2 The Licensee shall submit a certificate addressed to the Authority, approved by a resolution of the Board of Directors of the Licensee and signed by a director of the Licensee pursuant to that resolution. Such certificate shall be submitted on 30 September 1999 and thereafter on 30 September of each subsequent year. Each certificate shall be in one of the following forms:

(a) “After making enquiries, the directors of the Licensee have a reasonable expectation that the Licensee will have available to it, after taking into account in particular (but without limitation) any dividend or other distribution which might reasonably be expected to be declared or paid, sufficient resources including management and financial resources, personnel, fixed and moveable assets, rights, licences, consents and facilities to enable the Licensee to carry on the Transmission Owner Business for a period of 12 months from the date of this certificate.”

(b) “After making enquiries, the directors of the Licensee have a reasonable expectation, subject to the Terms of this certificate, that the Licensee will have available to it, after taking into account in particular (but without limitation) any dividend or other distribution which might reasonably be expected to be declared or paid, sufficient resources including management and financial resources, personnel, fixed and moveable assets, rights, licences, consents and facilities to enable the Licensee to carry on the Transmission Owner Business for a period of 12 months from the date of this certificate. However, they would like to draw attention to the following factors which may cast doubt on the ability of the Licensee to carry on the Transmission Owner Business.”

(c) “In the opinion of the directors of the Licensee, the Licensee will not have available to it sufficient resources including management and financial resources, personnel,
fixed and moveable assets, rights, licences, consents, and facilities to enable the Licensee to carry on the Transmission Owner Business for a period of 12 months from the date of this certificate.”

3 The Licensee shall submit to the Authority together with the certificate referred to in paragraph 2 of this condition a statement of the main factors which the directors of the Licensee have taken into account in giving that certificate, together with copies of the key documents and information taken into account by the directors of the Licensee in deciding upon the main factors and in giving the certificate.

4 The Licensee shall inform the Authority in writing immediately if the directors of the Licensee become aware of any circumstances which cause them no longer to have the reasonable expectation expressed in the then most recent certificate given under paragraph 2.

5 The Licensee shall use its best endeavours to obtain and submit to the Authority with each certificate provided for in paragraph 2 a report prepared by the Auditors and addressed to the Authority stating whether or not the Auditors are aware of any inconsistencies between, on the one hand, that certificate and the statement submitted with it and, on the other hand, any information which they obtained during their audit work.

Undertaking of ultimate controller

6 The Licensee shall procure from each company or other person which the Licensee knows or reasonably should know is at any time an ultimate controller of the Licensee a legally enforceable undertaking in favour of the Licensee in a form specified by the Authority that the ultimate controller will refrain from any action, and will procure that every subsidiary of the ultimate controller (other than the Licensee and its subsidiaries) will refrain from any action, which would then be likely to cause the Licensee to breach any of its obligations under the Order, the Energy Order, the SEM Order or the Licence. Such undertaking shall be obtained within 7 days after the date when these modifications first become effective, or after the person in question becomes an ultimate controller (as the case may be) and shall remain in force for as long as the Licensee remains the holder of this Licence and the giver of the undertaking remains an ultimate controller of the Licensee.

7 The Licensee shall:

(a) deliver to the Authority evidence (including a copy of each such undertaking) that the Licensee has complied with the obligation to procure undertakings pursuant to paragraph 6;
(b) inform the Authority immediately in writing if the directors of the Licensee become aware that the undertaking has ceased to be legally enforceable or that its terms have been breached; and

(c) comply with any direction from the Authority to enforce any such undertaking.

8 The Licensee shall not, save with the written consent of the Authority, enter (directly or indirectly) into any agreement or arrangement with an ultimate controller of the Licensee or any of its subsidiaries (other than subsidiaries of the Licensee) at a time when:

(a) an undertaking complying with paragraph 6 is not in place in relation to that ultimate controller; or

(b) there is an unremedied breach of such undertaking; or

(c) the Licensee is in breach of the terms of any direction issued by the Authority under paragraph 7.

9 In this Condition 3, unless the context otherwise required, “ultimate controller” means:

(a) any holding company of the Licensee, which is not itself a subsidiary of another company; and/or

(b) any person who (whether alone or with a person or persons connected with him) is in a position to control, or to exercise influence over, the policy of the Licensee, or any holding company of the Licensee, by virtue of:

(i) rights under contractual arrangement to which he is a party or of which his is a beneficiary;

(ii) rights of ownership (including rights attached to or deriving from securities or rights under a trust) which are held by him or of which he is a beneficiary,

but shall exclude any director or employee of a corporate body in his capacity as such and any minister, ministry, department, agency, authority, official or statutory person,

and a person shall be considered to be connected with another person if he is a party to any arrangement regarding the exercise of any such right as are described in paragraph (b) above.
Condition 3A. Board Independence and Contractual Arrangements for Directors and Executive Officers

1 Within one year from the date upon which this Condition becomes effective, and at all times thereafter, the Licensee shall:

(a) ensure that its board of directors comprises a majority of independent non-executive directors who are persons of standing who individually possess:

(i) relevant experience and knowledge of the energy industry; or

(ii) relevant experience and knowledge of any other regulated industry; or

(iii) substantial private sector commercial or financial experience gained at board level (or equivalent) in another organisation of comparable size and standing to the Licensee,

provided that at least one independent non-executive director must possess relevant experience and knowledge of the energy industry; and

(b) demonstrate to the satisfaction of the Authority, prior to any appointment from time to time of a board director, that the said appointment will not cause the Licensee to enter into any breach of the requirements contained in sub-paragraph (a).

2 If at any time the Licensee, by virtue of any person being appointed as, or ceasing to be, a director of the Licensee (for the purposes of this Condition, an "Event"), is unable to comply with the requirements of paragraph 1, the Licensee shall take such steps as are necessary to ensure that compliance is achieved as soon as reasonably practicable after that Event and in any case within two months (or such longer period as may be agreed by the Authority) of that Event.

3 The Licensee shall ensure that:

(a) no person acts as or undertakes the role of a director or executive officer of the Licensee (or the Relevant Subsidiary) unless and until that person is appointed and/or employed (as the case may) pursuant to contractual arrangements made directly with the Licensee (or, as the case may be, the Relevant Subsidiary); and

(b) the terms and conditions pursuant to which any person is appointed and/or employed as a director or executive officer of the Licensee (or, as the case may be, the Relevant Subsidiary) do not confer any benefit, right, or entitlement for that
person which is (whether directly, indirectly, expressly or impliedly) linked to, dependant on, or arises from any current, past or future appointment or employment with any affiliate or related undertaking of the Licensee (or, as the case may be, of the Relevant Subsidiary).

In this Condition:

“executive officer” includes (i) any person holding the position of chief executive officer, chief financial officer, chief operating officer, and general counsel (or any equivalent of these positions), and (ii) any person not already captured in (i) discharging executive duties.

“executive duties” means duties (including day-to-day management responsibility) delegated by the board of directors of the Licensee (or as the case may be the Relevant Subsidiary) to senior management.

