Publication Note:

This draft of a generic electricity distribution licence has been published for illustrative purposes only to assist those persons who are currently undertaking the activity of electricity distribution and who will from 30 April 2013 need to be authorised to carry out that activity by way of a licence. This draft licence includes only those conditions which the Utility Regulator (UR) considers are likely to be included in all distribution licences.

It should however be noted that (i) additional licence conditions may be included, and/or (ii) the conditions shown in this draft version may be modified, in any individual distribution licence granted by the UR.

In particular, and without limitation, the UR may include licence conditions which impose obligations in respect of distribution charges and/or tariffs (namely a price control), which require the licensee to give certain undertakings in respect of its business, which provide for the distribution business to be independent from any other electricity business of the licences or within the licensee’s group etc.

Any person that is currently undertaking the activity and considers that it may from 30 April 2013 need an electricity distribution licence should contact the Utility Regulator at the earliest opportunity.

(i) allocating and recording a unique meter point registration number for each meter point when it first becomes registered in the register;

(ii) the identity of the relevant licensed supplier responsible for the settlement of the electricity supplied to such premises;

(iii) such information as is required to enable information relating to the meter point to be submitted to settlement; and

(iv) an address of each such premises so far as is reasonably practicable having regard to the nature and source of information provided to the Licensee;

(b) the amendment in a timely manner of the register maintained in accordance with paragraph (a) to reflect changes of relevant licensed supplier to any premises and any other information relating to those premises;

(c) the provision, in a timely manner of such data referred to in paragraph (a) contained in the register as is reasonably required and requested:

(i) to any relevant licensed supplier who is registered as the supplier for the premises or who has been provided with the meter point registration number or customer reference number for the purposes of a change of relevant licensed supplier in respect of the premises;

(ii) for the purposes of settlement, including to the Transmission System Operator, the Northern Ireland Market Operator Licensee and the Licensee;
and

(iii) subject to any requirements for consent under the Market Registration Code, to any person identified in the Market Registration Code as entitled to such data for the purpose of facilitating changes of relevant licensed supplier in respect of any premises; and

(d) the maintenance of, and adequate publicity for, an enquiry service for the provision on request to any customer taking a supply of electricity (promptly and at no extra charge to the customer) of the meter point registration number (or, where that number has not yet been created, the customer reference number) of the meter point for the customer’s premises (in the case of unmetered premises, to the extent the Licensee has such information).

3 The Market Data Service shall fulfil the following functions in respect of meter points for premises connected to the Distribution System (the “relevant premises”):

(a) the collection and verification of data from electricity meters installed to measure flows of electricity to or from any relevant premises with a permanently metered supply;

(b) the compilation of data measuring the flow of electricity to or from unmetered relevant premises;

(c) the processing, validation, estimation and substitution of consumption data in respect of flows of electricity to or from any relevant premises (“consumption data”);

(d) the collation and summation of such consumption data as required for settlement purposes;

(e) the transfer of processed consumption data as is reasonably required and requested:

(i) to any relevant licensed supplier who is registered as the supplier for the relevant premises; and

(ii) for the purposes of settlement, including to the Transmission System Operator, the Northern Ireland Market Operator Licensee and the Licensee; and

(f) the exchange of information between the Licensee and relevant licensed suppliers to meet the reasonable requirements of relevant licensed suppliers and the
Licensee in relation to requests by relevant licensed suppliers for relevant fieldwork.

(g) the maintenance, retention and provision of information, as is reasonably required and requested by a relevant licensed supplier, of the data collection activities undertaken by the Licensee on behalf of the relevant licensed supplier.

4 In the provision of the Market Registration Service and the Market Data Service, the Licensee shall not discriminate as between any relevant licensed supplier or any class or classes of relevant licensed supplier except insofar as the differences in the terms or conditions of such provision:

(a) reasonably reflect the differences between the circumstances of such provision to one person or class of persons and another; and

(b) have been notified to the Authority together with supporting reasons, and the Authority has approved in advance the differences in the terms or conditions or the circumstances in which different terms or conditions may be applied.

