Approval Criteria and Incentive Mechanisms for RP5 Fund 3 – Investments for Renewable Electricity Consultation Paper

Dear Sarah

Thank you for the opportunity to respond to the above consultation paper on approval criteria and incentive mechanisms for RP5 Fund 3.

Energia is an active participant of the Northern Ireland Renewable Industry Group (NIRIG) and shares its concerns that the process of project approval as outlined in the consultation has the potential to introduce significant additional delays in developing required infrastructure to facilitate renewable targets. Energia therefore fully endorses the NIRIG response.

Please do not hesitate to contact us if you would like to discuss.

Yours sincerely

Kevin Hannafin
