Within thirty days of the Authority giving the Licensee notice of the sum due, the Licensee shall pay to the Authority a sum not exceeding £300,000 determined by the Authority in accordance with the principles set out in Condition 1.11.3 in respect of the fee payable for that part of the year commencing on the date of the Grant and ending on 31st March and for each subsequent year commencing on 1st April the fees payable by the Licensee under this Condition shall be payable by the Licensee within 30 days of the Authority giving the Licensee notice of the sum due.

1.11.3 Amount of annual fee

In respect of the year beginning on 1st April 2007 and in each subsequent year, within 30 days of the Authority giving the Licensee notice of the sums due, the Licensee shall pay to the Authority a fee which is the aggregate of the following amounts:

(a) an amount equal to the proportion which the Authority shall determine in relation to the licence of the amount estimated by the Authority, according to a method which has previously been disclosed in writing to the Licensee, as likely to be its costs during the year in question (i) in the exercise of its functions under the Order and the Energy Order in relation to the holders of licences granted under Article 8(1)(c) of the Order and (ii) in connection with the establishment of the Authority and the transfer to the Authority of the functions, property, rights and liabilities of the Director;
(b) an amount equal to the proportion which the Authority shall determine in relation to the licence of an amount notified to the Authority by the General Consumer Council and approved by the Department as being the General Consumer Council’s estimate of its likely costs during the year in question in the exercise of the functions relating to gas assigned to it by or under the Order and the Energy Order and any other such functions as it has been or may be required to exercise by the Authority, or, in the event that the Authority shall not have received such notification by 31 July in the year in question, an amount equal to the said proportion of an amount being the Authority’s estimate of such likely costs (having regard to any estimate of such costs in any forward work programme published by the General Consumer Council in respect of the year in question);

(c) an amount which is a proportion as determined by the Authority of the amount estimated by the Authority (in consultation with the Competition Commission) as having been incurred in the year immediately preceding the year in question by the Competition Commission in connection with references made to it under Article 15 of the Order with respect to the licence or any other licence granted under Article 8(1)(c) of the Order; and

(d) the difference (being a positive or negative amount), if any, between:

(i) the amount of the fee paid by the Licensee in respect of the year immediately preceding the year in question in relation to the licence less any refund paid to the Licensee in respect of that year under Condition 1.11.5 below; and

(ii) the amount which that fee would have been in respect of that year:

(aa) had the amount comprised therein under Condition 1.11.3(a) (or, where that year commenced on 1st April 2004 had the amount comprised therein which was attributable to the matters referred to in that Condition, as determined by the Authority according to a method disclosed in writing to the Licensee) been calculated by reference to the total costs of the Authority in connection with its functions under the Order and its functions in relation to gas under the Energy Order, and the proportion thereof actually attributable
(bb) had the amount comprised therein under Condition 1.11.3(b) (or, where that year commenced on 1st April 2004 had the amount comprised therein which was attributable to the matters referred to in that Condition, as determined by the Authority according to a method disclosed in writing to the Licensee) been calculated by reference to the total costs of the General Consumer Council in connection with the functions referred to in Condition 1.11.3(b) and, where appropriate, the proportion thereof actually attributable to that licence;

such total costs being apportioned in each case as determined by the Authority according to a method previously disclosed in writing to the Licensee,

provided that the total fees payable by the Licensee in respect of the amounts determined by the Authority under Conditions 1.11.3(a) and (b) shall not, in respect of any year commencing on 1st April, exceed £650,000 adjusted from the date of the Grant annually by reference to the retail price index.

1.11.4 Definition for the purposes of this Condition

In this Condition 1.11, the “Director” means the Director General of Gas for Northern Ireland.
1.11.5 Refunds

In respect of each year the Authority may (where it is reasonable to do so taking into account the annual reconciliation provided for under Condition 1.11.3(d)) pay the Licensee an amount ("the refund") calculated in accordance with the method previously disclosed in writing to the Licensee and by reference to the difference between:

(a) the proportion of the licence fee for that year paid by the Licensee which is attributable to the Authority’s estimate in accordance with Condition 1.11.3(a) and the estimate of the General Consumer Council or the Authority (as appropriate) in accordance with Condition 1.11.3(b); and

(b) the Authority’s reasonable revised estimate of those costs (taking account of any revised estimate of the costs referred to in Condition 1.11.3(b) which is approved by the Department and notified to the Authority by the General Consumer Council),

provided that any such refund shall be paid to the Licensee on or before 31 March in the year to which the licence fee relates.