5 Without prejudice to paragraph 4, the Licensee shall not make charges for the provision of the Market Registration Service and/or the Market Data Service to any relevant licensed supplier which differ from the charges for such provision to any other relevant licensed supplier or class or classes of relevant licensed suppliers except insofar as such differences:

(a) reasonably reflect material differences in the costs associated with such provision; and

(b) have been notified to the Authority together with supporting reasons, and the Authority has approved in advance the differences in charges or the circumstances in which different charges may be applied.

6 In the provision of Market Registration Services and Market Data Services, the Licensee shall not restrict, distort or prevent competition in the supply of electricity.

7 The Licensee shall be taken to have complied with its obligations under this Condition where it:

(a) prepares (and has approved by the Authority) Market Registration Arrangements in accordance with Condition 21;

(b) complies with its obligations under the Market Registration Arrangements from time to time;

(c) proposes (in accordance with Condition 21) such revisions to the Market Registration
Code as are necessary to ensure that the Market Registration Arrangements meet the requirements therefor set out in Condition 21; and

(d) complies with its obligations under paragraphs 4 and 5 of this Condition.

8 In this Condition, unless the context otherwise requires:

“meter point” includes, in the case of unmetered relevant premises, a meter point for a group of unmetered relevant premises.

“relevant fieldwork” means activities of the Licensee relating to a meter point at relevant premises that require the Licensee to perform work at the meter board and which may be requested by a relevant licensed supplier, comprising:

(a) special meter reads for meter points with non-half hourly metering equipment;

(b) installation, reconfiguration, repair, maintenance, inspection and testing, re-programming, removal and replacement of the electricity meter; and/or

(c) de-energisation or re-energisation of the meter point.

“settlement” includes under the Single Electricity Market Trading and Settlement Code, and the collection of levies, charges and fees generally applicable to participants or classes of participants in the Single Electricity Market.

“unmetered premises” means relevant premises with a supply that is not a permanently metered supply.
**Condition 21. Market Registration Arrangements**

1. The Licensee shall establish or procure the establishment of market registration arrangements calculated to facilitate the achievement of the “relevant objective”. For the purposes of this Condition, the relevant objective is to provide for the terms on which relevant licensed suppliers are provided with and participate in the Market Registration Service and the Market Data Services and, where the Licensee is appointed as a Meter Data Provider under the Single Electricity Market Trading and Settlement Code, to facilitate the fulfilment by the Licensee of its obligations as an appointed Meter Data Provider.

2. The Licensee shall, in connection with the establishment of the arrangements referred to in paragraph 1, prepare a Market Registration Code and a Market Registration Framework Agreement, each of which shall be furnished to the Authority for its approval.

3. The Market Registration Code shall include provisions for the:

   (a) testing and review of the systems and processes of relevant licensed suppliers with a view to certifying, re-certifying and withdrawing certification of eligibility to participate in the market registration arrangements;

   (b) grant and withdrawal of dispensations from one or more of the requirements relating to systems and processes referred to in paragraph (a) above;

   (c) terms for the provision of the Market Registration Service and the Market Data Service in compliance with paragraph 6 of Condition 20;

   (d) procedures and practices to be followed by relevant licensed suppliers in relation to the matters referred to in paragraphs (a) and (b) above, the Market Registration Service and the Market Data Service;

   (e) calculation and payment of charges for participation in the market registration arrangements;

   (f) arrangements for the variation of specified parts of the Market Registration Code following consultation with the Licensee and all relevant licensed suppliers and in compliance with paragraphs 8 to 11 (inclusive);

   (g) referral to the Authority for determination of such matters arising under the market registration arrangements as may be specified therein.

4. The Market Registration Framework Agreement shall:

   (a) require compliance with the Market Registration Code; and
(b) provide for the accession of new parties to the Market Registration Framework Agreement from time to time, and the means by which those parties can subsequently withdraw from the Market Registration Framework Agreement.

5 On application made by any relevant licensed supplier, or any person that has applied for a supply licence under Article 10 of the Order, the Licensee shall, as soon as practicable and (save where the Authority consents to a longer period) in any event not later than 14 days after receipt by the Licensee of the duly completed application, offer to enter into an agreement by which the applicant accedes to the Market Registration Framework Agreement in the form then approved by the Authority.

