the foregoing) including such of the information set out in paragraphs 5 and 6 as is required by such paragraphs to be included in the statement.

Use of the Distribution System

- 5 Except to the extent that the Authority shall otherwise specify, the statement referred to in paragraph 1 shall in respect of use of system include:
 - (a) a schedule of charges for transport of electricity under use of system;
 - (b) a schedule of adjustment factors to be made (where appropriate) in respect of distribution losses;

- (c) the methods by which and the principles on which charges (if any) for availability of distribution capacity on the Distribution System will be made;
- (d) a schedule of charges in respect of meter reading, accounting and administrative charges;
- (e) a schedule of the charges (if any) which may be made for the provision and installation of any meters or electrical plant at entry or exit points, the provision and installation of which is ancillary to the grant of use of system, and for the maintenance of meters or electrical plant; and
- (f) such other matters as shall be specified in directions issued by the Authority from time to time for the purposes of this Condition.

Connection to the Distribution System

- 6 The statements referred to in paragraph 1 shall in respect of connections to the Distribution System include:
- (a) a schedule listing those items (including the carrying out of works and the provision and installation of electric lines or electrical plant or meters) of significant cost liable to be required for the purpose of connection (at entry or exit points) to the Distribution System for which connection charges may be made or levied and including (where practicable) indicative charges for each such item and (in other cases) an explanation of the methods by which and the principles on which such charges will be calculated;
 - (b) the methods by which and the principles on which any charges will be made in respect of extension or reinforcement of the Distribution System rendered necessary or appropriate by virtue of providing connection to or use of system to any person seeking connection;
 - (c) the methods by which and the principles on which connection charges will be made in circumstances where the electric lines or electrical plant to be installed are of greater size or capacity than that required for use of the Distribution System by the person seeking connection;
 - (d) the methods by which and the principles on which any charges (including any capitalised charge) will be made for maintenance and repair required of electric lines, electrical plant or meters provided and installed for making a connection to the Distribution System;
 - (e) the methods by which and the principles on which any charges will be made for the

provision of special metering or telemetry or data processing equipment by the Licensee for the purposes of enabling any person which is bound to comply with the Distribution Code to comply with its obligations in respect of metering thereunder, or for the performance by the Licensee of any service in relation thereto;

- (f) the methods by which and principles on which any charges will be made for disconnection from the Distribution System and the removal of electrical plant, electric lines and ancillary meters following disconnection; and
- (g) such other matters as shall be specified in directions issued by the Authority from time to time for the purposes of this Condition.

7 Connection charges for those items referred to in paragraph 6 shall be set at a level which will enable the Licensee to recover:

- (a) the appropriate proportion of the costs directly or indirectly incurred in carrying out any works, the extension or reinforcement of the Distribution System and the provision and installation, maintenance and repair and, following disconnection, removal of any electric lines, electrical plant, meters, special metering, telemetry, data processing equipment or other items; and
- (b) a reasonable rate of return on the capital represented by such costs.

Preparation of statement on distribution system capacity

8 If so requested and subject to paragraphs 9 and 15, the Licensee shall, as soon as practicable and in any event within 28 days (or where the Authority so approves such longer period as the Licensee may reasonably require having regard to the nature and complexity of the request) after the date referred to in paragraph 16, give or send to any person making such request a statement showing present and future circuit capacity, forecast power flows and loading on the part or parts of the Distribution System specified in the request and fault levels for each distribution node covered by the request and containing:

- (a) such further information as shall be reasonably necessary to enable such person to identify and evaluate the opportunities available when connecting to and making use of the part or parts of the Distribution System specified in the request; and
- (b) if so requested, a commentary prepared by the Licensee indicating its view as to the suitability of the part or parts of the Distribution System specified in the request for new connections and transport of further quantities of electricity;

- 9 Except as provided in sub-paragraphs (a) and (b) below, the Licensee shall include in every statement prepared or (as the case may be) given or sent under paragraph 8 the information required by such paragraph:
- (a) the Licensee may with the prior consent of the Authority omit from any such statement any details as to circuit capacity, power flows, loading or other information, disclosure of which would, in the view of the Authority, seriously and prejudicially affect the commercial interests of the Licensee or any third party.
 - (b) the Licensee may omit from any statement given or sent under paragraph 8 any information the disclosure of which would place the Licensee in breach of Condition 10.