PART 2

CONDITIONS APPLICABLE TO THE SUPPLY OF GAS BY THE LICENCE HOLDER

Condition 2.1: Not used
Condition 2.2: Security and Continuity of Supply

2.2.1 Licensee to maintain its financial affairs

The Licensee shall at all times maintain its financial affairs in such a way so as not to prejudice the conduct of its Licensed Business and shall at the request of the Authority provide the Authority with such information as the Authority may reasonably request to be satisfied of the above.

2.2.2 Licensee to maintain supply/demand match

The Licensee shall at all times act to maintain the balance of its supplies of gas and demands for gas such that it can maintain a continuous and reliable supply of gas to its existing consumers from time to time, and without prejudice to the generality of the foregoing can meet all such demands for gas in accordance with the security standard.

2.2.3 Security Standard

The security standard means:

(a) the availability of a supply of gas which would at least equal the daily firm demand which, having regard to historical weather and other data demand from at least the previous 50 years, is likely to be exceeded (whether on one or more days) only in 1 year out of 20 years; and

(b) the availability of supplies of gas over a year which would equal the aggregate amount of daily firm demand over a year which, having regard to such data as aforesaid, is likely to be exceeded only in 1 year out of 50 years.

**Condition 2.3: Use of the Network**

2.3.1 **Compliance with the Network Code**

The Licensee shall:

(a) comply with the provisions of every Network Code in so far as applicable to it; and

(b) act in a reasonable and prudent manner in the use it makes of each Network,

provided that the Authority may (following consultation with the Network Operator responsible for the relevant Network Code) issue directions relieving the Licensee from its obligation under Condition 2.3.1(a) in respect of such parts of a Network Code and to such extent and subject to such conditions as may be specified in those directions.

2.3.2 **Particular compliance obligations**

Without prejudice to the generality of Condition 2.3.1, the Licensee shall enter into arrangements with each relevant Network Operator for the conveyance of the Licensee's supplies of gas in accordance with that Network Operator's Network Code and the Licensee shall not knowingly or recklessly pursue any course of conduct (either alone or with some other person) which is likely to prejudice:

(a) the safe and efficient operation, from day to day, by a Network Operator of its Network; or

(b) the efficient balancing by that Network Operator of its Network; or

(c) the due functioning of the arrangements provided for in its Network Code.
2.3.3 Information not intentionally to mislead

The Licensee shall not knowingly or recklessly act in any manner likely to give a false impression to a Network Operator as to the amount of gas to be delivered by the Licensee on a particular day to that Network Operator's Network or as to the amount of gas to be comprised in its offtakes of gas therefrom on that day.
**Condition 2.4: Charges for Gas and Other Terms for the Supply of Gas**

2.4.1 **Control over Charges in the absence of competition**

If consumers of different cases or classes of cases or for different areas, whose consumption of gas at any premises is reasonably expected not to exceed 2,197,500 kilowatt hours in any period of twelve months:

(a) do not have the opportunity of taking a supply of gas from another gas supplier (or if there is such an opportunity it does not safeguard the interests of consumers); and

(b) the Authority determines that competition from fuels other than gas is not safeguarding the interests of those consumers;

then the Licensee shall take all reasonable steps to secure that in any period of 12 months the average price per therm of gas supplied to such consumers shall not exceed a maximum price to which the Authority has consented (and the Authority having consulted with the Licensee before deciding whether to give or withhold its consent), and (without prejudice to any other means of modifying the licence under Condition 1.8 and the Order and the Energy Order), failing consent then:

(c) within 28 days of the date on which the Authority gives notice of its withholding consent, the Licensee may request the Authority by notice to the Authority (a "disapplication notice") not to apply this Condition 2.4.1 in which event it shall not apply;

(d) unless within six months of the date of the disapplication notice the Authority makes a reference to the Competition Commission under Article 15 of the Order relating in whole or in part to the modification of this Condition 2.4.1, this Condition 2.4.1 will continue not to be applied after that period has passed in respect of those consumers; and

(e) in the event of such a reference to the Competition Commission under paragraph (d) above, the Commission gives a report, then until the licence shall be modified in accordance with the Order in relation to that reference, the Licensee may continue
to charge for the supply of gas notwithstanding that the Authority has not
consented to such charges;

and in relation to charges imposed by the Licensee with the consent of the Authority where
this Condition 2.4.1 applies, then the Licensee shall continue to comply with charging
arrangements to which the Authority has consented until the Authority otherwise agrees
with the Licensee that such consent may be modified or the need for such consent is no
longer relevant.