6 The Licensee shall not be obliged pursuant to this Condition to offer to enter or to enter into any agreement:

(a) if to do so would involve the Licensee:

(i) in breach of its duties under Article 12 of the Order; or

(ii) in breach of any regulations made under Article 32 of the Order, or any other enactment relating to safety or standards applicable in respect of the Distribution Business; or

(iii) in breach of the Conditions of this Licence; or

(iv) in breach of the Distribution Code; or

(b) if the person making the application does not undertake to be bound by such parts of the Distribution Code and of the Grid Code as the Authority shall from time to time specify in directions issued to the Licensee for the purposes of this Condition.

7 The Licensee shall not enter into any agreements or arrangements for the purposes of the relevant objective, except in conformity with the approved Market Registration Code and Market Registration Framework Agreement.

8 The Licensee shall, in consultation with any relevant licensed supplier liable to be materially affected thereby and such other persons as the Authority shall consider appropriate, review the Market Registration Code and its implementation:

(a) as the Licensee considers appropriate;

(b) upon receipt of a request for such a review made in accordance with the Market Registration Code; or

(c) at the request of the Authority.
Following such review, the Licensee shall send to the Authority:

(a) a report on the outcome of the review;

(b) any revisions which it is proposed to make to the Market Registration Code (having regard to the outcome of the review); and

(c) any written representations or objections from relevant licensed suppliers (including any proposals by such operators for revisions to the Market Registration Code not accepted by the Licensee in the course of the review) arising during the consultation process and subsequently maintained.

Revisions to the Market Registration Code:

(a) proposed by the Licensee and sent to the Authority pursuant to paragraph 9; or

(b) proposed under any arrangements for the variation of specified parts of the Market Registration Code contained in the Market Registration Code,

shall in each case not take effect unless they have been approved by the Authority.

The Authority may, following such further consultation (if any) as the Authority may consider appropriate and having regard to any written representation or objection referred to in paragraph 9(c), issue directions requiring the Licensee to revise the Market Registration Code as may be specified in the directions and the Licensee shall forthwith comply with any such directions.

Where it appears to the Licensee that there has been or there is going to be a revision of the Market Registration Code under paragraph 11 which has had or is likely to have a material effect on the financial position of the Licensee, the Licensee may require the Authority to determine whether the revision to the Market Registration Code has had or is likely to have such an effect and if so what charge, if any, the Licensee can make under the Market Registration Code to ensure that the financial position and performance of the Licensee is likely, so far as reasonably practicable, to be the same as if the relevant revision had not taken place.

The Licensee will also (subject to paragraph 14) give or send a copy of the Market Registration Framework Agreement and the Market Registration Code to any person requesting the same.

The Licensee may make a charge for any copy given or sent pursuant to paragraph 13 of any amount reflecting the Licensee's reasonable costs of the documents which will not exceed any amount specified for the time being for the purposes of this Condition in directions
issued from time to time by the Authority.
Condition 22. Requirement to Offer Terms for Connection to and Use of Distribution System

Offer of terms for use of Distribution System

1 On application made by any person, the Licensee shall (subject to paragraph 5) offer to enter into an agreement for use of system:

(a) to accept into the Distribution System at such entry point or points and in such quantities as may be specified in the application, electricity to be provided by or on behalf of such person; and

(b) to deliver such quantities of electricity as are referred to in sub-paragraph (a) above (less any distribution losses) to such exit point or points on the Distribution System and to such person or persons as may be specified in the application; and

(c) specifying the use of system charges to be paid by the person seeking use of system, such charges (unless manifestly inappropriate) to be referable to the statement prepared in accordance with paragraph 1 (or, as the case may be, paragraph 8) of Condition 24 or any revision thereof and to be in conformity with the requirements of paragraph 3 of that Condition; and

(d) containing such further terms as are or may be appropriate for the purposes of the agreement.

In this paragraph references to “any person” shall be construed as references to any authorised electricity operator or person who shall have applied for a licence under Article 10 of the Order and whose application has not been withdrawn or rejected.