“independent non-executive director” means a person who has not been employed by the Licensee, its ultimate controllers or any affiliate or related undertaking of the Licensee within the last five years; and who does not have a material business relationship with the Licensee, its ultimate controllers or any affiliate or related undertaking of the Licensee.

“ultimate controller” has the meaning given to that expression in Condition 3.
Condition 4. Restriction on Dividends

1 The directors of the Licensee shall not declare or recommend a dividend, and the Licensee shall not make any other form of distribution within the meaning of section 263 of the Companies Act 2006, or redeem or repurchase any share capital of the Licensee, unless prior to the declaration, recommendation or making of the distribution (as the case may be) the Licensee has issued to the Authority a certificate in the following form:

“After making enquiries, the directors of the Licensee are satisfied:

(a) that the Licensee is in compliance in all material respects with all the obligations imposed on it by conditions 3, 5, 8, 9, 9A, 13 and 14 of the Licence; and

(b) that the making of a distribution of [amount] on [date] will not, either alone or when taken together with other circumstances reasonably foreseeable at the date of this certificate, cause the Licensee to be in breach to a material extent of any of those obligations in the future.”

2 The certificate given under paragraph 1 must be signed by a director of the Licensee and must have been approved by a resolution of the board of directors of the Licensee passed not more than 14 days before the date on which the declaration, recommendation or payment in question will be made.

3 Where the certificate given under paragraph 1 has been issued in respect of the declaration or recommendation of a dividend, the Licensee shall be under no obligation to issue a further certificate prior to payment of that dividend, provided that such payment is made within six months of the issuing of that certificate.
Condition 5. Prohibition of Cross-Subsidies

1. The Licensee shall procure that the Transmission Owner Business does not give any cross-subsidy to, or receive any cross-subsidy from, any other business of the Licensee or of an affiliate or related undertaking of the Licensee.

2. Nothing which the Licensee is obliged to do or not do pursuant to this Licence or any other document which grants a licence to the Licensee under the Order shall be regarded as a cross-subsidy for the purposes of this Condition.
Condition 6. Health and Safety of Employees

1 The Licensee shall:

(a) acting jointly and in co-operation with the holders of other licences granted under the Order, consider and discuss matters of mutual concern in respect of the health and safety of persons employed by them within the Transmission Owner Business;

(b) establish and maintain appropriate processes for consultation with representatives of the Licensee’s (and the Relevant Subsidiary’s) employees in respect of the health and safety of those employees.
Condition 7. Payment of Fees

1. The Licensee shall, at the times stated hereunder, pay to the Authority fees of the amount specified in or determined under the following paragraphs of this Condition.

2. In respect of each year beginning on 1 April, the Licensee shall pay to the Authority a fee which is the aggregate of the following amounts:

   (a) an amount equal to the proportion which the Authority shall determine of the amount estimated by the Authority, according to a method which has previously been disclosed in writing to the Licensee, as likely to be its costs during the year in question in the exercise of its functions under the Order, the Energy Order, the SEM Order, the Directive Regulations or the Internal Markets Regulations in relation to the holders of licences granted or having effect as granted under Article 10 of the Order, the functions relating to electricity assigned or transferred to it by or under any legislation;

   (b) an amount which is a proportion, as determined by the Authority, of the amount notified to the Authority by the Consumer Council and approved by the Department as being the Consumer Council’s estimate of its likely costs during the year in question in the exercise of the functions relating to electricity assigned to it by or under the Order, the Energy Order, the SEM Order, the Directive Regulations or the Internal Markets Regulations and any other such functions as it has been or may be required to exercise by the Authority, or, in the event that the Authority shall not have received such notification by 31 July in the year in question, an amount which is the relevant proportion of the Authority’s estimate of such likely costs (having regard to any estimate of such costs in any forward work programme published by the Consumer Council in respect of the year in question);

   (c) an amount which is a proportion as determined by the Authority of the amount estimated by the Authority (in consultation with the Competition Commission) as having been incurred in the calendar year immediately preceding the 1 April in question by the Competition Commission in connection with references made to it under Article 15 of the Order with respect to the Licence or any other licence granted or having effect as granted under Article 10(1)(b) of the Order; and

   (d) the difference (being a positive or negative amount), if any, between:

   (i) the amount of the fee paid by the Licensee in respect of the year immediately preceding the 1 April in question less any refund paid to the Licensee in respect of that year under paragraph 3 below; and
(ii) the amount which that fee would have been in respect of that year had:

(A) the amount comprised therein under sub-paragraph (a) above been calculated by reference to the total costs of the Authority in connection with its functions relating to electricity under the Order, the SEM Order, the Directive Regulations and the Internal Markets Regulations and its functions in relation to electricity under the Energy Order, and the proportion of those costs actually attributable to this Licence; and

(B) the amount comprised therein under sub-paragraph (b) above been calculated by reference to the relevant proportion of the total costs of the Consumer Council in connection with the functions referred to in sub-paragraph (b) above and, where appropriate, the proportion of those costs actually attributable to this Licence, such total costs being apportioned, in each case, as determined by the Authority according to a method previously disclosed in writing to the Licensee,

and the fee shall be paid by the Licensee to the Authority within one month of the Authority giving notice to the Licensee of its amount if that notice is given within 6 months of the beginning of the year in respect of which the fee is payable.

In respect of each year beginning on 1 April 1998, and in each subsequent year, the Authority may pay the Licensee an amount ("the refund") calculated in accordance with the method previously disclosed in writing to the Licensee and by reference to the difference between:

(a) the proportion of the fee for that year paid by the Licensee which is attributable to the Authority’s estimate in accordance with paragraph 2(a) and the estimate of the Consumer Council or the Authority (as appropriate) in accordance with paragraph 2(b); and

(b) the Authority’s reasonable revised estimate of those costs (taking account of any revised estimate of the costs referred to in paragraph 2(b) which is approved by the Department and notified to the Authority by the Consumer Council),

provided that any such refund shall be paid to the Licensee on or before 31 March in the year to which the licence fee relates.
Condition 8. Provision of Information to the Authority

1 Subject to paragraphs 6 and 7, the Licensee shall furnish to the Authority, in such manner and at such times as the Authority may require, such information and shall procure and furnish to it such reports, as the Authority may consider necessary in the light of the Conditions or any Schedule or as it may require for the purpose of performing any functions assigned or transferred to it by or under any legislation.

(a) the functions assigned to it by or under the Order, the Energy Order, the SEM Order, the Directive Regulations or the Internal Markets Regulations; and

(b) any functions transferred to it under the Order, the Energy Order, the SEM Order, the Directive Regulations or the Internal Markets Regulations.

2 The Licensee shall, within 7 days after the date when these modifications first become effective or after the person in question becomes an ultimate controller (as the case may be), procure from each person which the Licensee knows (or reasonably should know) is at any time an ultimate controller of the Licensee a legally enforceable undertaking in favour of the Licensee in a form specified by the Authority, which shall provide that that ultimate controller will give to the Licensee, and will procure that each subsidiary of that ultimate controller (other than the Licensee and its subsidiaries) will give to the Licensee, all such information as may be necessary to enable the Licensee to comply fully with paragraph 1 of this Condition. Such undertaking shall remain in force for as long as the Licensee remains the holder of this Licence and the giver of the undertaking remains an ultimate controller of the Licensee.

