[Amended] Condition 27: Terms and Conditions of Electricity Supply Contracts

1 The Licensee shall ensure that any Contract it enters, or offers to enter, into with a Customer for a supply of electricity contains provisions which are in clear and comprehensible language and which incorporate all relevant information so as to enable the Customer to understand the terms and conditions under which the supply of electricity is, or is to be, made.

2 The Licensee shall ensure that the terms and conditions of any Contract it enters into with a Customer for a supply of electricity provide:

   (a) that the Contract will terminate automatically from the date that a Last Resort Supply Direction, given to another Electricity Supplier, takes effect in relation to the premises supplied under that Contract;

   (b) that the Licensee will, where the premises is at the date of the Contract connected to an electricity distribution system, start supplying electricity under the Contract by no later than 15 working days after the Relevant Date, unless:

      (i) the Customer requests that the supply starts from a later date; or

      (ii) the Registered Supplier for the premises objects to the Supplier Transfer; or

      (iii) there are other circumstances beyond the Licensee’s control which prevent it from starting to supply by that date.

3 The Licensee shall not enter, or offer to enter, into a Contract, for the supply of electricity to premises, which contains a term that requires or has the effect of requiring the Customer to:

   (a) obtain a supply of electricity to the same premises from another Electricity Supplier from a date and for such period as may be specified (whether in the Contract or otherwise) by the Licensee; and

   (b) immediately following the expiry of that specified period, recommence taking a supply of electricity at the premises from the Licensee.

4 Before entering into or concluding a Contract with any Domestic Customer, the Licensee shall:

   (a) explain to and draw to the attention of the Domestic Customer, the Principal Terms of the Contract; and

   (b) give the Customer:

      (i) a copy of the most up-to-date version of the Consumer Checklist; and

      (ii) a written copy of the full terms and conditions of the Contract, including without
limitation all the information referred to in paragraph 7.

5 The Licensee:

(a) shall determine standard terms and conditions for the supply of electricity to Domestic Customers;

(b) may determine different standard terms and conditions for different cases or classes of case or for different areas;

(c) shall ensure that each set of standard terms and conditions it determines includes all of the terms and conditions that will apply to any Contract entered into with a Domestic Customer on that set of standard terms and conditions;

(d) shall not determine standard terms and conditions which impose an obligation on the Domestic Customer to pay a termination fee, unless any such obligation has been approved in advance by the Authority;

(e) shall ensure that an up to date copy of each set of standard terms and conditions that it has determined is published on and accessible from its web-site;

(f) shall not enter, or offer to enter, into a Contract for the supply of electricity with a Domestic Customer otherwise than on a set of standard terms and conditions as determined in accordance with this paragraph 5.

6 The Licensee shall for any different case, class of case or area in respect of which it has determined standard terms and conditions, determine a set of standard terms and conditions:

(a) which provide for a Contract of an indefinite length; and

(b) in respect of which the terms as to price do not differ as between any Domestic Customers who may enter into that Contract (a standard evergreen tariff), provided that the Licensee may have a different standard evergreen tariff for each payment method offered by it.

7 The Licensee shall ensure that each set of standard terms and conditions it determines for Domestic Customers shall be fair (as between the Licensee and each Domestic Customer) and shall, as a minimum, include the following:

(a) the identity and address of the Licensee and any other appropriate contact details;

(b) the services to be provided, the service quality levels offered by the Licensee (which may be subject to the approval of the Authority pursuant to Condition 29) and the date for the commencement of the electricity supply under the Contract;
(c) the duration of the Contract, the terms and conditions for renewal and for termination of the Contract (which terms and conditions shall be compliant with the requirements of this Condition), the services provided under the Contract and the existence of any right of cancellation or termination of the Contract;

(d) (if offered by the Licensee) the types of maintenance service offered under the Contract;

(e) a right for the Customer to withdraw from and cancel the Contract:

(i) where a supply of electricity has at any time previously been taken at the premises, within ten working days of entering into the Contract; or

(ii) where a supply of electricity has not previously been taken at the premises, within ten working days of entering into the Contract, or any time up to ten working days prior to the premises being connected to a distribution system, whichever is the later;