Offer of terms for connection to the Distribution System

2 On application made by any person the Licensee shall (subject to paragraph 5) offer to enter into an agreement for connection to the Distribution System or for modification to an existing connection, and such offer shall make detailed provision regarding:

(a) the carrying out of works (if any) required to connect the Distribution System to any other system for the transmission or distribution of electricity and for the obtaining of any consents necessary for such purposes;

(b) the carrying out of works (if any) in connection with the extension or reinforcement of the Distribution System rendered necessary or appropriate by reason of making the connection or modification to an existing connection and for the obtaining of any consents necessary for such purposes;

(c) the installation of appropriate meters (if any) required to enable the Licensee to
measure electricity being accepted into the Distribution System at the specified entry point or points or leaving such system at the specified exit point or points;

(d) the installation of such switchgear or other apparatus (if any) as may be required for the interruption of supply;

(e) the date by which any works required so as to permit access to the Distribution System (including for this purpose any works to reinforce or extend the Distribution System) shall be completed and so that, unless otherwise agreed by the person making the application, a failure to complete such works by such date shall be a material breach of the agreement entitling the person to rescind the agreement;

(f) the connection charges to be paid to the Licensee, such charges (unless manifestly inappropriate):

(i) to be presented in such a way as to be referable to the statements prepared in accordance with paragraph 1 (or, as the case may be, paragraph 8) of Condition 24 or any revision thereof; and

(ii) to be set in conformity with the requirements of paragraph 5 of Condition 24 and (where relevant) of paragraph 4;

(g) the installation of special metering, telemetry or data processing equipment (if any) for the purpose of enabling any person who is bound to comply with the Distribution Code to comply with its obligations in respect to metering thereunder or the performance by the Licensee of any service in relation to such metering thereunder; and

(h) such further matters as are or may be appropriate for the purposes of the agreement.

3 For the purpose of determining an appropriate proportion of the costs directly or indirectly incurred in carrying out works (or in relation to any of the other matters referred to in sub-paragraph (a) of paragraph 5 of Condition 24) under an agreement for making a connection or modification to an existing connection the Licensee shall have regard to:

(a) the benefit (if any) to be obtained or likely in the future to be obtained by the Licensee or any other person as a result of the carrying out of such works (or of such other matters) whether by reason of the reinforcement or extension of the Distribution System or the provision of additional entry or exit points on such system or otherwise; and

(b) the ability or likely future ability of the Licensee to recoup a proportion of such
costs from third parties.

**Offer of terms - general**

4 The Licensee shall offer terms for agreements in accordance with paragraphs 1 and 2 as soon as practicable and (save where the Authority consents to a longer period) in any event not more than the period specified in paragraph 6 after receipt by the Licensee of an application containing all such information as the Licensee may reasonably require for the purpose of formulating the terms of the offer.

5 The Licensee shall not be obliged pursuant to this Condition to offer to enter or to enter into any agreement:

   (a) if to do so would involve the Licensee:

      (i) in breach of its duties under Article 12 of the Order; or

      (ii) in breach of any regulations made under Article 32 of the Order or of any other enactment relating to safety or standards applicable in respect of the Distribution Business; or

      (iii) in breach of the Distribution Code; or

   (b) if the person making the application does not undertake to be bound by such parts of the Distribution Code and to such extent as the Authority shall from time to time specify in directions issued to the Licensee for the purposes of this Condition.

6 For the purpose of paragraph 4, the period specified shall be:

   (a) in the case of persons seeking use of system only, 28 days; and

   (b) in the case of persons seeking connection or modification to an existing connection or seeking use of system in conjunction with connection, 3 months.
**Condition 23. Functions of the Authority - Distribution Disputes**

1. If, after a period which appears to the Authority to be reasonable for the purpose, the Licensee has failed to enter into an agreement with any person entitled or claiming to be entitled thereto pursuant to a request under Condition 22, the Authority may, pursuant to Article 11(3)(c) of the Order and on the application of that person or the Licensee, settle any terms of the agreement in dispute between the Licensee and that person in such manner as appears to the Authority to be reasonable having (insofar as relevant) regard in particular to the following considerations:

   (a) that such person should pay to the Licensee:

      (i) in the case of provision of use of system, the use of system charges determined in accordance with paragraph 4 of Condition 24;