3 The Licensee shall:

(a) deliver to the Authority evidence (including a copy of each such undertaking) that the Licensee has complied with the obligation to procure any undertakings pursuant to paragraph 2;

(b) inform the Authority immediately in writing if the directors of the Licensee become aware that any such undertaking has ceased to be legally enforceable or that its terms have been breached; and

(c) comply with any direction from the Authority to enforce any such undertaking.

4 The Licensee shall not, save with the consent in writing of the Authority, enter (directly or indirectly) into any contract or arrangement with an ultimate controller of the Licensee or any of the subsidiaries of that ultimate controller (other than the subsidiaries of the Licensee) at a time when:
(a) an undertaking complying with paragraph 2 is not in place in respect of that ultimate controller; or

(b) there is an unremedied breach of such an undertaking; or

(c) the Licensee is in breach of the terms of any direction issued by the Authority under paragraph 3 in respect of such an undertaking.

5 Without prejudice to the generality of paragraph 1, the Authority may call for the furnishing of accounting information which is more extensive than or differs from that required to be prepared and supplied to the Authority under Condition 2.

6 The Licensee may not be required by the Authority to furnish it under this Condition with information for the purpose of the exercise of its functions under Article 7 of the Energy Order.

7 The Licensee may not be required by the Authority to furnish it under this Condition with any information in relation to an enforcement matter which the Licensee could not be compelled to produce or give in evidence in civil proceedings in the High Court.

8 The power of the Authority to call for information under paragraph 1 is in addition to the power of the Authority to call for information under or pursuant to any other Condition or any Schedule.

9 In this Condition:

“information” shall include any documents, accounts, estimates, returns or reports (whether or not prepared specifically at the request of the Authority) of any description specified by the Authority; and

“ultimate controller” means:

(a) any person which is a holding company of the Licensee, and which is not itself a subsidiary of another company; and/or

(b) any person who (whether alone or with a person or persons connected with him) is in a position to control, or to exercise significant influence over, the policy of the Licensee, or any holding company of the Licensee, by virtue of:

(i) rights under contractual arrangements to which he is a party or of which he is a beneficiary;

(ii) rights of ownership (including rights attached to or deriving from securities
or rights under a trust) which are held by him or of which he is a beneficiary,

but shall exclude any director or employee of a corporate body in his capacity as such and any minister, ministry, department, agency, authority, official or statutory person;

and a person shall be considered to be connected with another person if he is party to any arrangement regarding the exercise of any such rights as are described in paragraph (b) above.
Condition 9. Disposal of Relevant Assets and Indebtedness

Disposal of Relevant Assets

1. The Licensee shall not (and shall procure that the Relevant Subsidiary shall not) dispose of or relinquish operational control over any relevant asset otherwise than in accordance with the following paragraphs of this Condition.

2. Save as provided in paragraphs 3 and 4, the Licensee shall give to the Authority not less than 2 months’ prior written notice of its (or the Relevant Subsidiary’s) intention to dispose of or relinquish operational control over any relevant asset, together with such further information as the Authority may request relating to such asset or the circumstances of such intended disposal or relinquishment of control or to the intentions in regard thereto of the person proposing to acquire such asset or operational control over such asset.

3. Notwithstanding paragraphs 1 and 2, the Licensee (or, as the case may be, the Relevant Subsidiary) may relinquish operational control over the transmission system to the Transmission System Operator in accordance with the Transmission Interface Arrangements.

4. Notwithstanding paragraphs 1 and 2, the Licensee (or, as the case may be, the Relevant Subsidiary) may dispose of or relinquish operational control over any relevant asset:

   (a) where:

      (i) the Authority has issued directions for the purposes of this Condition containing a general consent (whether or not subject to conditions) to:

         (A) transactions of a specified description; and/or

         (B) the disposal of or relinquishment of operational control over relevant assets of a specified description; and

      (ii) the disposal or relinquishment of operational control in question is effected pursuant to a transaction of a description specified in the directions, or the relevant asset in question is of a description so specified, and the disposal or relinquishment of operational control is in accordance with any conditions to which the consent is subject; or

   (b) where the disposal or relinquishment of operational control in question is required by or under any enactment or by or under the transfer scheme.
Notwithstanding paragraph 1, the Licensee (or, as the case may be, the Relevant Subsidiary) may dispose of or relinquish operational control over any relevant asset specified in any notice given under paragraph 2 in circumstances where:

(a) subject to paragraph 8, the Authority confirms in writing that it consents to such disposal or relinquishment (which consent may be made subject to the acceptance by the Licensee or any third party in favour of whom the relevant asset is proposed to be disposed or operational control is proposed to be relinquished of such conditions as the Authority may specify); or

(b) the Authority does not inform the Licensee in writing of any objection to such disposal or relinquishment of control within the notice period referred to in paragraph 2.

Indebtedness

Without prejudice to paragraphs 1 to 5, the Licensee shall not (except where permitted by a provision in the successor distribution licence), and shall procure that the Relevant Subsidiary shall not, after the date when these modifications became effective, without the written consent of the Authority after disclosure of all material facts by the Licensee to the Authority:

(a) create, or permit to remain in effect, any mortgage, charge, pledge, lien or other form of security or encumbrance whatsoever, undertake any indebtedness to any other person or enter into any guarantee of any obligation otherwise than:

(i) on an arm’s length basis;

(ii) on normal commercial terms;

(iii) for a Permitted Purpose; and

(iv) (if the transaction is within the ambit of paragraph 1) in accordance with paragraphs 4 and 5,

provided that nothing in this Condition shall prevent the Licensee guaranteeing any obligations owed by an affiliate or related undertaking of the Licensee which has been or is to be incurred for a Permitted Purpose;

(b) transfer, lease, license or lend any sum or sums, asset, right or benefit to any affiliate or related undertaking of the Licensee otherwise than by way of:

(i) a dividend or other distribution out of distributable reserves;
(ii) repayment of capital;

(iii) payment properly due for any goods, services or assets provided on an arm’s length basis and on normal commercial terms;

(iv) a transfer, lease, licence or loan of any asset, right or benefit on an arm’s length basis and on normal commercial terms and made in compliance with the payment requirement referred to in paragraph 7;

(v) repayment of any loan or payment of any interest on a loan not prohibited by sub-paragraph (a);

(vi) payments for group corporation tax relief or for the intra-group allocation of Shadow Surplus ACT calculated on a basis not exceeding the value of the benefit received;

(vii) a transfer for the purpose of satisfying paragraph 8 of Condition 14;

(viii) an acquisition of shares in conformity with paragraph 7 of Condition 14; or

(ix) a loan to any affiliate or related undertaking of the Licensee, which is made for a Permitted Purpose,

provided however, that paragraph 7 of Condition 9A shall prevail where that paragraph applies;

(c) enter into an agreement or incur a commitment incorporating a cross-default obligation;

(d) save for the Northern Ireland Power Project Finance Contract made between European Investment Bank and Northern Ireland Electricity plc on 16 December 1999, continue, or permit to remain in effect, any agreement or commitment incorporating a cross-default obligation subsisting at the date this paragraph 5(d) first takes effect, save that the Licensee may permit any cross-default obligation in existence at that date to remain in effect for a period not exceeding twelve months from that date, provided that the cross-default obligation is solely referable to an instrument relating to the provision of a loan or other financial facilities granted prior to that date and the terms on which those facilities have been made available as subsisting on that date are not varied or otherwise made more onerous,
provided, however, that the provisions of sub-paragraphs (c) and (d) shall not prevent the Licensee (or the Relevant Subsidiary) from giving any guarantee permitted by and compliant with the requirements of sub-paragraph (a).

