04 November 2015

Dear Caspar

Overall approach to RP6

NIE Networks welcomes the opportunity to review the Utility Regulator's (UR) consultation on the overall approach to RP6. At this point, we have no specific comments we wish to make.

We will continue to engage constructively with the UR, in particular as we seek to close out the RP6 consumer engagement exercise. We also look forward to working closely with you and assisting where necessary, as the UR develops the Business Plan Information Requirements template for us to complete in January.

Yours sincerely

CARL HASHIM
Compliance Manager