      (ii) in the case of provision of a connection, or a modification to an existing connection, to the Distribution System, the whole or an appropriate proportion (as determined in accordance with paragraph 3 of Condition 22) of the costs referred to in sub-paragraph (a) of paragraph 6 of Condition 24, together with a reasonable rate of return on the capital represented by such costs;

   (b) that the performance by the Licensee of its obligations under the agreement should not involve the Licensee in a breach such as is referred to in paragraph 5 of Condition 22;

   (c) that any methods by which the Distribution System is connected to any other system for the transmission or distribution of electricity accord (insofar as applicable to the Licensee) with the Grid Code and with the Distribution Code; and

   (d) that the terms and conditions of the agreement so settled by the Authority and of any other agreements entered into by the Licensee pursuant to an application under Condition 22 should be, so far as circumstances allow, in as similar a form as is practicable.

2. If the person wishes to proceed on the basis of the agreement as settled by the Authority, the Licensee shall forthwith enter into and implement such agreement in accordance with its terms.

3. If either party to an agreement for connection to the Distribution System, or for use of the Distribution System, entered into pursuant to Condition 22 or this Condition proposes to vary the contractual terms of such agreement in any manner provided for under such agreement, the Authority may, at the request of the Licensee or other party to such
agreement, settle any dispute relating to such variation in such manner as appears to the Authority to be reasonable.
Condition 24. Basis of Charges for Use of and Connection to the Distribution System

Preparation of statements on basis of charging

1 The Licensee shall, as soon as practicable after this Condition comes into effect (and, in any event, not later than such date as the Authority shall specify in directions issued to the Licensee for the purposes of this Condition), prepare a statement approved by the Authority setting out the basis upon which charges will be made, as part of the Distribution Business, for:

(a) use of the Distribution System;
(b) connection to the Distribution System; and
(c) any other matters for which the Licensee (with the approval of the Authority) levies charges.

2 The Licensee shall, where it is responsible for the balancing of the Distribution System and provides and levies charges for the provision of balancing services, prepare a statement approved by the Authority setting out the basis upon which charges will be made for such balancing services and/or for energy imbalances.

3 The statements referred to in paragraph 1 shall be in such form and to contain such detail as shall be necessary to enable any person to make a reasonable estimate of the charges to which it would become liable for the provision of such services, and (without prejudice to the foregoing) including such of the information set out in paragraphs 4 and 5 as is required by such paragraphs to be included in the statement.

Use of the Distribution System

4 Except to the extent that the Authority shall otherwise specify, the statement referred to in paragraph 1 shall in respect of use of system include:

(a) a schedule of charges for transport of electricity under use of system;
(b) a schedule of adjustment factors to be made (where appropriate) in respect of distribution losses;
(c) the methods by which and the principles on which charges (if any) for availability of distribution capacity on the Distribution System will be made;
(d) a schedule of charges in respect of meter reading, accounting and administrative charges;

(e) a schedule of the charges (if any) which may be made for the provision and installation of any meters or electrical plant at entry or exit points, the provision and installation of which is ancillary to the grant of use of system, and for the maintenance of meters or electrical plant; and

(f) such other matters as shall be specified in directions issued by the Authority from time to time for the purposes of this Condition.

Connection to the Distribution System

5 The statement referred to in paragraph 1 shall in respect of connections to the Distribution System include:

(a) a schedule listing those items (including the carrying out of works and the provision and installation of electric lines or electrical plant or meters) of significant cost liable to be required for the purpose of connection (at entry or exit points) to the Distribution System for which connection charges may be made or levied and including (where practicable) indicative charges for each such item and (in other cases) an explanation of the methods by which and the principles on which such charges will be calculated;

(b) the methods by which and the principles on which any charges will be made in respect of extension or reinforcement of the Distribution System rendered necessary or appropriate by virtue of providing connection to or use of system to any person seeking connection;

(c) the methods by which and the principles on which connection charges will be made in circumstances where the electric lines or electrical plant to be installed are of greater size or capacity than that required for use of the Distribution System by the person seeking connection;

(d) the methods by which and the principles on which any charges (including any capitalised charge) will be made for maintenance and repair required of electric lines, electrical plant or meters provided and installed for making a connection to the Distribution System;

(e) the methods by which and the principles on which any charges will be made for the provision of special metering or telemetry or data processing equipment by the Licensee for the purposes of enabling any person which is bound to comply with the Distribution Code to comply with its obligations in respect of metering thereunder, or for the performance by the Licensee of any service in relation thereto;

(f) the methods by which and principles on which any charges will be made for
disconnection from the Distribution System and the removal of electrical plant, electric lines and ancillary meters following disconnection; and

(g) such other matters as shall be specified in directions issued by the Authority from time to time for the purposes of this Condition.