7 The payment requirement referred to in paragraph 6(b)(iv) is that the consideration due in respect of the transfer, lease, licence or loan of the asset, good, right or benefit in question is paid in full prior to such transfer, lease, licence or loan unless:

(a) the counter-party to the transaction has, and maintains until payment is made in full, an investment grade credit rating; or

(b) the obligations of the counter-party to the transaction are fully and unconditionally guaranteed throughout the period during which any part of the consideration remains outstanding by a guarantor which has and maintains an investment grade credit rating.

8 In relation to a material disposal, any consent of the Authority pursuant to paragraph 5 shall be given after the Authority shall have consulted and taken into consideration any representations timeously made by any electricity undertaking liable to be materially affected by the disposal in question.

9 Notwithstanding paragraph 6, the Licensee shall be entitled to guarantee the payment obligations of the Power Procurement Business under the cancellable generating unit agreements.

10 In this Condition, unless the context otherwise requires:

“cancellable generating unit agreement” has the meaning given to that expression in the NIE Energy Supply Licence.

“cross-default obligation” means a term of any agreement or arrangement whereby the Licensee’s liability to pay or repay any debt or other sum arises or is increased or accelerated or could reasonably be expected to be capable of arising, increasing or of being accelerated by reason of a default (howsoever such default may be described or defined) by any person other than the Licensee (or the Relevant Subsidiary), unless:

(a) that liability can arise only as a result of a default
by a subsidiary of the Licensee;

(b) the Licensee holds a majority of the voting rights in that subsidiary and has the right to appoint or remove a majority of its board of directors; and

(c) that subsidiary carries on business solely for the purposes of a Permitted Purpose (but not a purpose identified in sub-paragraphs (b) to (e) of the definition of Permitted Purpose).

“disposal” includes any sale, assignment, gift, lease, licence, the grant of any right of possession, loan, security, mortgage, charge or the grant of any other encumbrance or the permitting of any encumbrance to subsist or any other disposition to a third party, and “dispose” shall be construed accordingly.

“indebtedness” means all liabilities now or hereafter due, owing or incurred, whether actual or contingent, whether solely or jointly with any other person and whether as principal or surety, together with any interest accruing thereon and all costs, charges, penalties and expenses incurred in connection therewith.

“investment grade credit rating” has the meaning given to that expression in Condition 9A.

“relevant asset” means:

(a) any asset for the time being forming part of the transmission system;

(b) any interest in an Interconnector;

(c) any other asset for the time being employed or held for employment by the Licensee (or the Relevant Subsidiary) in the performance of any obligation, in its the Licensee’s role as the holder of a licence under Article 10(1)(b) of the Order, under the Order, the Energy Order, the SEM Order,
or the Licence;

(d) any asset that, the disposal or relinquishment of operational control by the Licensee (or by the Subsidiary) of, would adversely affect the ability of: (i) the Transmission System Operator; (ii) the Republic of Ireland System Operator; (ii) the Northern Ireland Market Operator Licensee; and/or (iv) the Republic of Ireland Market Operator Licensee, to comply with their respective obligations in those capacities under any applicable licence, law or regulation; and

(e) any legal or beneficial right, title or interest in land upon which any of the foregoing is situate.

“relinquishment of operational control” includes entering into any agreement or arrangement whereby operational control of a relevant asset (or relevant assets) is not, or ceases to be, under the sole management of the Licensee (or, as the case may be, the Relevant Subsidiary).

“Republic of Ireland Market Operator Licensee” has the meaning given to that expression in the Northern Ireland Market Operator Licence.
Condition 9A. Financial Gearing and Credit Rating

1 The Licensee shall, within 14 days of this Condition 9A first taking effect and thereafter by 30 June of each year, submit to the Authority a certificate, approved by a resolution of the board of directors of the Licensee and signed by a director of the Licensee pursuant to that resolution, showing the Financial Gearing as at the end of the preceding Financial Year. The Licensee shall provide the Authority with such information to support that certificate as the Authority may request.

2 For the purposes of paragraph 1:

   “Financial Gearing” means Net Debt as a percentage of the regulatory asset base of the Transmission and Distribution Business such regulatory asset base being equivalent to the value of the term CRAB, as calculated in accordance with Annex 2.

   “Net Debt” means the Licensee’s (and the Relevant Subsidiary’s) total borrowings (including bank loans, debt securities, finance leases, hire purchase contracts and non-equity shares), but excluding any inter-company loans and borrowing between the Licensee and the Relevant Subsidiary, less the Licensee’s (and the Relevant Subsidiary’s) cash and cash equivalents.

3 The following paragraphs of this condition shall only apply where the Authority has issued a direction stating that they are to apply, and shall cease to apply on the expiry of any period specified for such purpose in that direction or on the Authority directing that they are no longer to apply.

4 The Licensee shall take all appropriate steps to ensure that the Licensee obtains and thereafter maintains an investment grade credit rating.

5 In this condition, an “investment grade credit rating” means:

   (a) unless sub-paragraph (b) below applies:

      (i) an issuer rating of not less than BBB- by Standard & Poor’s Ratings Group or
any of its subsidiaries;

(ii) an issuer rating of not less than Baa3 by Moody’s Investors Service Inc. or any of its subsidiaries;

(iii) an issuer senior unsecured debt rating of not less than BBB- by Fitch Ratings Ltd or any of its subsidiaries; or

(iv) an equivalent rating from any other reputable credit rating agency which, in the opinion of the Authority, notified in writing to the Licensee, has comparable standing in both the United Kingdom and the United States of America; or

(b) such higher rating as may be specified by those agencies from time to time as the lowest investment grade credit rating.

6 Paragraph 7 shall apply if at any time which is not less than 4 months after the Authority has issued the direction referred to in paragraph 3:

(a) the Licensee does not hold an investment grade credit rating;

(b) where the Licensee has a rating with more than one of the rating agencies referred to in paragraph 5, one or more of the ratings held is below those referred to in paragraph 5; or

(c) the Licensee has one of the ratings referred to in paragraph 5 and:

(i) is on review for possible downgrade; or

(ii) the rating outlook of the Licensee as specified by one or more of the credit rating agencies referred to in paragraph 5 has been changed from stable or positive to negative.