(f) a right for the Customer to terminate the Contract where the Licensee proposes a variation to the terms and conditions of the Contract and the Customer does not wish to accept such new terms and conditions;

(g) the tariffs, charges and other payments applicable and required to be paid by the Customer, in a manner that enables the Customer to:

(i) identify the applicable tariff and the unit rate, in terms expressed as “pence per kWh”, of the applicable tariff;

(ii) identify any other charge or payment, including in particular:

(A) any applicable standing charge;

(B) any payment which is or has the effect of being a payment by way of security for the payment of charges for the supply of electricity;

(iii) where the applicable tariff is not a standard evergreen tariff (because the Contract is not of an indefinite length), compare the unit rate of the applicable tariff against the unit rate of the standard evergreen tariff that would apply if the relevant set of standard terms and conditions applied to a Contract of indefinite length;

(h) the means by which up to date information on all applicable tariffs, charges and other payments (including any discounts and promotions) for the supply of electricity and for any other services which are to be provided under the Contract:
(i) can be promptly obtained by the Customer; and

(ii) will be communicated to the Customer in writing by the Licensee;

(i) the compensation and the refund arrangements which will apply if contracted service quality levels, including service quality levels relating to the timing, frequency and accuracy of bills and statements, are not met (which arrangements may be subject to the approval of the Authority pursuant to Condition 29);

(j) details of how the Customer may initiate the Licensee’s complaint handling procedure (as established under Condition 33); and

(k) details of how the Customer can contact, and the relevant address and telephone number of, the General Consumer Council for further help and advice.

Where the Licensee proposes to vary any of the terms and conditions of a Contract it has with a Domestic Customer, it shall, by way of sending a notice that sets out the information in clear, transparent and easy to read and understand language, notify each such Domestic Customer of the proposed variation, together with the Customer’s right (as included in the Contract in accordance with paragraph 7(f)) to terminate the Contract before the proposed variation is due to take effect, at least 28 days in advance of the date the variation is due to take effect.

Where the Licensee enters into a Contract with a Domestic Customer which has a fixed term period:

(a) any such Contract may not include any term or condition which has the effect of:

(i) extending the length of that fixed term period; or

(ii) applying a consecutive fixed term period,

unless the Domestic Customer has the right to terminate the Contract at any time in the extended or consecutive fixed term period without payment of a termination fee; and

(b) the Licensee shall, by way of sending a notice, notify each such Domestic Customer of:

(i) the expiry date of the fixed term period at least 28 but no more than 42 days before that expiry date;

(ii) details of the standard evergreen tariff, including the applicable unit rate expressed as “pence per kWh”, that will apply under the Contract following the expiry date of the fixed term period.

The Licensee shall, on the request of a Domestic Customer and without charge, send to that Customer a copy of the then current set or sets of standard terms and conditions (as determined
in accordance with this Condition) that are applicable to the request (including, for the avoidance of doubt, the applicable charges and tariffs relating to each such set).

11 The Licensee shall ensure that its standard terms and conditions provide Domestic Customers with a choice of payment methods, including as a minimum making payment:

(a) in arrears (at such frequency as is set out in the terms and conditions);

(b) by direct debit (at such frequency as is set out in the terms and conditions); and

(c) in advance through a prepayment meter.

12 Any difference in or between the Licensee’s standard terms and conditions, including terms as to price, relating to the choice of payment methods shall be determined by the Licensee on a basis which reflects the costs to the Licensee of providing the different payment methods.

13 The Licensee shall not impose on, or request from, a Domestic Customer any charge or payment for the purpose of enabling that Customer to exercise or preventing him from exercising (as the case may be) his right to receive a supply of electricity from his Electricity Supplier of choice.

**Market Registration Service** means the service described in paragraph 2 of Condition 28 of the [Transmission Licence] granted to [Northern Ireland Electricity plc];

[Amended] Condition 28: Deemed Contracts

Note – This is a new condition for gas supply licensees and will be included in the gas supply licence by virtue of the provisions in the Energy (Northern Ireland) Act 2011.