6 Connection charges for those items referred to in paragraph 5 shall be set at a level which will enable the Licensee to recover:

(a) the appropriate proportion of the costs directly or indirectly incurred in carrying out any works, the extension or reinforcement of the Distribution System and the provision and installation, maintenance and repair and, following disconnection, removal of any electric lines, electrical plant, meters, special metering, telemetry, data processing equipment or other items; and

(b) a reasonable rate of return on the capital represented by such costs.

Preparation of statement on distribution system capacity

7 If so requested and subject to paragraphs 8 and 14, the Licensee shall, as soon as practicable and in any event within 28 days (or where the Authority so approves such longer period as the Licensee may reasonably require having regard to the nature and complexity of the request) after the date referred to in paragraph 15, give or send to any person making such request a statement showing present and future circuit capacity, forecast power flows and loading on the part or parts of the Distribution System specified in the request and containing:

(a) such further information as shall be reasonably necessary to enable such person to identify and evaluate the opportunities available when connecting to and making use of the part or parts of the Distribution System specified in the request; and

(b) if so requested, a commentary prepared by the Licensee indicating its view as to the suitability of the part or parts of the Distribution System specified in the request for new connections and transport of further quantities of electricity;

provided that the Authority may, upon application of the Licensee, relieve the Licensee from the obligation to prepare any such statement in respect of any period and any part or parts of the Distribution System specified in directions issued to the Licensee by the Authority from time to time for the purposes of this Condition.

8 Except as provided in sub-paragraphs (a) and (b) below, the Licensee shall include in every statement prepared or (as the case may be) given or sent under paragraph 7 the information required by such paragraph:
(a) the Licensee may with the prior consent of the Authority omit from any such statement any details as to circuit capacity, power flows, loading or other information, disclosure of which would, in the view of the Authority, seriously and prejudicially affect the commercial interests of the Licensee or any third party.

(b) the Licensee may omit from any statement given or sent under paragraph 7 any information the disclosure of which would place the Licensee in breach of Condition 9.

Preparation of new statements, circulation and charging

9 In addition to, and without prejudice to, the Licensee’s obligations under paragraphs 1 and 2, the Licensee shall, upon being directed to do so in directions issued by the Authority from time to time for the purposes of this Condition and within such period as shall be specified in the directions, prepare a statement or statements approved by the Authority providing that charges for use of the Distribution System, for connection to the Distribution System and/or for the provision of any balancing services provided by the Licensee will be made on such basis as shall be specified in the directions and such statement or statements shall be in such form and contain such detail as shall be necessary to enable any person to make a reasonable estimate of the charges to which it would become liable for the provision of such services and (without prejudice to the foregoing) including such information as shall be specified in the directions. Each statement prepared in accordance with this paragraph shall, with effect from the date on which it is approved by the Authority or such later date as the Authority shall specify, replace the corresponding statement prepared by the Licensee in accordance with paragraph 1, 2 or, as the case may be, this paragraph (as from time to time revised in accordance with paragraph 10) which is in force at such date and the Licensee shall, with effect from such date make charges in accordance with the statement (as from time to time revised in accordance with paragraph 10) which has replaced such corresponding statement.

10 The Licensee may periodically revise the information set out in and, with the approval of the Authority, alter the form of the statements prepared in accordance with paragraphs 1, 2 and 9 and shall, at least once in every year this Licence is in force, revise such statements in order that the information set out in the statements shall continue to be accurate in all material respects.

11 The Licensee shall send a copy of the statements prepared in accordance with paragraphs 1, 2 and 9 and of each revision of such statements in accordance with paragraph 10 to the Authority. Each such revision shall require to be approved by the Authority and shall not become effective until approved by the Authority.