2.4.2 Principles to be applied in consenting to Charging Basis

For the purposes of Condition 2.4.1, in giving consent, the Authority shall have regard to
the need of the Licensee to be able to finance the carrying on of its activities and to make a
return on capital equal to that which in the reasonable opinion of the Authority is
appropriate.

2.4.3 Statement of charges for the supply of gas

Where the Licensee is in a dominant position in the supply of gas to consumers of different
cases or classes of cases or for different areas, then the Authority may direct the Licensee
to provide it with a statement of the charges being made or proposed to be made to such
consumers by the Licensee for the supply of gas, and:

(a) any question as to whether the Licensee is in a dominant position shall be
determined by the Authority, having regard to any representations made to it; and

(b) in relation to charges which are proposed to be made the Authority may direct a
minimum period before these charges may be introduced from its receipt of the
statement.
2.4.4 Publication of statement of charges for the supply of gas

The Licensee shall comply with any direction given by the Authority to publish in such manner as determined by the Authority the statement prepared by the Licensee under Condition 2.4.3 so as to give adequate publicity to the matters contained in that statement with respect to consumers whose demand for gas at any premises is not reasonably expected to exceed 732,500 kilowatt hours in any period of twelve months.

2.4.5 Classes of consumers

In determining which consumers constitute different cases or classes of cases for the purposes of this Condition, due regard shall be had to all the circumstances of supply (including, in particular, volumes, pressure of supply, load factors, conditions of load management including interruptability, seasonality of supply, location of premises being supplied, date, duration and terms of agreement).

2.4.6 Standard terms for the supply of gas to consumers of gas

Where the Licensee is in a dominant position in the supply of gas to consumers of different cases or classes of cases or for different areas, then the Authority may direct the Licensee to determine in so far as is reasonably practicable standard terms on which it would be prepared to enter into contracts to supply gas to such consumers, and:

(a) any question as to whether the Licensee is in a dominant position shall be determined by the Authority, having regard to any representations made to it;

(b) different standard terms may be determined for consumers of different cases or classes of cases, or for different areas;

(c) where it is not reasonably practicable to prepare standard terms as above in respect of any consumer or for consumers of different cases or classes of cases or for different areas, the Licensee shall prepare a summary of the terms on which it would contract to supply gas; and

(d) the Licensee shall give written notice of those terms and of any material variation therein (or if the Authority so requires, a revised notice of the terms) to the
Authority and, with respect to contracts for the supply of gas where the supply is
to individual premises and is not reasonably expected to exceed 732,500 kilowatt
hours in any period of twelve months, the Licensee shall:

(i) on request by any other person, furnish that person with a copy of any such
notice; and

(ii) shall publish the standard terms for such a supply and any variation thereto
in such manner as in the reasonable opinion of the Licensee will secure
adequate publicity for them,

and, for the purposes of this Condition 2.4.6, "standard terms" means terms as to charges
and all such other matters as concern the rights and obligations of the contracting parties.
**Condition 2.5: Undue Discrimination and Undue Preference**

2.5.1 Dominant position

If the Licensee, together with any of its affiliated or related undertakings operating in the same market, is in a dominant position in a market for the supply of gas to consumers whose demand for gas at any premises is not reasonably expected to exceed 2,197,500 kilowatt hours in any period of twelve months, then the Licensee, in the terms on which it supplies or offers to supply gas to consumers in that market:

(a) shall not show undue preference to any consumer or class of consumer; and

(b) shall not exercise any undue discrimination against any consumer or class of consumers;

and shall not set prices for the supply of gas to consumers at premises:

(c) in any market or markets in which it has a dominant position which are unduly onerous; or

(d) in any market or markets which are predatory.

2.5.2 Established competition

Condition 2.5.1 shall not prevent the Licensee from supplying or offering to supply gas to all or any class of consumers on terms which are reasonably necessary to meet established competition in relation to such consumers, provided that the Licensee:

(a) does not set terms in respect of the consumers in question which:

   (i) are predatory; or

   (ii) show undue preference or unduly discriminate as between any such consumers; and
(b) does not set terms in respect of the supply of gas at premises to consumers of any other class in relation to whom the Licensee has a dominant position, which are unduly onerous.

