Condition 1.21: Regulatory Instructions and Guidance

1.21.1 Introduction

- (a) The purpose of this Condition 1.21 is to set out the scope, contents, and common governance arrangements for the Regulatory Instructions and Guidance (“RIGs”) published by the Authority pursuant to this condition.
- (b) The RIGs are the primary means by which the Authority directs the Licensee to collect and provide the information to the Authority that the Authority needs to enable it to administer the Price Control Conditions Part 3 of this licence and any determinations made by the Authority under or for the purposes of the Price Control Conditions.

1.21.2 Licensee’s obligation under this condition

- (a) Unless and so far as the Authority otherwise consents, the Licensee must have in place and maintain appropriate systems, processes, and procedures to enable it:
- (i) to estimate, measure, and record the information detailed in the RIGs (“specified information”); and
- (ii) to provide such information to the Authority in respect of such periods and within such timeframes as are specified in the RIGs.

(b) To facilitate compliance with paragraph (a) of this Condition 1.21.2, the accounting records and other records kept by the Licensee with respect to the specified information must:

(i) be so arranged as to ensure that such information can be separately identified and reasonably attributed as between the Licensee's business and the business of any affiliate or related undertaking of the Licensee; and

(ii) be maintained for a period of eight years, or such shorter period as set out in the RIGs, from the date that they are made.

1.21.3 Scope and content of RIGs

(a) Subject to paragraphs (b) and (c) of this Condition 1.21.3, the matters that may be included, or for which provision may be made, in the RIGs are:

(i) instructions and guidance on the establishment of systems, processes, procedures, and ways for recording and providing specified information;

(ii) instructions and guidance on the standards of accuracy and reliability that are applicable to the recording of specified information (including different classes of such information);

(iii) a timetable for the development of such systems, processes, and procedures as are required to achieve such standards;

(iv) the methodology for calculating or deriving numbers comprising specified information;

(v) provision with respect to the meaning of words and phrases used in defining specified information;

(vi) requirements as to the form and manner in which, or the frequency with which, specified information must be recorded;

- (vii) requirements as to the form and manner in which, or the frequency with which, specified information must be provided to the Authority;
 - (viii) requirements as to which (if any) of the specified information is to be subject to audit, the terms on which an auditor is to be appointed by the Licensee for that purpose, and the nature of the audit to be carried out by that person;
 - (ix) requirements as to the circumstances in which the Authority may appoint an examiner to examine the recording of the specified information by the Licensee;
 - (x) a statement on whether and to what extent each category of the specified information is required for the purposes of the RIGs; and
 - (xi) provision about how the Authority intends to monitor, assess, and enforce compliance with the RIGs (as to which, see also Condition 1.21.6).
- (b) The provisions of the RIGs must not exceed what is reasonably required to achieve the purposes of this condition, having regard to the materiality of the costs likely to be incurred by the Licensee in complying with those provisions.
- (c) No specified information may exceed what could be requested from the Licensee by the Authority under Condition 1.3.1.

1.21.4 Development and modification of the RIGs

- (a) The Authority may issue new RIGs or modify any existing RIGs by issuing a direction for that purpose to the Licensee.
- (b) Data collected in relation to each formula year must be reported according to the RIGs issued to the Licensee by the Authority as

they may be (where applicable) modified in line with this Condition 1.21.4 and with Condition 1.21.5.

(c) A direction issued by the Authority under paragraph (a) of this Condition 1.21.4 will be of no effect unless the Authority has first:

(i) given notice to the Licensee that it proposes to issue new RIGs or (as the case may be) to modify the RIGs:

(A) specifying the date on which it proposes that the provisions of the document to be issued or modified should take effect;

(B) setting out the text of the RIGs to be issued or (as the case may be) modified and the Authority's reasons for proposing to issue or modify it; and

(C) specifying the time (which will not be less than a period of 28 days from the date of the notice) within which representations in response to such proposals may be made; and

(ii) considered any representations in response to the notice that are duly made and not withdrawn.

(d) The requirements for the issuing of new RIGs or modification of existing RIGs set out in paragraph (c) of this Condition 1.21.4 may be satisfied by actions taken by the Authority before as well as after the coming into effect of this condition.

1.21.5 Requirements for new or more detailed information

(a) This Condition 1.21.5 applies if any modified or new RIGs have the effect of introducing a requirement to provide:

(i) a new category of specified information; or

(ii) an existing category of specified information to a greater level of detail,

which has not previously been collected by the Licensee, whether under the provisions of the RIGs or otherwise.

(b) Where this Condition 1.21.5 applies, the Licensee may provide estimates to the Authority in respect of the relevant category of specified information for any formula year specified by the Authority.

(c) The estimates that are mentioned in paragraph (b) of this condition may be derived from such other information available to the Licensee as may be appropriate for that purpose.

1.21.6 Compliance with the provision of the RIGs

(a) The Licensee must at all times comply with the provisions of the RIGs for the time being in force pursuant to this condition.

(b) Where the Licensee holds more than one gas conveyance licence within a single legal entity, it must comply with the requirements of this condition separately in respect of each such licence.

(c) Nothing in this condition requires the Licensee to provide any documents or give any information that it could not be compelled to produce or give in evidence in civil proceedings before a court.