7 Where paragraph 6 applies, the Licensee may not (and shall procure that the Relevant Subsidiary shall not) without the prior written consent of the Authority (following disclosure of all material facts) transfer, lease, license or lend any sum or sums, asset, right or benefit to any affiliate or related undertaking of the Licensee as described or referred to in paragraph 6(b) of Condition 9, otherwise than by way of:

(a) payment properly due for any goods, services or assets in relation to commitments entered into prior to the date on which the circumstances described in paragraph 6 arise, and which are provided on an arm’s length basis and on normal commercial terms;
(b) a transfer, lease, licence or loan of any sum or sums, asset, right or benefit on an arm’s length basis, on normal commercial terms and where the value of the consideration due in respect of the transaction in question is payable wholly in cash and is paid in full when the transaction is entered into;

(c) repayment of, or payment of interest on, a loan not prohibited by paragraph 6(a) of Condition 9 and which was contracted prior to the date on which the circumstances in paragraph 6 arise, provided that such payment is not made earlier than the original due date for payment in accordance with its terms; and

(d) payments for group corporation tax relief or for the intra-group allocation of Surplus Shadow ACT calculated on a basis not exceeding the value of the benefit received, provided that the payments are not made before the date on which the amounts of tax thereby relieved would otherwise have been due.
Condition 10. Restriction on Use of Certain Information

1 Where the Licensee, or any affiliate or related undertaking of the Licensee, is in possession of any protected information, the Licensee shall (and shall procure that such affiliate or related undertaking shall) procure:

   (a) that neither the Licensee nor any other person shall use that protected information for the purpose of obtaining any unfair commercial advantage in relation to the Transmission Owner Businesses or any other business;

   (b) that the protected information is not disclosed to any other person (including any affiliate or related undertaking of the Licensee but excluding the Relevant Subsidiary) except with the prior consent in writing of each person to whose affairs that information relates; and

(b) such other standard of planning as is adopted, from time to time, by the Licensee (with the approval of the Authority and following consultation with those electricity undertakings liable to be materially affected thereby); and

(c) the objective of developing a system for the transmission of electricity in Northern Ireland that takes account of the benefits of efficient, co-ordinated and economical systems for the transmission of electricity on the Island of Ireland,

in each case as appropriate to the purpose under consideration, and in accordance with its role under the Transmission Interface Arrangements, and taking into account the Transmission System Operator’s obligations in relation to the transmission system in accordance with the Transmission System Operator Licence and the Licensee’s obligations under Article 12(2) of the Order.

2 In order to enable it to comply with its obligation under paragraph 1(c), the Licensee shall, in cooperation with the Transmission System Operator (pursuant to the Transmission Interface Arrangements), consult with the Republic of Ireland System Operator so as to:

(a) inform the Republic of Ireland System Operator of the Licensee’s views, from time to time, regarding the planning and development of the transmission system; and

(b) establish the Republic of Ireland System Operator’s views, from time to time, regarding the planning and development of the Republic of Ireland transmission system.

Revision of Arrangements

3 The Licensee shall, in consultation with electricity undertakings to the extent such persons are liable to be materially affected thereby, periodically (and at any time when requested to do so by the Authority) review the Transmission System Security and Planning Standards and their implementation. The Licensee shall undertake such consultation and review in common with the Transmission System Operator.

4 Following any such review, the Licensee shall send to the Authority:
(a) a report on the outcome of that review;

(b) any revision which the Licensee proposes to make to the Transmission System Security and Planning Standards from time to time (having regard to the outcome of that review); and

5. Revisions to the Transmission System Security and Planning Standards proposed by the Licensee and sent to the Authority pursuant to paragraph 4 shall require the Authority’s approval before they may be made.

6. Having regard to any written representations or objections referred to in sub-paragraph 4(c), and following such further consultation (if any) as the Authority may consider appropriate, the Authority may issue directions requiring the Licensee to revise the Transmission System Security and Planning Standards in such manner as may be specified in the directions, and the Licensee shall comply with any such directions forthwith.

Performance Standards

7. The Licensee shall, whenever requested to do so by the Authority, draw up and submit to the Authority for its approval a statement setting out criteria by which performance of the Licensee in maintaining transmission system security may be measured.

Condition 20. Obligations in Relation to Offers by Transmission System Operator

Connection

1. On notification by the Transmission System Operator that it has received an application for connection or modification pursuant to condition 25 or 27 of the Transmission System Operator Licence, the Licensee shall (subject to paragraph 4), as soon as reasonably practicable and in accordance with the Transmission Interface Arrangements:

   (a) where it has all the information it reasonably requires for the purpose of formulating such an offer, offer to enter into (and, where such offer is accepted, enter into) an agreement with the Transmission System Operator on the terms referred to in paragraph 2; or

   (b) notify the Transmission System Operator of the information the Licensee reasonably requires in order to formulate such an offer.

2. The terms referred to in paragraph 1(a) shall, in respect of the application for connection or modification in question, make detailed provision regarding:

   (a) the carrying out of works (if any) on the transmission system as are required to connect the transmission system to any other system for the transmission or distribution of electricity, and for the obtaining of any consents necessary for such purposes;

   (b) the carrying out of works (if any) on the transmission system in relation to the extension or reinforcement of the transmission system or the Distribution System rendered necessary or appropriate by reason of making the connection or modification to an existing connection and for the obtaining of any consents necessary for such purposes;

   (c) where the Transmission System Operator requests such meters, the carrying out of works (if any) on the transmission system to install meters that will enable the Transmission System Operator to measure electricity being accepted into the All-Island Transmission Networks at the specified entry point or points or leaving such system at the specified exit point or points;

   (d) the carrying out of works (if any) on the transmission system in relation to the installation of such switchgear or other apparatus (if any) as may be required for the interruption of supply;

   (e) the date by which any works so as to permit access to the All-Island Transmission Network...
Networks (including for this purpose any works to reinforce or extend the transmission system) shall be completed and so that, unless otherwise agreed by the Transmission System Operator, a failure to complete such works by such date shall be a material breach of the agreement entitling the Transmission System Operator to rescind the agreement insofar as it relates to the application for connection or modification in question;

(f) the installation of special metering, telemetry or data processing equipment (if any) for the purpose of enabling any person who is bound to comply with the Grid Code to comply with its obligations in respect to metering thereunder or the performance by the Transmission System Operator of any service in relation to such metering thereunder;

(g) the charges to be paid to the Licensee in respect of the application for connection or modification in question, and the means by which such charges have been calculated (such calculation to be based on the charging principles established in accordance with Condition 22); and

(h) such further terms as are or may be appropriate for the purpose of the agreement,

and in formulating such terms, the Licensee shall act in accordance with the Transmission Interface Arrangements, and shall (where appropriate) consult and cooperate with the Republic of Ireland Electricity Board.

Offer of terms - general

3 The Licensee shall offer terms for agreements in accordance with paragraphs 1 and 2 as soon as practicable and (save where the Authority consents to a longer period) in any event not more than 2 months after receipt by the Licensee of an application containing all such information as the Licensee may reasonably require for the purpose of formulating the terms of the offer.

