

Northern Ireland Water Ltd – AIR2012 Submission

This is the public domain version of the Reporter's submission for AIR2012. Items marked [x] have been excised as they are considered commercially confidential or of a sensitive nature.

Following queries from the Regulator since the submission of the AIR we are aware that NI Water has issued an erratum which amends some components of their Return. We have not sought to verify or update the Reporter commentaries to take account of these changes. The Reporter's public domain commentary is therefore based on the Company's submission to NIAUR in July 2012.