Preparation of new statements, circulation and charging

- 10 In addition to, and without prejudice to, the Licensee's obligations under paragraphs 1 and 2, the Licensee shall, upon being directed to do so in directions issued by the Authority from time to time for the purposes of this Condition and within such period as shall be specified in the directions, prepare a statement or statements approved by the Authority providing that charges for use of the Distribution System, for connection to the Distribution System and/or for the provision of any balancing services provided by the Licensee, will be made on such basis as shall be specified in the directions and such statement or statements shall be in such form and contain such detail as shall be necessary to enable any person to make a reasonable estimate of the charges to which it would become liable for the provision of such services and (without prejudice to the foregoing) including such information as shall be specified in the directions. Each statement prepared in accordance with this paragraph shall, with effect from the date on which it is approved by the Authority or such later date as the Authority shall specify, replace the corresponding statement prepared by the Licensee in accordance with paragraph 1 and 2 or, as the case may be, this paragraph (as from time to time revised in accordance with paragraph 11) which is in force at such date and the Licensee shall, with effect from such date make charges in accordance with the statement (as from time to time revised in accordance with paragraph 11) which has replaced such corresponding statement.
- 11 The Licensee may periodically revise the information set out in and, with the approval of the Authority, alter the form of the statements prepared in accordance with paragraphs 1, 2 and 10 and shall, at least once in every year this Licence is in force, revise such statements in order that the information set out in the statements shall continue to be accurate in all material respects.

- 12 The Licensee shall send a copy of the statements prepared in accordance with paragraphs 1, 2 and 10 and of each revision of such statements in accordance with paragraph 11 to the Authority. Each such revision shall require to be approved by the Authority and shall not become effective until approved by the Authority.
- 13 The Licensee shall give or send a copy of the statements prepared in accordance with paragraphs 1, 2 and 10 or (as the case may be) of the latest revision of such statements in accordance with paragraph 11 approved by the Authority pursuant to such paragraph to any person who requests a copy of such statement or statements.
- 14 The Licensee may make a charge for any statement given or sent pursuant to paragraph 13 of an amount reflecting the Licensee's reasonable costs of providing such a statement which shall not exceed the maximum amount specified in directions issued by the Authority from time to time for the purposes of this Condition.
- 15 The Licensee may within 10 days after receipt of the request provide an estimate of its reasonable costs in the preparation of any statement referred to in paragraph 8, and its obligation to provide such statement shall be conditional on the person requesting such statement agreeing to pay the amount estimated or such other amount as the Authority may, upon the application of the Licensee or the person requesting such statement, direct.
- 16 For the purposes of paragraph 8, the date referred to shall be the later of:
- (a) the date of receipt of the request referred to in paragraph 8; or

Statements

- 5 The Licensee shall prepare, in respect of each Year in which it increases or decreases charges in pursuance of paragraph 2, 3 or 4, a statement showing:
- (a) the aggregate amount of its revenue derived from increases in charges in pursuance of paragraph 2;
 - (b) the aggregate amount of its revenue derived from increases in charges in pursuance of paragraph 3;
 - (c) the aggregate amount of the decrease in its revenue resulting from decreases in charges in pursuance of paragraph 4; and
 - (d) in the case of each Last Resort Claim, the aggregate payments to the Claimant made in respect of the Year in question (whenever those payments were made).
- 6 The Licensee shall give the statements referred to in paragraph 5 to the Authority within the first 4 months of the Year following that to which they relate. On giving the statement referred to in paragraph 5(d) to the Authority, the Licensee shall also publish it in such manner as, in the reasonable opinion of the Licensee, will secure adequate publicity for it.

Miscellaneous

- 7 Any question whether any estimate for the purposes of paragraph 2, 3 or 4 is a reasonable one shall be determined by the Authority.
- 8 In calculating the revenue received by the Licensee from the Charges during any period for the purposes of Annex 1, any increase or decrease in revenue attributable to the Licensee's compliance with this Condition shall be treated as if it had not occurred.