4 The Licensee shall not be obliged to offer to enter into, or to enter into, any agreement pursuant to this Condition, if to do so would involve the Licensee:

(a) in breach of its duties under Article 12 of the Order;

(b) in breach of any regulations made under Article 32 of the Order, or any other enactment relating to safety or standards applicable in respect of the Transmission Owner Business; or

(c) in breach of the Conditions of this Licence;
and where the Licensee intends, in reliance on this paragraph, not to offer to enter into, or
to enter into, an agreement with the Transmission System Operator, the Licensee shall
notify the Transmission System Operator of that fact as soon as reasonably practicable and
in accordance with the Transmission Interface Arrangements.

Works on the Distribution System

5 Where in response to such applications as are referred to in paragraph 2, the Licensee
determines that works are also required on the Distribution System the references in
paragraph 2 to works on the transmission system, shall apply equally to works on the
Distribution System.

6 The Licensee shall not offer to enter into, or enter into, any agreement which includes
terms relating to works on the Distribution System pursuant to this Condition, if to do so
would involve the Licensee in breach of the Distribution Code.

Definitions

7 In this Condition, unless the context otherwise requires:

“application for connection or modification” means an application:

(a) by a prospective connectee in relation to a connection to the transmission system;

(b) by an existing connectee in relation to a modification to an existing connection to the
transmission system; or

(c) by the Republic of Ireland System Operator in relation to a connection to the Republic of Ireland
Network, or a modification to an existing connection to the Republic of Ireland Network,
which (in either case) requires the carrying out of works on the transmission system or the
Distribution System (or both).
Condition 21. Functions of the Authority - Transmission Offers

Application Disputes

1. If, after a period which appears to the Authority to be reasonable for the purpose, the Transmission System Operator has failed to enter into an agreement with any person entitled or claiming to be entitled thereto (an “applicant”) pursuant to condition 25 or 27 of the Transmission System Operator Licence and the applicant or the Transmission System Operator applies to the Authority for a determination in accordance with condition 26 or 28 of the Transmission System Operator Licence, the provisions of paragraph 2 shall apply.

2. Insofar as an applicant wishes to proceed, and following notification by the Transmission System Operator that such is the case, the Licensee shall, as soon as is reasonably practicable, offer to enter into (and, where such offer is accepted, enter into) an agreement with the Transmission System Operator which fully reflects the terms settled by the Authority in the relevant case pursuant to condition 26 or 28 of the Transmission System Operator Licence.

Amendment Disputes

3. Where either party to an agreement for connection applies to the Authority for a determination regarding a proposal to amend an agreement for connection in accordance with condition 26 or 28 of the Transmission System Operator Licence, the provisions of paragraph 4 shall apply.

4. Insofar as the Authority notifies the Licensee that the relevant TO agreement should be amended, supplemented or replaced, the Licensee shall, as soon as is reasonably practicable, offer to enter into (and, where such offer is accepted, enter into) an agreement with the Transmission System Operator to amend, supplement or replace the TO agreement as directed.

5. In this Condition, unless the context otherwise requires:

“agreement for connection” means:

(a) a Transmission Connection Agreement; or

(b) an agreement (or part of an agreement) between the Transmission System Operator and the Republic of Ireland System Operator entered into pursuant to condition 27 or 28 of the
Transmission System Operator Licence;

“application for connection” means an application to the Transmission System Operator by:

(a) a connectee or prospective connectee pursuant to condition 25 of the Transmission System Operator Licence; or

(b) the Republic of Ireland System Operator pursuant to condition 27 of the Transmission System Operator Licence;

“TO agreement” means, in respect of each agreement for connection, the agreement (if any) entered into by the Licensee pursuant to Condition 20 or paragraph 2 in relation to that agreement for connection.
Condition 22. Transmission Charging Statement

Statement of Charges

1 The Licensee shall, as soon as practicable after this Condition comes into effect (and, in any event, not later than such date as the Authority may direct) prepare (and obtain the Authority’s approval to) a statement (or statements) setting out the basis upon which charges will be made to the Transmission System Operator:

   (a) for the transmission services; and

   (b) in relation to the works referred to in Condition 20.

2 A statement prepared under paragraph 1 shall be in such form and contain such detail as shall be necessary to enable the Transmission System Operator to make a reasonable estimate of the charges to which it would become liable for the provision of such services, including such of the information set out in paragraph 3 as is required by such paragraph to be included.

Connections

3 Except to the extent that the Authority may otherwise direct, the statement referred to in paragraph 1(b) shall include:

   (a) a schedule listing those items (including the carrying out of works and the provision and installation of electric lines or electrical plant or meters) of significant cost liable to be required for the purpose of connection (at entry or exit points) to the transmission system for which site specific charges may be made or levied and including (where practicable) indicative charges for each such item and (in other cases) an explanation of the methods by which and the principles on which such charges will be calculated;

   (b) the methods by which and the principles on which connection charges will be made in circumstances where the electric lines or electrical plant to be installed are (at the Licensee’s discretion) of greater size or capacity than that required for use of system by the person seeking connection;

   (c) the methods by which and the principles on which any charges (including any capitalised charge) will be made for maintenance and repair required of electric lines, electrical plant or meters provided and installed for making a connection to the transmission system;
(d) the methods by which and the principles on which any charges will be made for the provision of special metering or telemetry or data processing equipment by the Licensee for the purposes of enabling any person which is bound to comply with the Grid Code to comply with its obligations in respect of metering thereunder, or for the performance by the Licensee of any service in relation thereto;

(e) the methods by which and principles on which any charges will be made for disconnection from the transmission system and the removal of electrical plant, electric lines and ancillary matters following disconnection; and

(f) such other matters as shall be specified in directions issued by the Authority from time to time for the purposes of this Condition.

4 Site specific charges for those items referred to in paragraph 3 shall be set at a level which will enable the Licensee to recover:

(a) the appropriate proportion of the costs directly or indirectly incurred (or to be incurred) in carrying out the works, extension or reinforcement in question and in providing, installing, maintaining and repairing (and, following disconnection, removing) the electrical lines, electrical plant, meters, special metering, telemetry, data processing equipment or other items in question; and

(b) a reasonable rate of return on the capital represented by such costs.

Alternative Statement

5 In addition to, and without prejudice to, the Licensee’s obligations under paragraph 1, the Licensee shall, upon being required to do so in directions issued by the Authority (and within such period as the Authority may specify), prepare a statement or statements approved by the Authority providing that charges for the matters set out in paragraph 1 will be made on such basis as shall be specified in the directions. Such statement or statements shall be in such form and contain such detail as shall be necessary to enable the Transmission System Operator to make a reasonable estimate of the charges to which it would become liable for the provision of such services and (without prejudice to the foregoing) including such information as shall be specified in the directions. Each statement prepared in accordance with this paragraph shall, with effect from the date on which it is approved by the Authority or such later date as the Authority shall specify, replace the corresponding statement prepared by the Licensee in accordance with paragraph 1 or, as the case may be, this paragraph (as from time to time revised in accordance with paragraph 6) which is in force at such date and the Licensee shall, with effect from such date make
charges in accordance with the statement (as from time to time revised in accordance with paragraph 6) which has replaced such corresponding statement.