1 The Licensee shall, in accordance with paragraph 3 of Schedule 6 to the Order, make a scheme for determining the terms and conditions of its Deemed Contracts.

2 The Licensee shall ensure that each of its Deemed Contracts provides that it will terminate automatically in the event that a Last Resort Supply Direction is given to another Electricity Supplier in relation to the premises supplied under that Deemed Contract.

[NB: Paragraph 2 not to be included in gas supply licence condition as no last resort supply provisions yet in place for gas.]

3 Subject to paragraph 4, the Licensee must take all reasonable steps to ensure that the terms of each of its Deemed Contracts are not unduly onerous.

4 For the purposes of paragraph 3, the terms of a Deemed Contract shall be unduly onerous for any class of Domestic Customers, or for any class of Non-Domestic Customers, only if the revenue derived from supplying electricity to the premises of the relevant class of customers on those terms:

(a) significantly exceeds the Licensee’s costs of supplying electricity to those premises; and

(b) exceeds such costs of supplying electricity by significantly more than the Licensee’s revenue exceeds its costs of supplying electricity to the premises of the generality of its Domestic Customers or, as the case may be, to the premises of the generality of its Non-Domestic Customers (in each case excluding from the calculation premises supplied under a Last Resort Supply Direction). [NB: Wording in brackets not in gas supply licence condition.]

5 Where a Customer is being supplied by the Licensee with electricity under a Deemed Contract as a result of a Last Resort Supply Direction being issued in relation to his premises, paragraph 2 shall not apply until that direction stops having effect.

[NB: Paragraph 5 not to be included in gas supply licence condition as no last resort supply provisions yet in place for gas.]

6 The Licensee shall ensure that each of its Deemed Contracts shall provide that, where a Customer intends his premises to be supplied with electricity under a Contract agreed with the Licensee or any other Electricity Supplier, the Deemed Contract will continue to have effect until the Licensee or the other Electricity Supplier, as appropriate, begins to supply electricity to the premises under such a Contract.
If the Licensee supplies electricity to a Customer under a Deemed Contract, the Licensee may not demand of the Customer any sum of money or other compensation (whether financial or otherwise) solely because the Deemed Contract is terminated (by whatever means).

If the Licensee supplies electricity to a Customer’s premises under a Deemed Contract, it must take all reasonable steps to:

(a) provide that Customer with a notice:
   (i) setting out the principal terms of the Deemed Contract (being all of those terms which may reasonably be considered significantly to affect the evaluation by the Customer of the Deemed Contract);
   (ii) informing the Customer that Contracts with terms and conditions that may be different from the terms and conditions of Deemed Contracts may be available from the Licensee and of how further information about such terms may be obtained; and

(b) enter into a Contract with the Customer as soon as reasonably practicable.

If any person requests a copy of a Deemed Contract that the Licensee has available, the Licensee must provide it to that person within a reasonable period of time after receiving the request.

In determining the number of kilowatt hours of electricity that are to be treated as supplied to or taken at premises under a Deemed Contract, the Licensee must act reasonably and take into account available electricity consumption data for the premises and any other relevant factor.

   (g) calibrate any prepayment meter provided, whether in accordance with paragraph (f) above or otherwise, so as to take into account Customers’ ability to pay any outstanding charges due from them to the Licensee in addition to the other charges lawfully being recovered through the prepayment meter;

   (h) ensure that any calibration of the prepayment meter to recover outstanding charges due from Customers does not operate so as to recover more than 40% from each amount that is purchased by the Customer in any single transaction (and thereby transferred to the token, key or card by which the prepayment meter is operated), as payment of or towards the outstanding charges; and
in so far as is reasonable and practicable to do so, take all reasonable steps to avoid cutting off the supply of electricity to Domestic Premises occupied by Customers in difficulties unless it has first taken all reasonable steps to recover the charges accrued for the supply of electricity to the premises by means of a prepayment meter.

gas fittings on the Customer's side of the meter to be undertaken by a person possessing appropriate expertise on at least an annual basis, other than an appliance for which the landlord of the consumer is responsible for the annual inspection in accordance with the Gas Safety (Installation and Use) Regulations (Northern Ireland) 2004.]
