**Condition 13: Not Used**

**Condition 14: Prohibition of discrimination in supply**

- 1 This Condition applies where the Licensee (taken together with its affiliates and related undertakings) is in a dominant position in a market for the supply of electricity to Customers.
- 2 Where this Condition applies the Licensee shall not supply or offer to supply electricity to Customers in any market in which it is dominant on terms which are predatory.
- 3 Where this Condition applies but subject to paragraph 4, the Licensee (taken together with its affiliates and related undertakings) shall not, in supplying or offering terms for the supply of electricity to Customers in any market in which it is dominant:
  - (a) show undue preference to any person (or class of persons) within such market;
  - (b) exercise undue discrimination between any persons (or classes of person) within such market; or
  - (c) set terms which are unduly onerous.
- 4 Nothing in paragraph 3 shall prohibit the Licensee, within any area or class of Customers (the **relevant area or class**) in respect of which there is established competition in the supply of electricity, from supplying or offering to supply electricity on terms which are reasonably necessary to meet that competition, save that the Licensee (taken together with its affiliates and related undertakings) shall not, in supplying or offering terms for the supply of electricity:
  - (a) show undue preference to any persons (or class of persons) or exercise undue discrimination between any persons (or classes of person) within the relevant area or class of Customers; or
  - (b) set terms in respect of any person (or class of persons) in a market in which the Licensee is dominant, save such persons who are within the relevant area or class of Customers, which are unduly onerous.
- 5 For the purposes of this Condition, terms are unduly onerous if the revenue from the supply of electricity to Customers on those terms:

- (a) significantly exceeds the costs of that supply; and
  - (b) exceeds such costs to a significantly greater degree than the revenue from supply to all other Customers of the Licensee (and of its affiliates and related undertakings) within the same market exceeds the costs of supply to those Customers.
- 6 For the purposes of this Condition, a market may be defined by reference to a geographical area, or to a class of Customer or both.
- 7 In determining, for the purposes of this Condition, whether any persons constitute a class of person, due regard shall be had to the circumstances of supply to such persons including (without limitation) volumes, load factors, conditions of interruptibility, location of premises being supplied and date and duration of the Contract or Deemed Contract.
- 8 For the purposes of this Condition, the Authority shall determine any question as to:
  - (a) whether any area or class of Customers constitutes a market for the supply of electricity;
  - (b) whether the Licensee (taken together with its affiliates and related undertakings) is dominant in any market for the supply of electricity;
  - (c) whether there is established competition in respect of the supply of electricity in any area or to any class of Customers; and
  - (d) whether any terms are predatory, having due regard to whether such terms:
    - (i) incorporate charges which do not reasonably cover the avoidable costs incurred in consequences of supplying the Customers in question; and
    - (ii) are intended or are likely to restrict, distort or prevent competition in the supply of electricity.
- 9 The Authority may, on the application of the Licensee, and following such consultation (if any) as the Authority may consider appropriate, issue directions relieving the Licensee of its obligations under this Condition in respect of such of the Licensee's arrangements or agreements as are specified in the direction and to such extent and subject to such conditions as may be specified in the direction.

2. The certificate given under paragraph 1 must be signed by a director of the Licensee and must have been approved by a resolution of the board of directors of the Licensee passed not more than 14 days before the date on which the declaration, recommendation or payment in question will be made.

- 1 The Licensee shall procure that the Generation Business of the Licensee is held as a Separate Business by or through a wholly-owned subsidiary of the Licensee.
- 2 The Licensee shall ensure that the sum of the amounts in megawatts (calculated as provided under paragraphs 5 and 6) represented by the declared net capacity of the own-generation sets in Northern Ireland of the Licensee and any affiliate and any related undertaking of the Licensee, and the appropriate share of the declared net capacity of generation sets in Northern Ireland in which the Licensee and any affiliate and any related undertaking of the Licensee has an accountable interest, shall not exceed:

accountable interest in Northern Ireland where such mobile generation sets are used solely for the purposes of the Transmission Owner Business or the Distribution Business.

- 5 Where the Licensee is in breach of paragraph 2 by reason of the acquisition of own-generation sets or an accountable interest in other generation sets in consequence of the occurrence of a specified event affecting the operator or any third party, the Licensee shall forthwith notify the Authority for the purpose of applying to the Authority for retroactive directions under sub-paragraph 2(a).
- 6 For the purpose of calculating the limit under paragraph 2, and subject to paragraph 7, there shall be attributed to the Licensee:
  - (a) the whole of the declared net capacity represented by own-generation sets; and
  - (b) the appropriate share (namely the share representing the Licensee's economic interest therein) of the declared net capacity of generation sets in which it has an accountable interest, ascertained in such manner as the Licensee, with the approval of the Authority, may determine.
- 7 Where the Authority is satisfied that by virtue of the Licensee's economic interest (ascertained in such manner as the Authority may determine) therein:

  - (b) own-generation sets should more properly be treated as sets in which the Licensee only has an accountable interest;
  - (c) own-generation sets, or generation sets in which the Licensee has an accountable interest, should not be treated as falling in either category; or
  - (d) generation sets not declared as sets in which the Licensee has an accountable interest, should be treated as generation sets in which the Licensee has an accountable interest;

  - (iv) provided or agreed to provide, or has determined or is responsible for determining the price (or other terms affecting the financial value) of, the fuel used in the generation sets;

other than by virtue only of the ownership of the Licensee or any affiliate or related undertaking of the Licensee of any land forming part of the land bank.