Revision of Statements

6 The Licensee may periodically revise the information set out in and, with the approval of the Authority, alter the form of the statements prepared in accordance with paragraph 1 or 5 and shall, at least once in every year this Licence is in force, revise such statements in order that the information set out in the statements shall continue to be accurate in all material respects. Each such revision shall require to be approved by the Authority and shall not become effective until approved by the Authority.

7 The Licensee shall give or send a copy of the statements prepared in accordance with paragraphs 1 and 5 or (as the case may be) of the latest version of such statements in accordance with paragraph 6 approved by the Authority pursuant to such paragraph to any persons who requests a copy of such statement or statements.

8 The Licensee may make a charge for any statement given or sent pursuant to paragraph 7 of an amount reflecting the Licensee’s reasonable costs of providing such a statement which shall not exceed the maximum amount specified in directions issued by the Authority from time to time for the purposes of this Condition.

If more than one value is determined for different DNOs, the highest
value determined shall be used as the basis for the calculation.

VWACC shall be calculated using the same method as that applied in Ofgem’s final proposals (November 2004) for the DNO price control which commenced on 1 April 2005. This assumed a pre tax cost of debt of 4.1%, a post tax cost of equity of 7.5% and gearing of 57.5% (VWACC = (4.1% * 57.5%) + (7.5% * 42.5%) = 5.545%, or 0.05545 stated as a decimal number).

\[ \text{TAF}_t \]

means the transmission adjustment factor, which for relevant years \( t = 2008, 2009 \) and \( 2010 \) shall be equal to 0.005.

For relevant years \( t = 2011 \) and \( 2012 \), \( \text{TAF}_t \) shall be calculated according to the following formula

\[ \text{TAF}_t = \text{PTWACC}_t - 0.064 \]

where PTWACC means the pre-tax weighted average cost of capital stated as a decimal number calculated on the basis of the values for the pre tax return on debt and pre tax return on equity used in determining the regulated revenue entitlement for the DNOs in Great Britain for the distribution price control commencing on 1 April 2010. PTWACC shall be calculated using the same method as that referred to in Ofgem’s final proposals (November 2004) for the DNO price control which commenced on 1 April 2005. This assumed a pre tax cost of debt of 4.1%, a post tax cost of equity of 7.5% (10.7% pre tax) and gearing of 57.5% (PTWACC = (4.1% * 57.5%) + (10.7% * 42.5%) = 6.9% or 0.069 stated as a decimal number).
Dep_t means the allowance for depreciation of the regulatory asset base in year t and calculated according to the following formula

Dep_t = Fdep_t + Vdep_t

where:

Fdep_t means fixed depreciation and represents depreciation in year t on pre-vesting assets calculated in accordance with the profile determined by the Monopolies and Mergers Commission and recorded in its March 1997 report entitled “Northern Ireland Electricity plc - A report on a reference under Article 15 of the Electricity (Northern Ireland) Order 1992”, together with depreciation on network assets acquired pre 2006 and depreciation on non-operational capital expenditure incurred in the period 1994 to 1997, as further specified in the 2006 Direction.

Vdep_t means variable depreciation and represents depreciation on network assets acquired post 2005, and shall be calculated in accordance with the method specified in the 2006 Direction.

Tax_t means an amount in respect of the allowance for tax costs in relevant year t calculated in accordance with the following formula

Tax_t = 0.3/0.7 (Ret_t + NNC_t + Dep_t - Int_t - CA_t)

where

NNC_t means an amount in respect of non network capital expenditure in relevant year t calculated in accordance with the following formula

NNC_t = ANNC_t-5 * (RPI_t / RPI_t-5)

where

ANNC_t-5 means capital expenditure on non-network assets undertaken by the Transmission and Distribution Business in relevant year t-5 and in relation to relevant years 2008, 2009 and 2010, ANNC_t-5 shall be set equal to the value specified in the table immediately below:
Capital expenditure on non-network assets includes: (a) non-operational IT: IT equipment that is either located separately from the network assets or that does not directly relate to the control of network assets (this includes infrastructure and IT applications but excludes operational IT assets); (b) non-operational new assets and replacement of non-operational assets: plant and machinery, tools and equipment, office equipment, land & buildings used for administrative purposes; and (c) non-operational premises: premises used by persons (e.g. stores, depots and offices) and excluding assets (such as substations) which are used for the control of network assets.

If \( \text{CPA}_{t-1} \) is greater than \( \text{PC}_{t-1} \), then

\[ \text{RRF}_t = (\text{CPA}_{t-1} - \text{PC}_{t-1}) \]
otherwise

\[ RRF_t = 0 \]

For the avoidance of doubt, in relevant year \( t = 2008 \), \( RRF_t = 0 \).

\( PPS_t \) means the adjustment in relevant year \( t \) in respect of the NIE Powerteam Limited profit sharing scheme calculated as follows:

- If \( P_t / R_t \) is greater than 0.1 then \( PPS_t = (P_t - 0.05 * R_t) \)
- If \( P_t / R_t \) is less than or equal to 0.1 then \( PPS_t = 0.5P_t \)
- But if \( P_t \) is less than 0 then \( PPS_t = 0 \)

Where \( P_t \) and \( R_t \) mean the operating profit and revenue respectively of NIE Powerteam Limited in relevant year \( t \) as stated in the statutory accounts of NIE Powerteam Limited for that year.

The Licensee shall submit to the Authority a copy of the statutory accounts for NIE Powerteam Limited not less than 10 months after the end of each relevant year.

(iv) amounts arising under the arrangements approved by the Authority which are designed to incentivise efficiency in network capital investments, and which shall be calculated in accordance with the 2006 Direction;

(v) any reasonable costs incurred by the Transmission and Distribution Business in complying with the requirements imposed on the Licensee under legislation and other legal requirements through which Directive 2003/54/EC is implemented;

(vi) amounts that become uncollected T&D revenue in relevant year t, less any amount or part of an amount treated as uncollected T&D revenue in respect of a preceding relevant year that has been paid to the Licensee in relevant year t;

(vii) an amount not less than zero calculated in accordance with a method notified to the Licensee by the Authority (after consultation with the Licensee and such other persons as the Authority shall consider appropriate), representing amounts which the Authority is satisfied are likely to be equal to the Licensee’s costs of wheeling in respect of the relevant year in question; and

(viii) any other costs which the Authority shall determine, upon an application to it by the Licensee shall be included as excluded transmission and distribution costs.

**NSI** means the Licensee’s regulated revenue entitlement associated with any interconnectors with the Republic of Ireland for each relevant year t, as specified in the table immediately below:

3.1 If, in respect of any relevant year, the regulated transmission and distribution revenue exceeds the maximum regulated transmission and distribution revenue by more than the permitted one-year percentage, the Licensee shall furnish an explanation to the Authority and in the next following relevant year the Licensee shall not effect any increase in transmission and distribution charges unless it has demonstrated to the reasonable satisfaction of the Authority that the regulated transmission and distribution revenue would not be likely to exceed the maximum regulated transmission and distribution revenue in that next following relevant year.