2.5.3 Predatory/unduly onerous terms

For the purposes of Conditions 2.5.1 and 2.5.2,

(a) terms shall be taken to be predatory if but only if:

(i) charges in accordance with those terms do not cover such avoidable costs as, in the opinion of the Authority, they ought reasonably to cover; and

(ii) the terms are made available for the purposes of, or are likely to have the effect of, unfairly excluding or limiting competition between the Licensee and one or more other gas suppliers;

(b) terms in respect of particular consumers shall be taken to be unduly onerous if the revenue from supply on those terms:

(i) significantly exceeds costs in respect of those consumers; and

(ii) exceeds such costs by significantly more than in the case of the generality of consumers supplied with gas at premises by the Licensee save for those in any market which is by virtue of Condition 2.5.7 considered to be a separate market,

but, unless the converse is manifestly the case, terms shall not be taken to be unduly onerous if other gas suppliers to consumers at the premises in question are only willing to do so on more onerous terms, having regard to the costs of market entry they have incurred or would thereby incur.
2.5.4 Class of consumers

In distinguishing consumers and classes of consumer for the purposes of Conditions 2.5.1 and 2.5.2, due regard shall be had to all the circumstances of supply (including, in particular, volumes, pressure of supply, load factors, conditions of load management including interruptability, seasonality of supply, location of premises being supplied, date, duration and terms of agreement).

2.5.5 Determination by Authority

Any question arising under this Condition as to whether the Licensee or any other gas supplier (whether alone or together with any of its affiliated or related undertakings operating in the same markets) is in a dominant position in a market shall be determined by the Authority, having regard to any representations made to it.

2.5.6 Additional Definitions

In this Condition:

"avoidable costs" means those costs which would not be incurred by the Licensee if he did not supply the consumers in question, including (but with due regard to the timing thereof) all relevant future outlays affected by the decision to supply; and

"terms" means all the terms on which a supply of gas is provided or offered, whether as respects charges, methods of payment or otherwise.
2.5.7  **Separate market for domestic consumers**

For the purpose of this Condition, any market for the supply of gas to domestic consumers shall be considered to be a separate market from any market for the supply of gas to non-domestic consumers.
Condition 2.6: Supply to Business Premises

2.6.1 Exemption from certain licence obligations

Conditions 2.9 - 2.13 and 2.15 shall not apply to any agreement entered into by the Licensee for the supply of gas to business premises.
**Condition 2.7: Supply and Inspection of Meters**

2.7.1 Supply of meters

The following provisions shall apply with respect to the supply of meters:

(a) subject to Conditions 2.7.1(b) to (g), the Licensee shall make such arrangements with the relevant Network Operator for the provision and/or installation of a gas meter of an appropriate type by the Network Operator to any consumer to whom the Licensee supplies gas for registering the quantity of gas supplied by the Licensee to that consumer;

(b) the Licensee shall, if so requested by one of its domestic consumers or a person who has agreed to become a domestic consumer of the Licensee, arrange for the provision to that consumer of a meter owned by it or the relevant Network Operator which is of an appropriate type for registering the quantity of gas supplied to him by:

(i) arranging with the relevant Network Operator for the meter owned by the Network Operator and installed in the premises to remain in place; or

(ii) arranging with the owner of the meter installed in the premises to purchase or otherwise acquire that meter and for it to remain in place; or

(iii) arranging for the installation of a meter where there is no meter in place, or the meter in place is inappropriate or cannot be purchased or acquired on reasonable terms; or

(iv) making such other arrangements for the provision of a meter as may be agreed between the Licensee and the consumer;

(c) where the Licensee is obliged under Condition 2.7.1(b) to arrange for the provision of a meter to a consumer, it shall not require, as a condition of making such an arrangement as is mentioned in Conditions 2.7.1(b)(i), (ii) or (iii), that the consumer takes the meter otherwise than on hire or loan.

(d) where a consumer of the Licensee transfers possession of a meter to the Licensee
and that meter is owned by the relevant Network Operator, the Licensee shall so inform that Network Operator, and hold the meter to the Network Operator's order for a period of one month in the condition in which it was received and with the index unaltered;

(e) where a domestic consumer terminates a contract with the Licensee for the supply of gas, the Licensee shall not:

(i) exercise any right to recover any meter owned by the Licensee at, or by reason of, the termination of such contract, or

(ii) authorise any of its officers to enter the consumer's premises for the purpose of removing any such meter;

if another gas supplier undertakes prior to the date of such termination to make an arrangement with the Licensee of the type contemplated in Condition 2.7.1(b)(ii) above on terms that the Licensee receives such compensation (if any) as may be appropriate having regard to the value of the meter;