9 The Licensee shall not be deemed to have an accountable interest in a generation set where:

- (a) the Licensee's interest arises wholly under the terms of a power purchase agreement, an agreement for the provision of System Support Services, the Single Electricity Market Trading and Settlement Code, or under any electricity purchase or sale contract; or
- (b) the Licensee's interest arises solely by virtue of arrangements for the sharing with the operator of any generation set of the risks associated with changes in the price of fuel used by the generation set.

- 10 The Licensee shall, on each such occasion as it provides to the Authority separate accounts for the Generation Business pursuant to Condition 47 and at any other time upon request of the Authority, provide to the Authority a statement:

  - (b) identifying (in such detail and with such supporting documents or information as the Authority may require) the amount of capacity in megawatts represented by the declared net capacity of own-generation sets attributable to the Licensee and the appropriate share of the Licensee in the declared net capacity of generation sets in which the Licensee has an accountable interest, as at the date of the statement.
- 11 Where the Authority is satisfied that the basis of calculation used by the Licensee is not in conformity with paragraphs 6 and 7, the Authority may issue directions specifying an alternative basis of calculation, and the basis of calculation by the Licensee shall be adjusted accordingly with effect from the date of issue of the directions or such other date as may be specified in the directions.
- 12 In relation to gas pipelines:
- (a) except as provided in sub-paragraph (b), this Condition (except for paragraph 3) shall at all times apply mutatis mutandis to gas pipelines as it applies to generation sets other than non-fossil generation sets, and as if for references to the or any amount of capacity or declared net capacity of any own-generation set or generation set in which the Licensee is permitted to have an accountable interest there were substituted references to any capacity of a gas pipeline; and
  - (b) the Licensee shall be permitted to hold its interest under the gas conversion agreement and shall exercise any rights which it shall have under Schedule 3, Clause 5.6 (BG Option) of the gas conversion agreement in accordance with such directions as the Authority shall from time to time issue to it. In this sub-paragraph, references to agreements are to those agreements in the forms in which they shall have been entered into.

- 13 Without prejudice to paragraph 12, the Licensee shall not make charges for the provision of top-up or standby to any person or class or classes of persons which differ from the charges for such provision to any other person or class or classes of persons except insofar as such differences reasonably reflect differences in the costs associated with such provision.

$$MSt = Gt + Ut + St + KSt + Jt + Et - Dt$$

where:

**MSt** means the maximum average charge per unit supplied in respect of relevant year t.

**Gt** means the unit costs incurred in the purchase of electricity in pence per unit supplied in relevant year t, derived by:

to supply customers, and excluding Excess NIE Energy Supply Costs as defined under Annex 1),

subtracting

revenue in respect of relevant year  $t$  (measured on an accruals basis) derived by the Supply Business from the Single Electricity Market Trading and Settlement Code and from the settlement payments or receipts relating to supply customers under any contracts for differences entered into by the Supply Business, after deduction of value added tax (if any) and any other taxes based directly on the amounts so derived; and

where:

$P_{lt}$  means an amount derived from the following formula:

$$P_{lt} = (1 + (r_{pit} - X) / 100) * P_{lt-1}$$

but, in relation to the first relevant year,  $P_{lt-1}$  shall be equal to 1;

- (a) aggregating amounts payable by the power procurement manager to any person in relevant year t (measured on an accruals basis) for:
  - (i) the provision to the power procurement manager of the total available capacity of contracted generation sets and the purchase of electricity;
  - (ii) the use of any interconnector;

6. **Duration of PPB Amount restriction conditions**

6.1 This Annex shall apply so long as this Licence continues in force but shall cease to have effect (in whole or in part, as the case may be) if the Licensee delivers to the Authority a request (a “Disapplication Request”) made in accordance with paragraph 6.3 and:

- (a) the Authority agrees in writing to the request; or
- (b) the application of this Annex (or any other part of it) is terminated by notice given by the Licensee in accordance with paragraph 6.4 and not withdrawn.

6.2 Save where the Authority otherwise agrees, no disapplication following delivery of a Disapplication Request pursuant to this paragraph 6 shall have effect earlier than the date (the “Disapplication Date”) which is the later of:

- (a) the date occurring 18 months after delivery of the Disapplication Request; and
- (b) 23 September 2023.