3.2 If, in respect of any 3 successive relevant years, the sum of the amounts by which the regulated transmission and distribution revenue has exceeded the maximum regulated transmission and distribution revenue is more than the permitted 3-year percentage, then in the next following relevant year the Licensee shall, if required by the Authority, adjust its transmission and distribution charges such that the regulated transmission and distribution revenue would not be likely, in the judgment of the Authority, to exceed the maximum regulated transmission and distribution revenue in that next following relevant year.

3.3 In this paragraph:
“permitted one-year percentage” means 4 per cent of the maximum regulated transmission and distribution revenue; and

“permitted 3-year percentage” means 5 per cent of the maximum regulated transmission and distribution revenue in the second of the relevant years.

4. Information to be provided to the Authority in connection with the transmission and distribution charge restriction conditions

4.2 If within 3 months of the commencement of any relevant year \( t \) the Licensee has not made any such change in charges as is referred to in paragraph 4.1, the Licensee shall provide the Authority with a written forecast of the maximum regulated transmission and distribution revenue, together with its components, in respect of relevant year \( t \).

4.3 Any forecast or estimate provided in accordance with paragraph 4.1 or 4.2 shall be accompanied by such information as regards the assumptions underlying the forecast or estimate as may be necessary to enable the Authority to be satisfied that the forecast or estimate has been properly prepared on a consistent basis.

4.4 Not later than 6 weeks after the commencement of each relevant year \( t \), the Licensee shall send to the Authority a statement as to:

(a) whether or not the provisions of paragraph 3 are likely to be applicable in consequence of the regulated transmission and distribution revenue in the

(ii) no service has been treated as an excluded service other than a service permitted to be so treated in accordance with paragraph 5;

(iii) no amount included in the revenues stated in respect of excluded services represents other than bona fide consideration for the provision of the excluded service to which it relates.

(a) the regulated transmission and distribution revenue;
(b) the regulated quantity transmitted and distributed;

4.8 Where the Authority issues directions under paragraph 5.7, the Licensee shall, if so required by the Authority and within such period as the Authority shall specify, send to the Authority a revised statement in substitution for the Licensee’s statement under paragraph 4.5 in respect of the relevant year in question and such revised statement shall give effect to such directions.

5. Excluded services for purposes of Transmission and Distribution Business

5.1 There may be treated as excluded services provided by the Transmission and Distribution Business such services in respect of which charges are made which:

(a) do not fall within paragraph 5.2; and

(b) may (subject to paragraph 5.7) be determined by the Licensee as falling under one of the principles set out in paragraphs 5.3 to 5.5.

5.2 No service provided as part of the Transmission and Distribution Business shall be treated as an excluded service insofar as it relates to the provision of services remunerated under use of system charges in accordance with Condition 32 including (without prejudice to the foregoing):

(a) the transport of electricity;

(b) the carrying out of works for the installation of electric lines or electrical plant (not otherwise payable in the form of connection charges) for the purpose of maintaining or upgrading the Licensee’s transmission system and distribution system;
(c) the carrying out of works or the provision of maintenance or repair or other services for the purpose of enabling the Licensee to comply with Conditions 19, 26 and 27, the Electricity Supply Regulations (Northern Ireland) 1991 as amended by the Electricity Supply (Amendment) Regulations (Northern Ireland) 1993 or any regulations made under Article 32 of the Order or any other enactment relating to safety or standards applicable in respect of the Transmission and Distribution Business; and

(d) the provision, installation and maintenance of any meters, switchgear or other electrical plant ancillary to the grant of use of system.

5.3 The whole or an appropriate proportion (as the case may be) of the charges of the type described in paragraph 3 of Condition 22 or paragraph 3 of Condition 32 and borne by any person as connection charges in respect of connections made after the grant of this Licence may be treated as excluded services.

5.4 There may be treated as an excluded service charges for the relocation of electric lines or electrical plant and the carrying out of works associated therewith pursuant to a statutory obligation (other than under Article 12(2) of the Order) imposed on the Licensee.

5.5 There may be treated as an excluded service any service of a type not above referred to which:

(a) consists in the provision of services for the specific benefit of a third party requesting the same; and

(b) is not made available as a normal part of the Transmission and Distribution Business remunerated by use of system charges, including (without prejudice to the foregoing):

(i) special metering (including "time of day" metering) to facilitate energy saving programmes for the benefit of customers requesting the same;

(ii) prepayment metering equipment;

(iii) charges for moving mains, services or meters forming part of the Licensee’s distribution system to accommodate extension, re-design or re-development of any premises on which the same are located or to which they are connected; and
(iv) the provision of electric lines and electrical plant (a) insofar as the same are required for the specific purpose of enabling the provision of top-up or standby or (b) to provide a higher degree of security than is required for the purposes of complying with Condition 19.

5.6 The Licensee shall following the end of each relevant year furnish to the Authority, as being one of the specified items to be included in the statement referred to in paragraph 4.7, details specifying separately the nature of all services provided as part of the Transmission and Distribution Business and treated as excluded services by the Licensee during the course of such year and stating the revenues derived in respect of each such service so treated.

5.7 Where the Authority is satisfied that it is reasonable in all the circumstances that any service treated by the Licensee as being or not being an excluded service should not be so treated, the Authority shall issue directions to that effect. Any such directions may, where a service is directed to be treated as an excluded service, contain such conditions as the Authority shall see fit in relation to the charges which the Licensee may make for such excluded service and the other terms and conditions upon which the Licensee may provide such excluded service. In accordance with the terms of such directions, such service shall cease to be treated as an excluded service with effect from the date of issue of such directions or such earlier date (being not earlier than the commencement of the relevant year to which the statement last furnished to the Authority pursuant to paragraph 4.5 prior to issue of such directions related, unless such statement or the accompanying report or certificate referred to in paragraph 4.6 or any earlier such statement, report or certificate was incorrect or misleading in any material respect) as may be specified in the directions.

6. Allowances in respect of security costs

6.1 At any time during a Security Period, the Authority may (having regard to its duties under the Energy Order) by means of directions:

(a) suspend or modify for the unexpired term of the security period the transmission and distribution charge restriction conditions or any part or parts thereof; or

(b) introduce for the unexpired term of the security period new transmission and distribution charge restriction conditions

in either case, so as to make such provision as in the opinion or estimation of the Authority is requisite or appropriate to enable the Licensee to recover by means of
appropriate equitable increases in the charges made in the course of the Transmission and Distribution Business an amount estimated as being equal to the Licensee’s allowed transmission and distribution related security costs during such period, and the Licensee shall comply with the terms of any directions so issued.

6.2 Subject to paragraphs 6.3 and 6.5, the Licensee shall in any relevant year be entitled to recover an aggregate amount equal to the Licensee’s allowed transmission and distribution related security costs in that year or (insofar as not previously recovered) any previous year, by means of appropriate equitable increases in the charges made by the Licensee in the course of the Transmission and Distribution Business.

6.3 Paragraph 6.2 shall not apply insofar as such Licensee’s allowed transmission and distribution related security costs:

(a) were otherwise recovered by the Licensee; or