(f) subject to Condition 2.7.1(g), the Licensee shall not be required to supply or continue to supply gas to a person, or to offer a new contract where that person takes his supply through a meter which belongs to him or if the meter is lent or hired to him otherwise than by the Licensee or by the relevant Network Operator, or if the meter is ordinarily to be read in accordance with arrangements made otherwise than by the Licensee, unless the meter is or the arrangements in question are acceptable to the Licensee; and

(g) from such date no earlier than as may be designated in writing for the purposes of this Condition generally by the Authority following such trials and consultation as it considers appropriate (the "metering liberalisation date"), the Licensee shall not:

(i) refuse to accept a meter requested by the consumer the use of which does not contravene Article 22 of the Order and which is appropriate for registering the quantity of gas supplied, except on the ground that:

   (aa) the Licensee requires the supply to be taken through a prepayment
meter and the meter is not one of that type; or

(bb) the meter does not offer the facilities requisite for the purposes of the contract or having regard to its terms; or

(ii) refuse to accept arrangements made by the consumer for the ordinary reading of the meter which comply with such requirements, designed to secure accurate reading of the meter and prompt transmission of data in an appropriate form as may be set out in such document (the "metering code") or variation thereof as may be designated in writing for the purposes hereof by the Authority following consultation with any relevant licence or exemption holders or such other persons as the Authority considers appropriate.

2.7.2 Adjustment of Charges for erroneous meter readings

Where a consumer is supplied with gas through a meter at a rate not exceeding 2,197,500 kilowatt hours a year, this Condition shall apply if the meter is examined and found to register erroneously:

(a) where the error found is one of over-registration, the charges made by the Licensee in respect of gas supplied through the meter before it was found to register erroneously shall be adjusted by reference to the extent to which the meter is deemed to have registered erroneously; and, accordingly, allowance shall be made to the consumer by the Licensee; and

(b) where the error found is one of under-registration, the Licensee shall not surcharge the consumer in respect of gas supplied through the meter before it was found to register erroneously.
2.7.3 Extent of erroneous meter readings

Where the meter is found, when examined by a meter examiner appointed under Article 22 of the Order to register erroneously to a degree exceeding the degree permitted by regulations under that Article, the meter shall be deemed to have registered erroneously to the degree so found since the relevant date, except in a case where it is proved to have begun to do so on some later date and in this Condition 2.7.3 "the relevant date" means:

(a) the penultimate date on which, otherwise than in connection with the examination, the register of the meter was ascertained; or

(b) if regulations so provide, such other date as may be determined by or under the regulations.
**Condition 2.8: Supply of Other Goods or Services**

2.8.1 **Separate charges**

Where, pursuant to a single contract, the Licensee supplies gas, together with other meters or meter-related services, including, in particular, the provision of a service pipe or the provision of energy efficiency goods or services the contract shall be prepared so as to identify separately the charges for the supply of gas and for the provisions of the linked goods or services.
Condition 2.9: Social Obligations

2.9.1 Arrangements

The Licensee shall within six months of the licence coming into force (unless it has done so before being so licensed in which case, on being so licensed):

(a) submit to the Authority and the General Consumer Council a statement of its proposed arrangements for the purposes of Conditions 2.10 to 2.12 and Conditions 2.22 - 2.23;

(b) if within 60 days of such submission or, if earlier, of the Licensee first being so licensed, the Authority notifies the Licensee that, in its opinion, the arrangements are not sufficient for these purposes, make such changes to the arrangements requisite to secure compliance with the conditions as are specified by the Authority;

(c) if within 60 days of such submission or, if earlier, of the Licensee first being so licensed, the General Consumer Council expresses any opinion regarding the arrangements, consider and consult with the General Consumer Council in relation to those arrangements; and

(d) make such arrangements;

and the arrangements so made in this Condition and in Conditions 2.10 to 2.12 are referred to as "the arrangements".

2.9.2 Extension of licence

In the event of an extension of the licence, the Licensee shall ensure that the arrangements remain sufficient for the purposes of Conditions 2.10 to 2.12 and shall make, subject to Condition 2.9.3, any necessary changes.
2.9.3 Change of arrangements

Except in the case of changes reasonably consequential upon a restriction of the licence which are made with effect from the effective date of the restriction, the Licensee shall not make any material change to the arrangements except following consultation with the General Consumer Council and with the consent of the Authority.