12 The Licensee shall give or send a copy of the statements prepared in accordance with
paragraphs 1, 2 and 9 or (as the case may be) of the latest revision of such statements in accordance with paragraph 10 approved by the Authority pursuant to such paragraph to any person who requests a copy of such statement or statements.

13 The Licensee may make a charge for any statement given or sent pursuant to paragraph 12 of an amount reflecting the Licensee’s reasonable costs of providing such a statement which shall not exceed the maximum amount specified in directions issued by the Authority from time to time for the purposes of this Condition.

14 The Licensee may within 10 days after receipt of the request provide an estimate of its reasonable costs in the preparation of any statement referred to in paragraph 7, and its obligation to provide such statement shall be conditional on the person requesting such statement agreeing to pay the amount estimated or such other amount as the Authority may, upon the application of the Licensee or the person requesting such statement, direct.

15 For the purposes of paragraph 7, the date referred to shall be the later of:

(a) the date of receipt of the request referred to in paragraph 7; or

(b) the date on which the Licensee receives agreement from the person making the request to pay the amount estimated or on which an amount is determined by the Authority (as the case may be) under paragraph 14.

Non-discrimination

16 The Licensee shall make charges to all relevant suppliers for the provision of use of the Distribution System which are such as to secure that the element for use of the Distribution System in the amounts payable for supplies of electricity by customers of relevant electricity undertakings whose maximum monthly demand in the 3 months of the highest maximum demand on the Distribution System in each period of 12 consecutive months does not exceed 1 MW, shall be the same in that period, irrespective of where such customers are located or reside.

17 The Licensee shall not, in setting its charges for use of system or connection, restrict, distort or prevent competition in the generation, transmission, distribution or supply of electricity.
Condition 25. Standards of performance

1 The Licensee shall conduct the Distribution Business in the manner which it reasonably considers to be best calculated to achieve any standards of overall performance that may be determined by the Authority pursuant to Article 43A of the Order.

2. The Licensee may not be required by the Authority to furnish it under this Condition with information for the purpose of the exercise of its functions under Article 7 of the Energy Order.

3. The Licensee may not be required by the Authority to furnish it under this Condition with any information in relation to an enforcement matter which the Licensee could not be compelled to produce or give in evidence in civil proceedings in the High Court.

4. In paragraphs 2 and 3, “information” shall include any documents, accounts, estimates, returns or reports (whether or not prepared specifically at the request of the Authority) of any description specified by the Authority.
Condition 27. Provision of services for persons who are of pensionable age or disabled

Vulnerable Persons

1. The Licensee shall, by no later than [2 months?] after this Condition takes effect (or such later date as the Authority may direct), prepare and submit to the Authority a Code of Practice describing the special services available, and any charges made or to be made, to such persons who are of State pensionable age, disabled, blind or deaf.

Pensionable age or Disabled

2. The Code of Practice shall set out the Licensee’s arrangements for persons occupying domestic premises who are of State pensionable age or disabled, by which special services in the following respects can be made available where appropriate:

   (b) providing special means of identifying officers authorised by the Licensee.

3. The arrangements included in the Code of Practice shall, in the case of a person occupying domestic premises who:

provided that the Licensee shall not, whether at the request of an Electricity Supplier or otherwise, in those circumstances cut off the supply of electricity to those premises during any winter period, that is to say, a period beginning with 1 October in any year and ending with 31 March in the next following year.

Blind/Deaf

4. The Code of Practice shall set out the Licensee’s arrangements for the provision, on request and free of charge, in relation to persons occupying domestic premises who, to the knowledge or reasonable belief of the Licensee:

   (a) are blind or partially sighted, of details of the arrangements for making enquiries or complaints about the services provided by the Licensee and relating to them, by
telephone or other appropriate means; or

(b) are deaf or partially hearing, of details of facilities to assist them (if they have the equipment enabling them to take advantage thereof) when making enquiries or complaints about the services provided by the Licensee and relating to them.

5 The Licensee shall comply with the requirements set out in Condition 29, as if they were set out in this Condition.

6 “Code of Practice” in this Condition means the Code of Practice from time to time in force which is required to be prepared pursuant to this Condition, in relation to the provision of services for persons described in paragraph 1.