6.3 Disapplication Request pursuant to this paragraph 6.3 shall:

- (b) may be withdrawn by the Licensee at any time prior to the Disapplication Date; and

  - (II) specify this Annex, or any part of it (which shall comprise only such part as was specified in the Disapplication Request) to which the notice relates; and

- (III) state the date from which the Licensee wishes the notice to take effect, which shall not be earlier than the Disapplication Date.

6.5 The circumstances described in this paragraph are that, by the beginning of the period of six months which will end with the Disapplication Date, the Authority has not in response to the Disapplication Request published a decision under Article 14(8) of the Order to modify:

- (a) this Annex, or any part of it to which the Disapplication Request relates; or
- (b) this paragraph 6, so as to remove the right of the Licensee to give to the Authority a Disapplication Notice in respect of the relevant Disapplication Request.

6.6 The circumstances described in this paragraph are that:

- 6.7 A Disapplication Request or Disapplication Notice served under this paragraph 6 may be served in respect of a specified geographic area.

7. **Change of Law**

- 7.1 Where it appears to the power procurement manager that there has been, or is likely to be, a relevant change of law which has had or is likely to have a material effect on the financial position and performance of the Power Procurement Business, the power procurement manager may require the Authority to determine whether the relevant change of law has had or is likely to have such an effect, and if so, what amounts, if any, should be treated as:

- (a) allowed change of law costs in calculating  $A_t$  for relevant year  $t$  and each succeeding relevant year in accordance with paragraph 2; and
- (b) allowed change of law revenues in calculating  $D_t$  for relevant year  $t$  and each succeeding relevant year in accordance with paragraph 2,

to ensure that the financial position and performance of the Licensee is likely, so far as reasonably practicable, to be the same as if the relevant change of law had not taken place. In determining the matters provided for in sub-paragraphs (a) and (b) above, the Authority shall have regard, where relevant, to:

- (a) its intentions in relation to the development and implementation of the requisite arrangements provided for in Condition 60;
- (b) the period over which the Licensee shall incur costs by reason of the relevant change of law;

the Authority shall otherwise consent, shall be given not later than the first day of October immediately preceding the first of the relevant years in respect of which the power procurement manager wishes any change in such elements to take effect.

7.3 In this paragraph:

**“environment”** has the meaning ascribed to it in the Environmental Protection Act 1990;

**“harm to the environment”** means actual or potential adverse effects on the environment or living organisms (including man), and shall include changes in climatic conditions or other natural physical systems or functions in the world or any part thereof, and shall also include harm as that expression is defined in the Environmental Protection Act 1990;

**“legal requirement”** means, in relation to a relevant person, any of the following:

- (a) any enactment to the extent that it applies to the relevant person;
- (b) any regulation made by the Council or the Commission of the European Communities to the extent that it applies to the relevant person or a decision taken by the said Commission which is binding on the relevant person to the extent that it is so binding;
- (c) any interpretation of law, or finding, contained in any judgment given by a court or tribunal of competent jurisdiction in respect of which the period for making an appeal has expired which requires any legal requirement falling within (a) or (b) above to have effect in a way that is

different to that in which it previously had effect;

- (d) any direction of a competent authority other than, insofar as it applies to the Licensee, the Authority (except in the exercise of its powers under paragraph 4 of Condition 16 of the Transmission System Operator Licence or successor paragraph) or the Department;

**“relevant change of law”** means any of the following:

- (c) the application to any generator of any legal requirement which did not previously so apply or the change of any legal requirement relating to that generator (including any such legal requirement ceasing to apply, being withdrawn or not being renewed) which has the effect of increasing the cost of electricity purchased by the power procurement manager,

other than in relation to:

- (i) corporation tax (or any other tax of a similar nature replacing corporation tax on profits or gains); or
- (ii) Value Added Tax (save to the extent that the generator is not entitled to credit for the same as input tax under section 14 of the Value Added Tax Act 1983);

save to the extent that the rate, incidence or basis of or other provisions applicable to such tax differ as between one case and another, by reason of considerations or matters relating to harm to the environment so as to result in the imposition of tax or costs at a greater level or higher amount, as between one case and another, than would otherwise be the case.

For the above purposes, a tax shall be treated as charged, levied, imposed or payable in relation to or because of considerations or matters relating to harm to the environment, or differences as between one case and another shall be treated as applying by reason of considerations or matters relating to harm to the environment, if in all the circumstances it may reasonably be considered that considerations or matters relating to harm to the environment were a material factor in relation to the charging, levying or imposition or making provision for payment of such tax or the making of provision for such difference;

**“relevant person”**

means a generator or the Licensee; and

“**tax**” means any tax, duty, impost or levy of any nature whatsoever and wherever and whenever charged, levied or imposed.