2.9.4 Notification of arrangements

The arrangements made in pursuance of Condition 2.9.1 shall be set out in one or more documents (together with any other arrangements which the Licensee considers it appropriate to set out therein) and the Licensee shall, in respect of each such document or revision thereof:

(a) take such steps as reasonably appear to it appropriate to draw its existence and the matters which it covers to the attention of persons who appear to it to have a reasonable interest therein;

(b) on the request of any person, make a copy available to him free of charge; and

(c) send a copy to the Authority and the General Consumer Council.

2.9.5 Household Consumers

The Licensee shall use its best endeavours to ensure, so far as is reasonably practicable, that it conducts itself towards its Household Consumers in conformity with the arrangements.
**Condition 2.10: Efficient Use of Gas**

2.10.1 **Advice**

The arrangements shall provide for the provision, at the request of any of the Licensee's Household Consumers, of advice on the efficient use of gas, given or prepared by a suitably qualified person and in particular, advice in respect of:

(a) the restriction of heat losses from existing buildings;

(b) the selection of gas heating (including the use of gas condensing boilers), systems or controls for such systems for use in either existing or new buildings;

(c) the operation of gas heating systems in either existing or new buildings which is best calculated to make an efficient use of gas;

(d) the efficient use of gas supplied to a domestic consumer but used for the purposes of trade or business;

(e) organisations which may provide further advice, training or other services in connection with the efficient use of gas;

(f) sources of possible financial assistance in meeting the cost of works calculated to improve the efficient use of gas in existing dwellings; and

(g) generally, in respect of the financial costs and benefits of energy efficient appliances.
**Condition 2.11: Services for Pensioners, Chronically Sick or Disabled Persons**

2.11.1 **Arrangements**

The arrangements shall provide, in relation to any of the Licensee's Household Consumers who is of pensionable age ("a pensioner") or is chronically sick or registered disabled ("a disabled person"), on request and without charge:

(a) except in the case of a consumer living with another person who is neither a pensioner nor chronically sick nor a disabled person nor a minor, for the examination by a person possessing appropriate expertise at intervals of not less than 12 months of the safety of gas appliances and other gas fittings on the consumer's side of the meter at his premises, other than an appliance for the annual inspection of which a landlord of the consumer is responsible in pursuant of regulations made under the Gas Safety (Installation and Use) Regulations (Northern Ireland) 2004;

(b) so far as is reasonably practicable and appropriate:

(i) for the provision of special controls or adaptors, from a range of such controls or adaptors, for prepayment meters provided by the Licensee and for gas appliances;

(ii) for the repositioning to meet the needs of the consumer occasioned by his physical condition arising from his age, chronic sickness or disability of any gas meter owned by the Licensee or the Network Operator; and

(iii) for the transmission to any other relevant party licensed or authorised to convey gas under the Order of any request by the consumer for that party so to reposition any gas meter it owns;

(c) for affording to the consumer special means by which he may confirm the identity or authority of any of the Licensee's officers authorised for the purposes of any provision of Schedule 5 to the Order;

(d) for the provision of advice, given or prepared by a person possessing appropriate
expertise, relating to the use of gas, gas appliances and other gas fittings;

(e) for invoices or accounts in respect of the supply of gas to the consumer to be sent to a person who, for the time being, is nominated by him and is willing to be sent such invoices or accounts, without prejudice, however, to the right of the Licensee to send them to the consumer as well where that appears appropriate to the Licensee; and

(f) where neither the consumer nor any person living with him is able to read the gas meter and it is ordinarily read in accordance with arrangements made by the Licensee, for the meter to be read once in each quarter and for the consumer to be told what those readings are.

2.11.2 List of pensioners or disabled persons

The arrangements shall provide:

(a) for the keeping by the Licensee of a list of its Household Consumers who are either pensioners or disabled or chronically sick persons and who request to be included in the list;

(b) for the list to contain appropriate information provided by the consumer which facilitate the identification of his special needs;

(c) for notifying its Household Consumers once each year that that list is kept and how those who are pensioners or disabled or chronically sick persons may apply for inclusion therein; and

(d) for the Licensee to provide the information in the list to any relevant party licensed or authorised by exemption under the Order to convey gas in an appropriate form and at appropriate intervals.
Condition 2.12: Facilities for Blind and Deaf People

2.12.1 Adequate facilities

The arrangements shall provide for the provision, on request and free of charge, in relation to the Licensee's Household Consumers who, to the knowledge or reasonable belief of the Licensee:

(a) are blind or partially sighted of:

(i) details of the meter readings and charges in respect of the supply of gas as set out in any bill; and