Annex 2 - Distribution Charge Restriction Conditions

1. Definitions

1.1. In this Annex:

"Allowed Related Party Margin"	means the part (if any) of any Related Party Margin that provides for a reasonable and transparently calculated allowance for depreciation and return on capital in relation to assets to the extent that these are employed by the Related Party in the provision of relevant services to the Licensee and not otherwise included in the calculation of the Maximum Regulated Distribution Revenue or recoverable through the Licensee's connection charges.
"Approved Generation Cluster Infrastructure"	means infrastructure that has been approved by the Authority for the purposes of the arrangements set out in the Connection Charging Statement for funding generation cluster infrastructure partly through the Licensee's RAB.
"Average Specified Rate"	means the arithmetic mean of the daily base rates of Danske Bank Limited (or such other bank as the Authority shall specify from time to time) current from time to time during the period in respect of which the calculation falls to be made.
"Connection Charging Statement"	means the statement of charges for connection to the Licensee's distribution system as prepared by the Licensee and approved by the Authority under Condition 32 hereof which is effective for the relevant period.
"Deferred Revenue Expenditure"	means expenditure which is classified as capital expenditure for accounting purposes (because it gives rise to economic benefits over more than one year) but is not capital expenditure for tax purposes (because it does not create a sufficiently identifiable asset). For example, Deferred Revenue Expenditure

may include the replacement of age-expired network components when (for tax purposes) the network as a whole is seen as a single asset.

“Demonstrably Inefficient or Wasteful Expenditure”	means expenditure which the Authority has (in a published decision giving reasons) determined to be demonstrably inefficient and/or wasteful, given the information reasonably available to the Licensee at the time that the Licensee made the relevant decision about that expenditure. For the avoidance of doubt, no expenditure is Demonstrably Inefficient or Wasteful Expenditure simply by virtue of a statistical or quantitative analysis that compares very aggregated measures of the Licensee’s costs with the costs of other companies.
“Distribution Charge Restriction Conditions”	means the paragraphs set out in this Annex 2 as from time to time modified or replaced in accordance therewith or pursuant to Article 14, 14A, 14E or 18 of the Order, under the Energy Order, under the SEM Order or under the Directive Regulations.

	customers and support of global aggregation for settlement of the all-island wholesale market.
"ERDC"	means early retirement deficit contributions.
"Excluded Services"	means those services provided as part of the Distribution Business which in accordance with the principles set out in paragraph 13 fall to be treated as Excluded Services.

"Fuel Security Event"	means a Fuel Security Event as defined in the Northern Ireland Fuel Security Code, published by the Department of Enterprise, Trade and Investment.
"HMRC"	means HM Revenues and Customs or, in relation to any function of that body referred to in this Annex, such other person as may (whether in relation to the United Kingdom as a whole or Northern Ireland) be allocated the role of performing that function after the commencement of RP6.
"Licensee's Allowed Distribution Related Security Costs"	<p>means any cost incurred by the Distribution Business and approved by the Authority (in a published decision) as being an allowed security cost in accordance with the Northern Ireland Fuel Security Code (as that term is therein defined), but excluding any cost which forms part of:</p> <ul style="list-style-type: none"> a) the allowed power procurement business related security costs; or b) the payments to generators in relation to services provided to the power procurement business during Fuel Security Events.

“Maximum Regulated Distribution Revenue”	means the maximum Regulated Distribution Revenue that the Licensee is entitled to recover in the Regulatory Tariff Year and the Regulatory Reporting Year (as the case may be) as calculated in accordance with the provisions of this Annex.

“Related Party Margin”

The profit or loss recorded on a transaction with an affiliate being the excess or deficit on actual direct costs and indirect costs (excluding financing costs) fairly attributable to the transaction or the charge and the cost of providing that transaction.

For Captive Insurance businesses the margin is to be computed based on the captive’s premium income less reinsurance premiums, claims paid out and movements on technical and IBNR reserves attributable to the Licensee’s business only, i.e. usually reported as the profits/loss on the Technical account. Where a captive insures more than the Licensee, then it’s profit/loss should be computed pro rata to the premiums paid by the Licensee to total premium income in the captive for the year and the movements on technical and IBNR reserves not attributable to the Licensee’s business must first be removed.

“Relevant Change of Law”

means any of the following, to the extent that it applies to or is binding on the Licensee:
