**Subject:** UR Consultation on the implementation of Energy Supplier Codes of Practice.

Sinead ,

further to discussion yesterday.

Electric Ireland has fully reviewed the energy codes of practice document and the attached appendices and is supportive of the scope of, and the proposed minimum standards guidance and monitoring approach.

Much of what is proposed is within our existing codes of practice and additional proposals appear sensible additions. In this respect especially the briefings / workshops were very useful and its very clear that these influenced the final version of the codes suggested.

Regards,

**Sean Doolin**
