**Proposed Modification of Gas Conveyance Licences to Implement Decision on Harmonised Transmission Tariff**

Dear Jillian,

GMO Northern Ireland (GMO NI) is grateful to have the opportunity to respond to this consultation as the single gas market operator for the transmission network in Northern Ireland, a collaboration of the four Transmission System Operators (TSOs).

GMO NI consider the licence changes to appear reasonable for the implementation of the Utility Regulator decision on the transmission tariffs.

Should you wish to discuss our response please do not hesitate to contact me.

Yours sincerely

Claire Stewart  
Finance Manager
